Kitchen Work

Women Who Do Their Own Work: Suppose you could save six minutes every day in washing and pans—two minutes after every meal. In this, this would amount to a saving of three hours, this disagreeable but necessary work. Saving can be made by using **SMP** enameled utensils, as their smooth sanitary surface does not absorb dirt or grease. No scraping, scouring or scrubbing is needed when you use Diamond or Pearl Ware. A water and a dish towel is all you need. Ask for

SMP Enameled WARE

"A Face of Porcelain and a Heart of Steel"
 The finishes: Pearl Ware, two coats of pearly grey inside and out. Diamond Ware, three coats, light and white outside, white lining. Crystal Ware, three coats, pure white inside and out, with Royal Blue

WAS GIVEN SHELTER.—The elderly lady enroute from Fredericton to Charlottetown, was found wandering about the streets and was taken to the police station where she was afforded shelter in the women's ward. Relatives called on the police station from Charlottetown later and made arrangements to have the woman forwarded to her destination. Mr. Chas. Meikle, travelling passenger agent, caring for the lady en route.

HAD NARROW ESCAPE.—During the electrical storm of last Tuesday night lightning struck the home of Mr. Cecil Forbes at Tyne Valley. The bolt entered by the chimney and left by the porch, which was torn up considerably. Mr. Forbes having a very narrow escape. The residence of Mr. Bernard at St. Eleonors was also struck in about the same manner, the chimney being hit and smashed to below the roof the shingles being torn off. It tore out the screen window and broke the window sill in two, the concussion blowing a hole in the stove pipe and scattering a lot of soot about the room. The only occupant of the room was a sleeping baby which escaped unharmed.

CAMERA 60 FEET LONG TO PHOTOGRAPH ECLIPSE
 TUSCON, Ariz., July 16.—Immense telescopic cameras 40 and 60 feet long, gigantic reflectors and a number of smaller instruments will be moved into Mexico for the purpose of photographing the sun during its total eclipse next September, according to plans announced here by Dr. A. E. Douglas of the University of Arizona.

Dr. Douglas will head an expedition while a second will be conducted by Professor W. A. Cogshall of the University of Indiana.

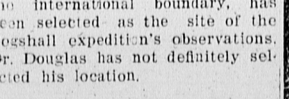

The Douglas expedition will take with it a 40-foot focus camera which will reproduce the sun with a five-inch diameter. An even larger will be taken by the Cogshall expedition.

These cameras will be held in position by means of specially constructed towers.

San Felipe, 14 miles south of the international boundary, has been selected as the site of the Cogshall expedition's observations. Dr. Douglas has not definitely selected his location.
