—MR. THOMAS McCARRON—Gone from this world with its trials and sorrows, to that Heavenly Home where the faithful find rest. His life may be taken as truly a model by those whose ideals are always the best. The Parishoners of St. Mary's Road West were once more called upon to surrender one of their number when on Sunday, April 30th, the soul of Mr. Thomas McCarron, uncle of Mrs. Harry Fraser of Georgetown departed from this life to the abode of Eternal happiness. Deceased was always of a happy and cheerful disposition, and will be greatly missed by his many friends. During his illness he was frequently visited by his Pastor, Rev. G. McCabe, who administered to him the last rites of the Roman Catholic Church. His funeral was largely attended. Deceased leaves to mourn a sorrowing widow and one daughter, Mrs. McGuigan at home, to whom sincere sympathy is extended. May his soul rest in peace. A

the amputation of a limb just below the knee, at St. Mary's Hospital, Rochester, Minn. Mr. Schurman had suffered a great deal for some time with his leg. His attending physician, Dr. K. Arouni, with other consulting doctors, decided that amputation was the only remedy, and advised removal of the patient to the Mayo Brothers Hospital in Rochester, Dr. Chas. Mayo and other physicians agreed that amputation was necessary. Dr. Henderson, one of the most highly regarded physicians in Rochester, performed the operation, which was done under a local anesthetic and was most successful. All friends of Mr. Schurman in St. Paul, where he lived for about forty years and is highly respected, as well as those here in the West, and in his home town of Summerside, P. E. I., will be pleased to hear of his ultimate recovery.

Any music
Any Time!

With the new Orthophonic Victrola the music is real--you may have any kind--and you may have it when you want it.

There is always a "first time" during which we form certain impressions that never again leave us. So it is with that amazing new instrument, the new Orthophonic Victrola. Whether you first meet it during day or night, you will never forget that great surprise at hearing real singers, real players, real orchestras—real music. Liquid trebles,—gruff basses,—all there!

How do they come here so completely? What magic put them there?—to release them for you, in such profusion of choice, at the precise moment you command?

For this magic of the new Orthophonic Victrola,—you and we must thank the scientists who spent so many of their years in developing the principle of "Matched Impedance" or "smooth flow of sound". Placed in Victor's hands only two years ago, this principle swept away old methods and traditions, and has been transmuted into all the music of all the world, to be spread into millions of homes.

So now you may have beautiful, real music, as you wish and when you wish,—from graceful cabinets which anyone can own,—from \$1400 down to as low as \$115. Electrical drive, if you choose, at slight additional cost, eliminates winding. At all His Master's Voice dealers on convenient payments.
