Two Stores In Summerside Where Price Is Matched With Quality

Long Distance Flight Completed Yesterday

Another long distance flight by the members of the specialist navigation course now undergoing training at the R.C.A.F. station, Summerside, was completed late yesterday afternoon.

The purpose of the trip was to give the course an opportunity to visit R.A.F. navigation schools and research and manufacturing institutions. Squadron Leader W.L. Gillespie, who was in charge of the flight, said on arrival that the trip had been most profitable and that they had got a lot of ideas

Mr. Hughes

(Continued from Page 5)

the Dominion-Provincial conference on taxation and quoted excerpts from Hansard in support of his claim that the Premiers of Ontario and Quebec had broken up the conference.

Mr. Speaker Cullen: "That is as far as I can allow the hon. member to go on this motion. The contents of the bill cannot be discussed at this time."

Mr. Mathieson said he just wished to show that there was no attempt to "put anything over" on those who were opposed to the original provisions.

The vote was then called, with the result above mentioned.

DIVORCE COURT

In an amendment to the Divorce Court Act, passed yesterday morning, it is provided that the Chief Justice may order any action on record or pending to be transferred to the Supreme Court, provided that such action is not opposed by any party to the proceedings, or by the King's Proctor.

Opposition members suggested that it was doubtful if the House had jurisdiction to pass this amendment.

Hon. Dr. MacMillan took strong exception to the manner in which the Divorce Court Act had been brought into force after having been voted down in the Legislature and afterwards enacted by order-in-council.

The bill was finally passed on the undertaking of the promoter, Hon. F. A. Large, that there would be a reference to the Supreme Court to decide on its validity.

"An Act for raising money on the credit of the Consolidated Revenue Fund," which passed the committee stage without much discussion, authorized bond borrowings to an amount not exceeding \$3,000,000 for various specified purposes.

An amendment was also passed to the Act providing for grants to retired civil servants, increasing the amount from \$800 to \$900.

NO POWER SHORTAGE

STOCKHOLM—(CP)—Due to the mild weather, which brought rain instead of snow in many places, Sweden's reserve dams are now filled to 63 per cent of capacity, as against 27 per cent at the same time last year. This surplus is a great aid to electrical power production.

The speaker then warned against the rising cost of government and stated that "when the cost of government is half the earnings of the people, the civilization has gone to pieces."

In Canada today the cost of government is nearly one-third the national earnings and in the U.S. almost one-quarter.

Mr. Hughes recounted his experience since becoming Provincial Treasurer in 1943. He deplored the

lack of proper records and eventually prevailed on his colleagues — without difficulty — to have an external audit. This he believed was the first complete external audit ever carried out of the Province's finance.

He paid tribute to the men who had done such a good job on the provincial books for as much as 25 years, and advocated an annual audit which would be relatively easier than intermittent audits.

Mr. Hughes also spoke of figuring out — in spare time in Ottawa — a method that should give control of expenditures. Apparently it worked. "That is one thing I did!" he declared.

Mr. Hughes also insisted that "this Province should know what figures the Dominion will set down. That information can be secured — and should be secured."

He proceeded to mention other necessary figures including the totals of taxes collected in Canada, outside those collected by the Dominion Government and the profits of outside corporations, made in the Province.

Mr. Hughes hoped that Canada would never be burdened by a national adjustment grant which had been referred to by the Leader of the Opposition. He said it was a failure in Australia and doubted if any Province in Canada would submit to it.

Speaking of Prince Edward Island and trade with Newfoundland, Mr. Hughes said he was shocked last January. An old friend from Newfoundland, whom he had met casually, stated that there was a good job — and that he had heard that this trade would be carried on by a company which handles pit-props on the Island.

The speaker then warned against the rising cost of government and stated that "when the cost of government is half the earnings of the people, the civilization has gone to pieces."

S'ide Radio Auction Proves Huge Success

The annual radio auction of the Summerside Y's Men's Club was held on Wednesday afternoon and evening over the local radio station and was a great success, the gross amount of the bids being \$2,524.00. The sum of \$48.00 was made by individual members of the club complying to requests for songs and recitations.

All members of the club participated in some way according to the following schedule: Co-chairmen, Edwin Estey and Clarence Mercer; telephones, Geo. Clarke, Horace MacFarlane, Ralph Miles, Farlane, Harold Rode, Lloyd Gorhill, Jock Hopkirk, Roy Pollard, Frank Cameron, Fred Bingham, H. T. Holman Jr.; clipping board, Lucas Allen, Allison MacLean, Art Rogers; auction board, Ken Callbeck, Louis Bezeau, Don Sears; doorman and runner, Lindsay Willett; listing and describing articles, Lucas Allen, Roy Pollard, Lindsay Willett; advertising and publicity, Roy Pollard; window dressing and wraps and packing articles, Bill Currie, Hillard Clark, Ron Jeffery; entertainment, Dick Hentron, John Leury; totalling bids, Bill Currie, Lowell Hancock; announcers, Ross MacKenzie, Arch Hopkins, Tony Williams, Charles Linkletter; preparing auction room, Geo. Clarke; installation of telephones, R. T. Holman, Jr.

that will help in adjusting the training at Summerside. He said that before going over he had not been convinced of the value of these liaison visits but now he considers them to be most important.

Besides receiving much valuable information he said that they were able to impart some useful knowledge to the R.A.F. particularly on Arctic flying.

They also had the opportunity of inspecting some of the new high-speed jet planes now being put into service by the R. A. F. Squadron Leader Gillespie also said that the R.A.F. Lincoln aircraft, the Arles, that flew over the North Pole about a year ago is expected to make a training flight to Summerside in the fall.

Mr. Hughes also spoke of figuring out — in spare time in Ottawa — a method that should give control of expenditures. Apparently it worked. "That is one thing I did!" he declared.

Mr. Hughes also insisted that "this Province should know what figures the Dominion will set down. That information can be secured — and should be secured."

Says Op. Leader Would Make Best Health Minister

"If we had the leader of the Opposition on this side of the House, he would make the best Minister of Health we ever had," declared Mr. C. W. Delaney (L-5th Prince) in concluding his remarks in the Budget debate in the Legislature yesterday.

"What about the present Minister?" asked Mr. R.R. Bell.

"He is good, but he wouldn't be as good as the leader of the Opposition," Mr. Delaney replied.

He made reference to the satisfactory supply of C. N. R. reefers cars this year, and quoted from an editorial note in The Guardian concerning railway activities during the recent storm which tied up other forms of transportation.

He urged the raising of more revenue through liquor sales, stating that in Nova Scotia there was a net profit this year of \$3,172,747 from this source, and in New Brunswick a profit of some \$600,000.

He called attention to the excellent condition of the cement highways built in Summerside in 1931, and in Borden in 1934. He gave Conservatives credit in this connection, stating that roads of this kind were built to last a lifetime, and cost nothing for upkeep.

"The pay enough in maintaining our asphalt roads to pay the interest on \$3,000,000 of cement roads," he said.

In speaking on the Workmen's Compensation Act on Wednesday, Mr. Delaney had suggested that either Mr. C.T. Montgomery, superintendent of the Island Division, C.N.R., or Mr. Ross McEwen should be appointed to the Board. In yesterday's report of his remarks he was erroneously quoted as saying that both these gentlemen should be appointed.

BUYS BRITISH PLANES

CALCUTTA, India—(CP)—The commander-in-chief of the Royal Indian Air Force is in the United Kingdom on a purchasing mission. Among the planes he will buy are Jet Vampires, Mitchell bombers, Tempests, Spitfires and Hurricane fighters.

ALUMINUM SCHOOLS

BRISTOL, Eng.—(CP)—Schools are being constructed from aluminum in Britain with the first three being opened here recently by the minister of education. Orders for 192 more aluminum schools have been received.

NEW STEAMSHIP COMPANY

ST. JOHN'S, Nfld., March 24—(CP)—A new company, to be known as Newfoundland Great Lakes Steamship Limited, will begin freight service from here to Toronto and Hamilton with the opening of St. Lawrence River, it was learned today.

BABY'S UPSET STOMACH QUICKLY CORRECTED

BABY'S Little "Tummy" is often easily upset. It is easily righted again, too, if you know just how to do it. Let Mrs. E. A. Own of London, Ont., tell you: "Baby's Own Tablets are a great help at the first sign of upset stomach, during teething time or when a cold is coming on. They work quickly yet gently to carry away poisons and promote rest and comfort."

And Mrs. W. E. Sharp says: "I nursed my baby shortly after being alarmed over a motor accident and her stomach became quite upset. I gave her Baby's Own Tablets and she soon stopped crying—and quieted down."

Equally effective for teething troubles, constipation, simple fever, sweet-scurvy, easily crushed to a powder. If desired, promptly in action. No "sleeping" stuff—no dulling effect. Buy a box today for sicknesses so often strikes in the night. 25 cents.

Flora Farnum—Shirley Stewart.
