

Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

It will help you to avoid taking cold.

THE WOMEN SAID 'T'WAS A JOKE

Tenonro, May 1.—Olivia M. Bodman, a tall, slender and looking English-dressed young woman, and Mrs. Jennie Johnson, wife of a city printer, will be held during the month's sessions on the charge of taking the T.M.C. company. Yesterday afternoon the detective was searching through the silk department in the ground floor of Eaton's store when he noticed Miss Bodman picking up silk remnants, crushing them up and passing them to Mrs. Johnson who rammed them into her muff. When told to deliver up what they had taken the ladies said they had done the whole thing as a joke. o t c o d e a b e t.

SOME LAKES THAT WERE ONCE SEAS

London, Eng., April 29.—The Great Salt Lake, it has just been discovered, is gradually drying up, and the inhabitants of Salt Lake City seem quite surprised. They ought not to be. All salt lakes owe their salinity to the fact of their having no outlet, and a lake without an outlet is a dying lake.

Not so dead, usually. Long delayed. Speaking geologically Lakes Koko Nor and Lob Nor were undoubtedly extensive inland seas not so very many decades ago, yet Seven Hellin found them the other day reduced to mere acid puddles, set in the midst of well nigh limitless salt deserts that were once their beds.

The terrible Takla-makan desert, too, in which Hellin nearly died of thirst was once the bed of just such a lake. So also were the salt deserts of Persia, Northern Thibet is studded with salt lakes in process of desiccation, The Aral and the Caspian "seas" were at one time far more extensive than is now the case, proving that they, too, are undergoing the inevitable process of desiccation, to

which all such bodies of water are sooner or later invariably subjected.

So that, as a matter of fact, the early Australian pioneers were not so very far out in their reckoning, when they imagined that the greater part of the unknown interior of the island continent was occupied by an inland sea, into which discharged the many rivers, that like the Murray and the Darling, flowed away from the outer ocean "instead of towards it."

They were a few centuries too late, that was all. The Australian Mediterranean had been there, but it had dried up. The last remnants of it exist to-day in deep depressions, like Lake Eyre and Lake Torrens; themselves in process of desiccation. The rest of its area is covered by the series of salt deserts to which modern explorers have given the name of the Dead Heart of Australia.

BAD STATE OF CHICAGO POLICE

Chicago, May 1.—The Post says: "It is safe to say that no police force in the country ever was sunk so deep in the quagmire of political corruption as are the bluecoats who theoretically guard the lives and property of Chicago's citizens. The one most striking instance of how far Collins' men will venture in their political blackmail is that of the Strauss brothers, who hold a state of siege because the proprietors refused to pay \$100 tribute to the Dunne campaign fund. Russia itself could offer no example of greater and more brazen official corruption."

Tiredness Comes in the Spring.

What are You Doing to Overcome it?

The cold of winter exhausts vitality and exposes everyone to disease. Spring is sure to bring tiredness and languor that will not go.

Spring sickness doesn't cure itself—the cause is in the blood, and that cause must be remedied. It is easily done with Ferruzone, a marvelous remedy that purifies the blood and expels those humors and poisons that depress and weaken.

Just think of it—Ferruzone uplifts the entire nervous system, renews the blood, makes it rich and red—gives the sort of aid that is needed in throwing off weakness and spring languor.

Tens of thousands enjoy the advantages of renewed health through Ferruzone—if you'll only use it you'll surely grow strong too: its beneficial action is noticed even in a week—you see it goes right to work, removes the causes of the trouble and then quickly makes a cure.

For those who sleep poorly and have nervous apprehensions, Ferruzone is a boon; it is a specialist in such cases.

Where there is paleness, poor appetite and languor, Ferruzone makes the patient feel like new in a few days.

In tiredness, nerve exhaustion, spring fever and debility, the power of Ferruzone is known from coast to coast and universally used with grand results.

Let Ferruzone build you up, let it win you back to robust health—it will do so quickly if you give it the chance. Sold by all druggists, 50c. per box or six boxes for \$2.50. Remember the name FERRUZONE.

FRISCO'S MAYOR ADMITS WRONG

SAN FRANCISCO, April 30.—The latest candidate for immunity is the indicted chief executive of the municipality, Mayor Eugene F. Schmidt.

Schmidt has offered to resign his office as Mayor of San Francisco. To make a full confession to the grand jury of his knowledge of municipal graft, and to join the ranks of the reformers.

A complete confession from Mayor Schmidt would undoubtedly involve some of those "higher up" whom the graft prosecutors are known to be anxious to bring to the bar of justice.

Nature Shaped Shoes for Children

Children's feet grow rapidly at certain ages—and there is danger of distorted feet from the effect of wearing ill fitting shoes. It never pays to buy cheap shoes for children—we have studied this matter carefully, and finally adopted the Charlottetown Agency for the

Classic Shoe

Made by Getty & Scott, Galt, Ontario, people who have spent their lives in the making of children's shoes. We have just opened six cases of this beautiful line in infant's, children's, small boys' and misses' on the ORTHOPEDIC and DIRECTOR lasts. Parents who have seen them remark—"we never expected to find such goods in Charlottetown."
