HOUSEFURNISHING DEPARTMENT.

JAMES PATON, ESQ.

ANOTHER CORNER OF THEIR HOUSEFURNISHING DEPARTMENT.

BUSINESS MEN AND THEIR STORE— AN ENTERPRISING CHARLOTTETOWN FIRM

(From the Dry Goods Review, Toronto and Montreal.)

In Charlottetown, P. E. I., has recently been held an exhibition by the firm of James Paton & Co., who have just made an addition to their already large store. Heretofore this firm has handled almost everything such a store can handle save furniture and Mr. Paton, feeling there was a good opportunity in this line for a further display of his mercantile abilities, has added a building of three storeys, containing almost five thousand square feet devoted entirely to house furnishings. A couple of corners, in this building are shown in the two accompanying illustrations.

The opening was carried off with great success, as befitting the time and money spent in the preparation for the event. Special decorations were made in all the departments; furnished sample rooms were a feature, and a brass band, added to the enjoyment of the many who attended.

The store as it now stands has well conducted departments in dress goods, staples, small wares, millinery and trimmings, underwear, men's furnishings, ribbons, mantles, ready to wear hats, clothing and carpets and house furnishings, each in charge of an experienced manager. There is about twenty thousand square feet of floor space and over fifty employees are constantly employed. This is one of the firms that, from small beginnings and by close attention

to business has become one of the large enterprises of which Canadians are justly proud. Commencing on the same site in 1884 with a stock of dry goods, ladies' furnishings and carpets, with a total floor space of 3,000 feet, Mr. James Paton year by year, built up a trade of great local importance, and every few years found it necessary to increase his space to enable him to cope with the growing business.

In 1887 a men's and boys' clothing department was opened in the basement, but its success soon moved it up a storey. Five years later 3,600 square feet of floor space was added and in rapid succession the dressmaking, millinery and ladies' ready-to-wear departments necessitated four further additions, amounting to 7,500 square feet. When the store had reached these proportions, it was considered that nothing more would be needed for many

a year, but Mr. Paton's latest ambition for first class furniture warerooms could not be satisfied in the available space, and accordingly more land was bought and a new building erected.

Mr. Paton finds time apart from his business, to attend to the duties of his position as a Councillor of Charlottetown, and his interest in municipal affairs has been illustrated on more than one occasion. In front of the Paton

Office, stands a beautiful drinking fountain donated by Councillor Paton as an ornament to the city and a convenience to his fellow citizens. As a traveller, the head of the firm has considerable experience, his buying trips to the Old Country having necessitated no less than 87 passages.

THE BEST REMEDY FOR CROUP.

(From the Atchison, Kan., Daily Globe.)

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, but some modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all drug
