## MONCTON AGAIN WIN FROM SUMMERSIDE

MONCTON, Aug. 30.—On Saturday afternoon the Summerside nine tasted defeat at the hands of the locals, the count standing 12 to 2 at the end of the eighth inning when the visitors had to leave to catch the boat train. There was considerable hitting, but like the game on Friday night there was no work of a sensational character. Stuart, in right field for the Islanders, however, had several fine catches to his credit, and McLeod, the Moncton backstop, had his batting togs on, getting five singles out of five times at bat.

Tyle Armour was on the firing line for the locals, and with his deceptive outshoot, this diminutive heaver had the visiting players working overtime trying to connect, allowing only four scattered hits. McQuarrie opened the game in the box for the Island nine, but weakened after a few innings and gave way to Morrison, who finished the game.

## TRUTH, LIKE MURDER, WILL OUT

By the Patriot's Office Cat

"Well, how goes the good fight?" asked Our Farmer Friend of the editor, after the usual greetings had been exchanged. "What are the prospects for the Liberals?"

"Do you want my private opinion or my public opinion?" asked the editor.

"I want to know how the fight is going, that's all."

"Well, speaking publicly, it's going along all right. We have a new leader, and have just formulated a new platform."

"I see you have," said the old man, and the tone in which he said it caused the boss's jaw to fall so low that I expected it caused the boss's jaw to fall so low that I expected to hear it strike the floor with a dull hud.

"Well, between you and me I don't think either is a thing to conjure with."

"What's the matter with the leader? You know he was the choice of the candidates; and this does not necessarily mean that he is a choice of the party."

"That statement is rather ambiguous. Do you mean that if a convention of the party were held a different choice might have been made? I have heard many murmurings of discontent over the choice among prominent Liberal workers. Couldn't you do better?"

"The matter was left to the candidates themselves. It is their funeral," said the boss, "and not mine."

"I'm afraid it's going to be the party's funeral. I'm afraid it's going to be your funeral and the funeral of lots of other political nine-pins. The Conservatives are all tickled to death over the choice of leader and the platform that has been adopted. That, in itself, is a bad sign."

"Many people on the Liberal side," he went on, "think it is infradroit for a governor to embroil himself in petty local politics just after vacating the gubernatorial chair. They think it is almost as bad as for a governor to spend his time selling tea and sugar in small lots to the farmers, or cheapening the position by allowing his name to be associated with commercial enterprises of a speculative character whilst drawing a princely salary from the government of the day."

"Yes, I have heard those things, or some of them, before," said the boss, "but what has been done can't be undone."

"More's the pity," interjected the old man. "But I suppose we'll have to make the best of it now."

"By the way," he went on, "that platform's a curious bit of work. It is so much like the Conservative policy that I fear it must have been suggested by someone with a leaning towards that party. You know that as Governor it was the new leader's business to sign the minutes of all meetings of the Mathieson Government, and when he signed them he practically approved of what was done. If the Mathieson Government did anything wrong it was the Governor's privilege to refuse to sign the minutes. It is a little late in the day now for him to come forward and denounce the Mathieson administration. If the administration did anything wrong during his term of office he had his opportunity for making things right, but I never heard that he exercised it."

"But what's the use of talking. The choice of leader, and the platform put out by the new head of the party, shows the little hope the Liberals have

## INDIAN PRINCE FEARED ATTEMPT TO CAPTURE HIM.

MONTREAL, Aug. 30.—Jagajit Singhadur, Maharajah of Kapurthala who visited Montreal a month ago, sailed from New York on the steamship Rotterdam, and has landed at Falmouth, England. His Highness was in Falmouth before anybody in New York knew he had left there. Accompanied by his wife, son and the rest of the party, all of whom occupied the viceregal suite at the Ritz-Carlton Hotel here about a week recently, the Maharajah departed secretly from New York because he feared German raiders might attempt to capture him.

Accordingly the party went aboard the Rotterdam two days before she was scheduled to sail, no one but a few friends and officials knowing of their movements. They made the trip to the Hoboken pier at night in closed autos, curtains drawn. After they were on board, the pier was closed to the public.

Another point of interest is that, to carry out the deception further, the Maharajah arranged to have the great house on Long Island which he had rented for the season, kept open for the purpose of creating the belief that he was still there. Indian servants replaced his own and kept the mansion moving so that suspicion would not be aroused among the neighbours, that the party was gone.

## CIVIC COMMITTEE IN WARSAW RAISES LOAN OF \$2,500,000.

WARSAW, via London, Aug. 30.—The committee of citizens which is discharging the functions of city government here has voted to raise a loan of 50,000,000 rubles (\$2,500,000). The committee on schools has applied to the German civil government for permission to obtain from Cracow, Galicia, school books published in the Polish language for use in the schools here. The Russians carried away with them nearly all the available books, and other movable property, from the public library and other institutions. The German military and civil authorities have installed themselves in the Russian government buildings.

## CANADIAN KILLED IN MEXICO CITY.

OTTAWA, Aug. 31.—Inquiry has been made of officials here for the relatives of Marshall Miller, a native of Canada, who was recently killed by a stray bullet during the fighting which took place in connection with the capture of the city of Mexico by the forces of General Carranza on the 22nd inst. Nothing further is stated. Anyone able to furnish information might communicate with the Chief Commissioner of Police, Ottawa.

## EIGHTEEN CANADIAN OFFICERS WOUNDED IN ACTION.

MONTREAL, Aug. 30.—Eighteen wounded Canadian officers, with doctors and nurses attending them, came home last night, when, at 7.15 o'clock, the Canadian Pacific steamship Missanable docked at Montreal from Liverpool. Great satisfaction with the way they had been treated in the hospitals of France and England, and also on ship while returning, was expressed by the men, while the medical men with them praised the excellent spirit and grit which the wounded men themselves displayed. One of the party was Mrs. Lorne Gardner, of Ottawa, who had been entrusted at the front with collecting information about wounded and killed soldiers for the Canadian branch of the British Red Cross Society. She speaks of the gallant work of the Canadians in saving Calais, and of the realisation and appreciation of this by the French people.

## ALIEN TRIED TO COMMIT SUICIDE.

WINDSOR, Ont., Aug. 31.—Charles Respa, of Detroit, brother-in-law of Carl Schmidt, one of the three men named in connection with the dynamiting recently, attempted to commit suicide yesterday afternoon by breaking the crystals in his watch and slashing the arteries in his wrist with the broken pieces. He had been remanded in the morning for ten days by the magistrate on charges of dynamiting and conspiring to dynamite.

What appeared at first to have been a blunder on the part of the Canadian officials in mistaking Respa for Schmidt now appears to have been the result of clever operations by Canadian operatives as Respa has been constantly under surveillance since the date of the outrages and his excursion to Bois Blanc in company with the wife of Schmidt, who is now interred in the military camp at Kingston, was provided for.

## FROST IN MANITOBA, BUT CROP MOSTLY CUT.

BRANDON, Man., Aug. 31.—Early Thursday at the Dominion Experimental Farm here 12 degrees of frost were registered by the thermometer, which had been placed on the ground.

## CAPTAIN'S CERTIFICATE SUSPENDED.

HALIFAX, Aug. 30.—Captain Edward O'Toole, commander of the British steamer Silver Wings, which wrecked on Sable Island, 17th of August has had his captain's certificate suspended for a period of one year from August 30th, 1915, to August 30th, 1916. The court, however, recommended that he be granted a mate's certificate during the period under suspension.

Such was the result of the inquiry into the loss of the Silver Wings which closed at Halifax to-day. The sentence of the court was based on the finding that the master was in default for not using lead and reckless navigation.

The court further found that the mate, Thomas Jones, kept his log in a very slack manner, did not take interest in the navigation and took over his watch without checking off the ship's position, and he was therefore suspended of his master's certificate for three months from August 30th, 1915, to November 30th, 1915, without the option of a lower grade certificate being issued.

The Silver Wings struck a sand bar off Sable Island on August 17th and became a total wreck. She was loaded with steel for Russia and was bound from New York to Archangel when stranded.
