632 GERRARD ST. EAST, TORONTO.

"For two years, I was a victim of Acute Indigestion and Gas in the Stomach. It afterwards attacked my Heart and I had pains all over my body, so that I could hardly move around. I tried all kinds of Medicine but none of them did me any good. At last I decided to try "Fruit-a-tives" and bought the first box last June, and now I am well, after taking only three boxes. I recommend "Fruit-a-tives" to anyone suffering from Indigestion."

EARNSCLIFFE NOTES.—Messrs John and Harry Tweedy are to be congratulated for the large number of prizes they secured at the Provincial Exhibition. As successful sock raisers these two gentlemen have few equals in the part of the province. Some of our farmers dug their potatoes last week and some this week. A good crop is the word. Miss Grace Cavanagh, and her mother, went to Charlottetown last week with friends in Cardigan. The many friends of Miss Annie Dodd are pleased to see her home again from a long and pleasant visit with friends in Maine. The apple pie crop this year is the best for many years.

SYNOPSIS
"THE BLACK-LIST" is the name given to the system by which certain big industrial concerns keep track of discharged employees, making it impossible, through the interchange of information, for the employee to obtain work elsewhere. With Blanche Sweet as the star, the Jesse L. Lasky Feature Play Company presents on the Paramount Program a thrilling photoplay in which, for the first time in the history of the screen, this much despised system of "black-listing" is exposed. The play is entitled "The Black-List" and was written by William C. DeMille and Marion Fairfax. Many will discover in this photoplay a parallel with the horrible happenings and revelations of a year ago when in Colorado the state and federal troops were called to quell a war of death between striking miners and mine guards. Blanche Sweet, whose power as an actress is strong and intensely human, takes her increased popularity and growing popularity appears in the leading role in "The Black-List" in a part which gives the tale of thousands of striking miners who have taken up arms against strike-breakers. The story does not end with a thrilling representation of the conflict, but is carried through to a conclusion in which the authorities give a substantial remedy to the problem of the war between capital and labor.
