This company has options on five pairs of the best Island bred stock, including the Dalton. The capitalization is \$60,000 and the company is considered one of the best on the market for aret investors. They have secured a John Lewis, Royalty, as ranch manager one of the most careful and competent caretakers in the Province. Before investing in the fox industry it is a wise plan to make inquiries as to the location of ranch as well as to the merits of the caretaker. The 1913 are now selling in the vicinity of \$12,000 a pair and those most interested in the business—those who have been studying its outcome—claim that 1913 pups will soon advance to \$15,000 a pair. Should these prophecies turn out correct the shares in the Standard ranch will soon sell at a premium. Interested investors are requested to make application for stock quickly before it is too late.
