OF ALL THE GOOD THINGS. in the grocery store—and there are many—there is none superior to MORSE'S SELECTED ORANGE PEKOE tea. Ask the grocer who sells it if this is not true.

THE HOOVER — On special Xmas terms; $2.00 down; the balance in easy monthly payments An opportunity. Beer and Weeks Nov 291i

ARRIVED WITH HORSES — Mr. A. K. McNeill of Southport, arrived with a car load of 20 general purpose horses from Kelliher, Sask. This is the third car load which he has brought to the Island this year. The horses were in charge of Frank Duffy, son of Mr. William Duffy, from Southport. Frank has been growing wheat near Killiher for the past two years.

VISITED EXHIBITION.— Mr. J V. Murphy, station agent at Murray River, accompanied by Mrs. Murphy has returned from a two weeks visit to Montreal and Toronto. While in Toronto Mr. and Mrs. Murphy visited the Winter Exhibition and were particularly interested in the splendid fox show. Many thousands of visitors are taking in the exhibition, which is one of the largest of its kind held in Canada.

ISLANDER WINS— Announcement of the awards in the classes for dairy produce at the Central Canada Exhibition, Ottawa, show that T. S. McGrath, manager of the Birch Hills branch of the Saskatchewan Co operative Creameries Limited of Saskatoon, won first prize in the creamery butter classes both for solid pack and put up in prints. On the butter packed in solids Mr McGrath secured a score for flavor of 42.7 out of a possible 45 and perfect score under all other headings, giving a total of 97.7 out of a possible 100. On the class for prints he secured a score of 43 on flavor and a total of 97.8. These scores of themselves are evidence of outstanding quality but further evidence of the exceptional quality of Mr. McGrath's exhibits is found in the fact that in addition to both the other prairie provinces, the eastern provinces were also represented in this competition. Saskatchewan still does not stand so high as perhaps she should in the matter of quantity production insofar as the dairy industry is concerned but nevertheless sufficient high records of both individual and herd production have been made to demonstrate that heavy milk yields are quite possible under Saskatchewan conditions. Mr. McGrath's consistent winnings of premier honors at the large exhibitions throughout Canada, as well as the National Dairy Show of United States, which is the largest annual dairy gathering on the continent, give ample evidence that it is possible to produce butter of the very highest quality in this province. Mr. McGrath is a son of Mr. and Mrs. James McGrath of Morell P E. I.

CARD OF THANKS

I wish to thank all my friends who helped me in the recent Guardian Contest, by subscribing for the paper and clipping the ballots, Also wishing the paper all kinds of success.

Yours Truly
JAMES A. McDONALD
Cardigan Head.

: : Attacked by Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Toilet Needs for Young People

Parents know the necessity of training the children early in the care of their teeth.

The first step is to get one of these tooth brushes made especially for children's use.

TOOTH PASTE
No trouble to get children to clean their teeth regularly with our tooth paste.

It is pleasant to the taste, cleanses the teeth thoroughly and does not harm the gums.

HAIR BRUSHES
A good way to avoid danger from hair or scalp trouble—give the children their own hair brushes.

You can buy a good suitable brush here for 50c or $1.00.

Manoa for special trip will arrive at Charlottetown about December 3rd and load a part cargo for St. John's, returning about December 15th when she will load a full cargo of produce for St. John's For further particulars apply Carvell Bros. Agents. 10538-29-4i

RETURNED MEN IN PROCESSION. —At the funeral procession of the late Rev. Pius McDonald Monday afternoon to the station the gun carriage was drawn by returned soldiers of various overseas units, and not by officers of the 105th Battalion only, as might have been inferred from the published report. The guard of honor was also composed of soldiers of various units. Many other returned men walked in the procession.

SAD NEWS RECEIVED. —Rev. Mr. Miller of New London received a telegram Monday announcing the sudden death in Marshfield, oregon, U. S. A., on Nov. 22nd of Mr. Miller's brother C James Jr., and only son of Mr. T. C. James of Streetville, Ontario, formerly of this city. Although Mr. James has not visited his naive Island for some years he is very kindly remembered by a host of friends among whom he was a favorite and his bereaved family, Mr. and Mrs. James, Mrs Miller, Mrs. McKay and Mrs. Lowe will have the sympathy of all in their sad and sudden bereavement.

RETURNS FROM WEST— Mr. B. I. Raynor, the well known fox rancher of Alberton and Summerside arrived on the Island Monday from a six weeks' trip to the Pacific coast. He took with him nine pairs of foxes which he sold at Merritt, B. C. There are a number of ranches in British Columbia, but the foxes are not up to the standard of those on Prince Edward Island. Mr. Raynor reports good crops in Western Canada, but very low prices. He spent two days at the Toronto Fair and was greatly enthusiastic over the magnificent exhibit of foxes.

SCRAMBLE OVER RALEIGH.— Capt Hearn of the C. G. S. Montcalm which has recently returned from the Belle Isle Straits, reports that the wrecked British cruiser Raleigh is still in the same position, on the reef, quite near the shore, an done can walk aboard at low tide. Many Newfoundland fishermen and others are busy dismantling her of everything they can take away. Soon only the big guns will remain. There is evidently no intention to float the cruiser and she has been abandonel. Some of the wreckers are 'camping' in the vicinity in order to beat out other competitors in the free for all game of carting away everything they can lift. The Montcalm was busy coaling yesterday at the Marine Wharf and leaves today to lift the western buoys.

Xmas Suggestion

While making out your list for Xmas, why not include a pair of nicely mounted glasses for Mother, or Father What could be more appropriate and useful, giving the recipient lasting pleasure throughout the year.

Call at the office and we can arrange for an appointment after Xmas. We will mail a gift announcement in your name to arrive in the Xmas mail. Let us solve the Xmas problem for you in this easy way.

MISCELLANEOUS SHOWER.— The home of F. M. MacKinnon, Spring Park Road, was the scene of merriment Monday evening, Nov. 27th. The occasion being a miscellaneous shower given by a number of the girl friends of Miss Florrie Dickison, who is soon to take part in a more interesting affair. When the guests were all assembled, little Miss Marion MacKinnon, dressed as a bride entered wheeling a gaily decorated carriage laden with gifts of all kinds. The parcels were opened by the bride-to-be while Mr. George MacLean read the verses which caused much amusement. A dainty lunch was then served and the remainder of the evening was pleasantly spent in games and music.

P. W. C. DEBATEING SOCIETY— One of the most interesting debates of the term was held yesterday morning on the subject: "Resolved that union with United States would be beneficial to Canada." The speaker of the leaders were of the Ciceronian type and we prophesy great things for them in later life if they should decide to enter the political arena. The Pro side drew their arguments principally from the realm of tariff, taxation and defence. The Con. side emphasized our superior immigration policy, the fear of the yellow peril, and our immunity from danger under the protection of the British Navy. The result of the vote though favoring the Con. side is no criterion of the relative merits of the different speeches. The following were the speakers: Pro.— Douglas Gordon, Agnes Kelly, Frances Connolly, Gordon Hutcheson, Con.— Norman McDonald, Mary Hynes, Barbara McDonald, James Kickham. Critic—Cedric Yeo.

PERSONALS

Mr. G. J. McDonald, Cardigan, is a guest at the Revere Hotel.

Mr. J. Watkis Fyfe, Emerald, was in the city yesterday.

Mr H. A. Rogers, Summerside is in the city.

Jazz Is Passing Church Reports

ATLANTIC CITY, N. J. Nov 28.—The period of jazz which started at the close of the World War is gradually coming to an end, according to Dr. Lewis S. Mudge of Philadelphia, state Clerk of the Presbyterian General Assembly, who is here attending the sessions of the consolidation committee which was appointed by the last general assembly to compress fourteen boards and agencies of the assembly into four departments.

"The throwing aside of all restraint brought about by the mingling of the sexes during the war days" said Doctor Mudge, "is now becoming passe. This is indicated by the passing of the short skirt and the return to popular favor of long hair. The college dances where jazz reigned supreme are also reflecting the changed spirit. The extreme styles the indecent dancing and the pocket flask are very seldom seen now at these affairs."

WETTEST PLACE IN THE WORLD

It appears that the wettest place in the world is Cherrapunji in the Indian province of Assam During the last decade the average annual rainfall was nearly 37 feet. Next came the environs of Boombay, with about half of that figure. But it should be noted that at the station of Debundscha in Kamefun, thirty-four feet of rain fell annually during the same period, chiefly in summer. The neighborhood of warm seas and high mountains is the principal cause of these extraordinary rainfalls. It may be that the extension of meterological observation will show other zones of rainfall more intense than has hitherto been believed, as in Java and Sumatra.

FLY PULLS 170 TIMES ITS WEIGHT

To test the strength of various animals and insects, some interesting experiments were made in London, with astonishing results. It is estimated that a man or a horse can pull five times its own weight. A caterpillar was yoked to a loaded toy cart weighing 465 grains, and this caterpillar pulled twenty-five times its own weight.

A blowfly which weighed only one grain managed to pull a miniature railway truck weighing 170 grains, 170 times its own weight, while a beetle pulled 182 times its own weight, and a bumble bee towed a small truck weighing 399 times as much as he did.

All these records are beaten, however, by the earwig, which though only weighing half a grain pulled a toy coach weighing 265 grains, or 530 times its own weight.

PEOPLE LIVE LONGER

People are living longer today than in the past, said Sir Kingley Wood, M. P., of the Health Ministry, at a recent meeting of the Faculty of Insurance at Leeds, England.

There are at the present time in England and Wales 600,000 persons over seventy years of age and 60,000 persons over eight-five years of age.

In 1920, 200,000 deaths occurred in the case of persons under the age of forty-five, or 44 percent of the total number of deaths.
