SAVE MONEY AT THE ROSS DRUG

LA GERARDINE

La Gerardine treatment for the development of naturally wavy hair is a safe, reasonable application of the principles of hair health. It produces no sudden violent change in your hair, but, through care of the scalp and consistent training of the hair, develops the wave in a perfectly natural way. Although you cannot grow a wave in your hair overnight with La Gerardine, you will, from the very beginning of the treatment, see beneficial results. The brushing and massage stimulate the circulation and restore the oil glands to normal activity. The tonic ingredients of La Gerardine lotion cleanse the scalp and are absorbed by the hair making it softer, more lustrous and manageable. This healthy, pliant hair holds the finger or comb wave, put in at the conclusion of each treatment, over longer and longer periods until, to your delight, you find that it reappears of itself after the shampoo and is as truly your own as any other natural wave. How quickly you can acquire this natural wave with La Gerardine depends upon two factors - the type of hair and the condition of your scalp when the treatments begin and upon the regularity and faithfulness with which you give your hair this care. Experience has shown this to be 60 to 90 days. Come in today and see us about this wonderful Hair Treatment. PRICE \$2.00 per Bottle
