AVALON TELEPHONE BONDS CALLED FOR REDEMPTION

MONTREAL, June 18.—In confirmation of recent reports from St. John's Newfoundland, it is understood that arrangements have now been completed for refunding the outstanding bonded indebtedness of Avalon Telephone Company Limited, consisting of \$390,500 of 6 per cent first mortgage bonds and \$137,800 of 5 1/2 percent mortgage debentures, the former being redeemable at 105, and the latter at par; by the creation of a new first mortgage bond issue amounting to \$750,000 of first mortgage 5 1/2 percent bonds.

The proceeds of the new bond issue will be for the most part used to redeem the presently outstanding first mortgage bonds and mortgage debentures above mentioned, but a certain portion of the proceeds will be used for capital expenditure in connection with the extension of the company's telephone system.

Avalon Telephone Company of St. John's, Newfoundland, operates the entire telephone system of Newfoundland under exclusive franchise from the Newfoundland Government. The company has been gradually extending its operations for several years past in order to keep pace with the continually increasing demand for telephone facilities, having in mind that the number of telephones per capita in Newfoundland is still much below that of similar districts in Canada.

It is understood that the new bond issue will be offered publicly by Montreal investment bankers before the end of the present month.

Today's trading brought many new low prices and saw levels established that many believed impossible. While a good deal of pessimistic talk is heard at this time and some students of the market believe the recovery will be delayed, the best opinions are of the belief that the upswing may come soon. This, however, has not appeared although looked for for some days. The present is a time for careful study and analysis. It is a time for conservative, well considered purchases and where possible, holders of securities should not sacrifice their holdings.
