Persons using flour should always ask for flour made from Manitoba wheat as it absorbs more water than any other and makes better bread. Ask for Robinson's. If you can't get Robinson's get Five Acres or Royal Household. These ought to be as good as they are ground from the same kind of wheat and by the same process. 3-4d31.

Mrs. Joseph M. Gallant, St. Raphael, had an experience with a hawk the other day that ended disastrously for the latter. The bird, an unusually large one, had visited her hen house on several occasions and notwithstanding the fact that it was Lent, fared sumptuously every day on the fattest of the chickens Mrs. Gallant, wishing to save some of the flock for her family, watched for him. They met in mortal combat. The bird was plucky, so was Mrs. Gallant who seized him by the neck. He used his claws to good effect tearing Mrs. Gallant's arm very severely. She, however, succeeded in dragging him to the house where he was speedily despatched. Mrs. Gallant's arm is quite badly inflamed but unless blood poisoning sets in, will be alright in a few days.

An item that recently appeared in The Guardian giving the gross amount realized by Mr. Noonan, Albany, from his farm, has provided considerable discussion and comparison. At the meeting of the Farmers' Institute held at Albany last Friday, Mr. Noonan having been previously requested, gave an itemized statement showing that from May 15 to date, the total receipts from actual sales of farm products amounted to \$1828.44. The late fall potatoes, much of oats, the winter milk and a few other items were not included. Mr. Noonan was warmly congratulated by his fellow members on the success of his farming operations. On being questioned as to his methods he explained that each of his four boys whose ages ranged from twenty to fifteen, has his own department to look after, all working in harmony, comparing notes, discussing ways and means and adopting what they ultimately consider the best methods. He pays special attention to his cattle and his favorite breed is Holstein. Besides being a good farmer Mr. Noonan claims to be an expert angler and would try conclusions with any disciple of Isaac Walton, provided he is allowed to take with him his fishing partner Platiz Cameron.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising.
