

IN MEMORIAM

JOHN PINEAU
John Pineau of Royal Oak, Mich., formerly a resident of Ebbesfleet, P.E.I., while on his way to church on December 10th last, was struck by a large truck and instantly killed.

REDS REBUFF

Nanking said government planes dropped leaflets over Communist lines urging the Red soldiers to quit fighting so peace talks could begin.

There was little fighting any way. The Communist radio said that Communist artillery was moving into the suburbs of besieged Peiping and Tientsin.

Mearns, Vice-Admiral Oscar C. Badger, commander of United States naval forces in the Western Pacific, denied rumors of a withdrawal of "American forces from China."

The Admiral said he ordered the discussions halted when he learned they were being used as a basis for withdrawal rumors.

An American source in Shanghai in a position to know said the earlier withdrawal report "isn't wrong - it's just premature."

BIRTHS

STEWART-At the P. E. Island Hospital, Jan. 4, 1949, to Mr. and Mrs. Ross Stewart, City, a son.

BOYCE-At the P.E. Island Hospital, Jan. 4, to Mr. and Mrs. Wilfred Boyce, a son, Wilfred Robert, 6 lbs. 10 oz.

GOODWIN-At the Charlotteville Hospital on Jan. 1, to Mr. and Mrs. Maurice Goodwin (nee Mary Fleming), City, a daughter, Norah Elizabeth.

DEATHS

STEWART-At the P. E. Island Hospital, Jan. 4, 1949, infant son of Mr. and Mrs. Ross Stewart.

BOYCE-At her home 105 Fownall Street on Tuesday, Jan. 4, 1949, Mrs. James R. Brown. Her remains will rest at her late residence from where the funeral will take place Friday morning at 8:45 o'clock to St. Dunstan's Basilica.

Thanks and Appreciation

I wish to thank my many friends and neighbors who sent me cards and gifts at Christmas.

CARD OF THANKS

Mr. Edgar White wishes to thank all neighbors and friends for their many messages of sympathy, as well as for their many acts of kindness shown him during his recent and bereavement.

N. D. MacLean

Miss Patricia Wight, head waitress at the Charlotteville Hotel for a number of years, has gone on her holidays to Calgary, where she will visit relatives, spending the greater part of her time with her sister, Mrs. David Frew, and her two brothers. On her return she will call at Toronto where she will visit her Aunt, Mrs. Paul Higgins.

WEEK OF PRAYER SERVICE

tonight at 8 o'clock in St. Paul's Church; Preacher: Rev. T. H. B. Somers, M. A., S. T. M.

POTATO SHIPMENTS

Potato shipments via Sorden last month were 10 cars less than for December, 1947. On the other hand, turnip shipments showed an increase, 138 cars to 80.

LARGE CALENDAR

Yesterday Mr. T. B. Rogers of W. K. Rogers Agencies Ltd. called at the office to present the largest calendar received this year, a beautiful rural painting entitled "The Day's Work."

PANSIES BLOOMING

Even the flowers are being fooled by old man winter this year. Yesterday Miss Laura Doreen Wood, Mt. Herbert, picked a dozen pansies which were nesting in full bloom on a light covert of snow.

LEAVES FOR OTTAWA

Substituting for Dr. L. W. Shaw, director of education, who is confined to his home with a severe cold. Brigadier W. W. Reid, D. S. O., E. D., left for Ottawa yesterday to represent the Province at the three-day session of the National Council of Physical Fitness which opens in Ottawa tomorrow. The Brigadier will return to Charlottetown Sunday.

WELCOME VISITORS

A group of alert-looking young people of both sexes visited The Guardian office yesterday and showed interest in the details involved in turning out a newspaper. They were members of the Junior Farmers' Federation now in session at St. Dunstan's University. They included Ernest Campbell, Leonard Kelly, Anne Carragher, Austin Carragher, Mary Monaghan and Clarence Wood, Kelly's Cross; Dorinda McInnes and Mena McPhee, of Rock Bar, King's Co.; Albert McEachern, Webster's Corner; Leta Hudson, Cascumpec; and Norma Locke, O'Leary.

PERSONALS

Miss Lena Dunphy of Charlottetown spent the New Year's holiday visiting friends in Souris and vicinity.

Mr. Gordon Bellman has returned to the City after spending the New Year's holiday in Souris and vicinity.

Miss Viola MacCormac, now Zealand, spent New Year's with Mr. and Mrs. John MacKenzie, St. Peter's Bay.

Miss Helen MacCormac, Charlottetown, spent New Year's with her parents, Mr. and Mrs. Joseph MacCormac, New Zealand.

Mr. and Mrs. Leonard MacNeil, St. Catherine's, spent New Year's in the city with Mrs. MacNeil's parents, Mr. and Mrs. Alex MacLeod, Fitzroy Street.

Mr. Philip Hardy returned to Montreal Monday morning to resume his duties at McGill after spending the Christmas holidays with his parents, Mr. and Mrs. F. L. Hardy.

Miss Shirley Sherren, daughter of Mr. and Mrs. C. C. Sherren, City, returned to St. John, N.B., this morning after spending two weeks' holidays with her family. Miss Sherren is a student laboratory technician at the St. John General Hospital.

Mrs. Joseph Power, Mermid, who has been visiting her daughter, Mrs. W. H. Kirk, Concord, Mass., for the past two months, has left to spend the rest of the winter with her other daughter, Mrs. W. B. Williams, Fort Lauderdale, Florida.

Canada's Mineral Output Reaches All-time High

OTTAWA, Jan. 4.-(CP)—Canada's mineral production hit an all-time high of \$862,200,000 in 1948. The Bureau of Statistics estimated today.

Output value of metals went up 22.4 per cent from \$395,000,000 in 1947 to \$484,000,000; fuels advanced almost 44 per cent from \$110,600,000 to \$159,000,000; other non-metallics gained 19 per cent from \$45,200,000 to \$54,900,000; and structures materials rose almost 17 per cent from \$84,600,000 to \$98,800,000.

Coal production at 18,400,000 tons was 500,000 tons below the record reached in 1942, but the value of \$12,289,000 was 70 per cent greater than in that year.

Estimated 1948 coal production by provinces, with the 1947 figures in brackets:

Alberta, 8,127,621 (6,070,430); Nova Scotia, 6,435,270 (4,118,196); British Columbia, 1,792,472 (1,763,899); Saskatchewan, 1,560,630 (1,571,147); New Brunswick, 513,722 (345,194).

Expanded production in the Leduc, Alta., oil field was largely responsible for bringing the Dominion's output of crude petroleum to a new high of 12,000,000 barrels valued at \$38,800,000.

Gold production of 3,500,000 ounces was about 500,000 up from 1947 but almost 2,000,000 less than the record 5,300,000 ounces in 1941. The value of \$123,339,000 was 14 per cent above 1947.

Substantial increases were registered in the production of copper, lead, zinc, nickel and other basic metals.

Copper output rose from 451,700,000 pounds worth \$91,542,000 to 600,800,000 pounds worth \$107,100,000. Lead production advanced from 333,300,000 pounds to 444,200,000, worth \$36,000,000; zinc from 418,700,000 pounds and \$46,700,000 to 464,200,000 pounds and \$64,700,000; nickel from 237,300,000 pounds and \$70,700,000 to 257,700,000 pounds and \$70,900,000.

Asbestos production at 707,800 tons worth \$41,300,000 was up seven per cent in quantity and 25 per cent in value. The gypsum industry broke its previous high by producing 3,219,000 tons valued at \$5,600,000.

Salt production increased to 740,000 tons but the value was slightly lower than in 1947.

Increased demands by the construction industry resulted in a record output of structural materials. Cement shipments amounted to 1,100,000 barrels worth \$27,900,000. Brick production, which hit 330,000,000, clay tile, etc., made from Canadian clay were valued at \$17,300,000. Over 1,000,000 tons of lime was discharged from the lime kilns in 1947. Stone quarried was in excess of 11,000,000 tons worth \$17,000,000.

CALENDAR—Confederation Life Association is distributing in calendar form a fine reproduction in color of the picture by J. D. Kelly, "The Founding of Halifax, 1749."

NOTIFIED TO VACATE OFFICES—Three Dominion Government offices will have to find other locations before July 1st by reason of a notice to vacate which was learned yesterday.

The notice affected are those of the poultry products inspector, Mr. F. M. Nash; senior live stock fieldman, Mr. H. W. Clay; and the production services, Dr. E.S. Notting. They are located at the corner of Kent and Queen Streets, Soldiers' Hall for the owner of the building, Mr. C. R. McQuaid, said he could not say what plans the owner had in mind for the building.

LEGION CARD PARTY—The prize winners at the regular Canadian Legion Tuesday night card party were: In auction forty-five - ladies first, Mrs. Alex Ford, second, Mrs. Louis Lafferty, consolation, Mrs. Vincent Trainor. Men's first, Joseph O'Hanley, second, Howard Ross, consolation, Harold Cudmore. Door prize winner, Mrs. S. Harrison. In Oribase the winners were, first, Russell Wood, second, Charles Bolser, door prize, Mrs. Russell Wood, freezout, Mrs. Burke and Mrs. Vessey. There was a good attendance. The proceeds are used to buy treats for veterans in city hospitals.

SCHOOL BOARD MEETING—The resignation of Miss Mary MacDonell from the teaching staff of West Kent School was accepted with much regret at Monday's regular meeting of the City School Board. Miss Emily Higgins was appointed to fill the vacancy. It was decided to hold a special meeting of the Board next Monday at 4 p.m. to which would be invited the members of the salary committee of the City Teachers' Institute. At that meeting the request of the Institute for an increased supplement will be considered. Considerable business of a routine nature was also done at Monday's meeting. Dr. I. J. Yeo presided.

NEW PLANE (Continued from Page 1) packet transport plane that will be used by the airborne brigade, which the Government has said will be standing force to meet any diversionary attack on the country. The brigade's eventual strength has been given as 7,000 men, including three battalions of infantry.

Defence Minister Claxton said recently it should begin training as a formation some time this year but that may be a bit optimistic if the entire formation is included. The Fairchild is the second U.S. plane that is slated for production in Canadian aircraft factories. The other is the P80, world's fastest jet fighter.

The packet plane has been out at least two years and is widely used by the Americans as a troop transport although originally designed primarily as a cargo carrier. It has two engines of 2-100 horsepower apiece, looks like a flying box-car, can carry a load of 11 tons, cruises at 200 miles an hour, and has a range of 4,000 miles, considered excellent.

It opens at both ends to receive its cargo which can include things as big as a truck.

REFORMS IN ASIA The British took the island of Cyprus from Turkey in 1878 as part of a plan for the introduction of reforms in Asia Minor.

FARM & PUBLIC

Week Of Prayer Services Continue

A large congregation overflowed into the school-room at the First Baptist Church last night in the second of a series of five services in observance of the general Week of Prayer.

Last night's service was conducted by the pastor of the Church, the Rev. J.D. Davison, who warmly welcomed the visiting ministers and sister congregations of the city.

The Rev. T.H.B. Somers read the Lesson and took the prayers. The Church choir, under the direction of Mrs. Allison MacRae, provided the music which included "Hast Thou Not Known?" by Pfeuffer.

The sermon was preached by Rev. M.D. Dunbar on the general theme "Bidding for the future upon the achievements of the past." Mr. Dunbar took as his text St. John 4:38.

The service this evening will be held in St. Paul's Anglican Church when a special meeting of the Charlottetown Branch of the Bible Society will also be held. This evening's sermon will be delivered by the Rev. T.H.B. Somers.

Youth Programs Addressing the group on the problems of youth and rural programs Rev. Lewis Murray, Kingston United Church, drew a picture of the two sides of the world in which we live. On one side, it's a wonderful world, with all the scientific advances which add to our leisure and comfort. On the other side it would appear that western Christianity is steadily deteriorating, stated Mr. Murray, when one considers such matters as the high expenditure on alcoholic beverages and the increase in the divorce rate.

It was up to such people as the Junior Farmers to do something about the state of the world, declared the speaker and recounted the story of Esther Kellers' "Christianship" movement which aims at getting influential Christian men into the four important fields of politics, education, labour and communications so that the Christian influence may be present in world affairs.

Public Health Problems After dinner, Dr. Harold Shaw, provincial pathologist, spoke on "Public Health Problems." He outlined the structure set up by the Province in accordance with the Dominion grants and touched briefly on a few of the most important projects. Declaring that, according to the Provincial Public Health Act, some 490 boards of Health on the Island and very few of the members knew anything about it, Dr. Shaw stated that "not by interest or by choice but by accident were these men on the Provincial Boards of Health, as they were in that of the School Boards. These men are not necessarily interested in this secondary role and we have here a major problem to solve," stated the speaker.

Taking into account the problem of change and the law as it stands, it has been suggested that 20 School Boards should be grouped together throughout the Province. Health bodies which would be interested in and capable of enforcing the present Act, said Dr. Shaw. Other suggestions may be forthcoming from the Junior Farmers which will solve the problem he indicated.

Touching on various other subjects connected with Public Health and looking into the future, Dr. Shaw concluded by answering questions. He stated that a difficult problem in the functioning of the X-Ray Mobile Unit was the problem of those infected who are not X-Rayed. He called on the Junior Farmers to spread the idea of the necessity of everybody being X-Rayed every time the unit visits their particular district.

Talks on Co-operatives After supper two excellent co-operative films were shown and a number of visitors attended the evening session. "Up from the Earth" showed the co-operative idea at work in the Western States in the oil products field, where huge refineries were owned by the people themselves. The second film, "Owners All," demonstrated the effectiveness of co-operation in the Maritimes. Mr. Alex Laidlaw continued with beautiful stills in colour, showing the progress of farming and fishing co-operatives especially at Morell and Tignish on the Island. "With courage and vision, your community may also thrive through co-operatives," concluded Mr. Laidlaw, who will continue his talks today.

Welcoming the visitors, Mr. Leo MacIsaac invited Mr. J. J. Trainor to speak. He related the start of co-operatives at Bedford and Grand Tracadie and how they were bought out within a few years through jealousy and individual selfishness. "True co-operation must be in the heart," said Mr. Trainor, "and you must be prepared to sacrifice. You are living in a new age and opportunities are knocking at your door every day."

Today's Program Today, the program includes a talk at 9 a.m. by Mr. Laidlaw on "Co-operative Facts and Fancies." At 10:30 Mrs. Cudmore, Red Cross, will present films and lead a discussion on "Farm Safety and Accident Prevention." The men will make a special tour of the Experimental Farm during the afternoon, where Mr. R. C. Parent and his staff have gone to consultation to prepare interesting exhibits. For the girls there will be special sessions on Nutrition and Home Economics by Mrs. Reddin, Miss Boswell and Miss Anderson. Starting at 7 p.m. the Mock Parliament will offer a full dress debate on "Price Spreads and Market Systems." The public is invited and visitors may be assured of an interesting evening.

Former Islander

Promoted in R.C.A.F.

Among the four R.C.A.F. officers at Eastern Command in the New Year's Promotion List is Flight Lieutenant John T. Murchison of Squadron Leader. John T. Murchison enlisted in 1941, after attending both Acadia University and the University of New Brunswick. Receiving his pilot's wings at St. Hubert's Quebec, he spent two and one half years overseas as a Spitfire pilot attached to R. A. F., eleven months of which he spent in Malta attached to a famous Spitfire squadron. On returning to England their squadron was entertained at Buckingham Palace by their Majesties. He is also a veteran of the Dieppe raid.

On returning to Canada he was posted at Baguville, Que., as instructor. Later posted to Eastern Command as flying accident investigator for one year, later being posted to the local branch of R.C.A.F. OMAHA, returning again to Eastern Command as judge advocate of Eastern Command. Squadron Leader John T. Murchison and Mrs. Murchison and daughter Judith Anne reside at 21 Atlantic Street, Halifax, N.S.

Squadron Leader Murchison is a Prince Edward Islander, being the son of Rev. John M. and Mrs. Murchison of Saint John, New Brunswick, who for nine years was the beloved pastor in Malpeque, P. E. I.

Dismissed Dean Opens New Baptist Seminary

TORONTO, Jan. 4.-(CP)—Wearing a borrowed clerical gown Dr. Brown when he opened his own gown when he opened his school of nearly 50 divinity students because it belonged to Jarvis Street Baptist Seminary from which he was dismissed. He was dismissed as dean of the Seminary by Rev. T. Shields, pastor of Jarvis Street Church, who charged Dr. Brown was not conducting classes in a manner befitting future Baptist ministers. Nearly 50 students walked out in sympathy with Dr. Brown and enrolled in the new seminary at Forward Baptist Church. Approximately 15 students remained with Dr. Shields.

WILD WEST

YELLOW GRASS, Sask.-(CP)—When a bull elk was spotted running across a farm here three hunters pursued it at 40 miles an hour by truck. They lassoed it and turned it over to the game warden.

economic monopoly. "Today we are facing economic totalitarianism and there are two methods of curbing it," said Father Gillis. "One method is through government controls, which eventually lead to political totalitarianism. A second method is a movement of the people themselves to handle their own business. The farmer who produces the goods must, if possible, keep control of those goods until they reach the consumer."

"We will never be able to build a rural culture until the farmer is free from economic worry and assured of the necessities of life," continued the speaker. "Young farmers, therefore, must develop the co-operative mind. The old theory of rugged individualism has been completely discredited. Many communities, provinces and countries are not self-sufficient."

"Because you are the most necessary people, you are the most important people and the work of a young farmer, insist upon your rightful position in the world and insist upon a higher standard of living."

Germany: International Control Of The Ruhr

(Continued from Page 4) 11. The Authority will furthermore be charged with responsibility for the safeguard and protection of foreign interests in the Ruhr in conformity with international agreements, insofar as these functions are not entrusted to another body for the whole of Germany.

12. Particular attention was paid to the question of giving the Authority powers of supervision over the management and direction of the Ruhr coal, coke and steel industries. The coal and steel control groups established by British and American occupation

13. The Authority will have the right to obtain information necessary to enable it to perform its functions, including adequate rights of inspection and investigation.

14. The Authority will consist of a Council composed of representatives of the member Governments and will have a Permanent Secretariat.

15. As soon as a German Government is established, it will have the opportunity of acceding to the agreement of the Ruhr for Germany being exercised meanwhile by the occupation authorities. When a German Government has undertaken the full obligations of its membership, it will enjoy full voting rights except in matters of security and defeat.

16. The Authority, if its decisions and directives are not properly respected by the German Government, may find the latter in default and make recommendations as to the action to be taken.

17. The Authority will submit an annual report on its work which will normally be followed by a meeting of specially appointed representatives of member Governments to review the report and to elect the Authority any two or more members, who consider that the policies of the Authority are not consistent with the purposes for which it was created, may call for a special examination in matters relating to security.

18. In the past the resources of the Ruhr have been used for the purposes of aggression. The six Governments are determined that, through the security measures referred to above, any recurrence of such a situation shall be prevented. They are equally aware that the political and economic welfare of Europe requires the full and effective use of the industrial production of the Ruhr and the participation of a democratic Germany in the community of nations all enjoying a reasonable standard of prosperity. The establishment of the Ruhr Authority is an innovation in the international economic field. It is not being set up to limit free competition by European industries in the markets of the world. It has a constructive function to fulfil in promoting the general economic welfare of Europe and in re-establishing international confidence. If operated wisely, the Ruhr Authority may be regarded as a further contributory step towards a more intimate economic association among the countries of Europe.

Note: The Agreement states that Britain, the U.S.A. and France will each have three votes. Belgium, The Netherlands and Luxembourg one each and Germany three. Eight favourable votes shall be sufficient for every decision of the Authority.

Death Yesterday Of

Mrs. James R. Brown

The death occurred yesterday at her home, 105 Fownall Street, of Mrs. James R. Brown. She was 97 years of age.

The late Mrs. Brown was an active member of the Catholic Women's League, the St. Charles Auxiliary, Notre Dame Alumnae, and the St. Vincent de Paul Society. Her husband, the late James R. Brown, well known in the city as an electrical contractor, predeceased her two years ago.

Surviving are four daughters, Helen (Mrs. Patrick Ready), Charlottetown; Doris, Marion, and Hilda at home. Also three sisters, Mrs. James Rooney, formerly of Souris; Mrs. R.A. Ramsay, and Miss Louise Mahar, both of Ottawa. One brother, Mr. Alfred J. Mahar, resides in Quincy, Mass.

Girl Survives Suicide Pact

WINNIPEG, Jan. 4.-(CP)—A pretty nurse-in-training, 22-year-old Fleur Jacques, was under police guard tonight in Winnipeg General Hospital as the survivor of what police termed a suicide pact. The girl's 27-year-old boy friend died of an overdose of a narcotic.

Miss Jacques was found unconscious early yesterday at the side of William Stawnychko, alias Peters. She was reported in fair condition and recovering.

Provincial Coroner I. O. Fryer said the girl and Stawnychko each left notes which said in effect there was no other way out, they were too infatuated with each other and life was not worth while.

Stawnychko is believed to have been separated from his wife in Eastern Canada.

The two were found on a chestfield in the hospital, sitting upright a short distance apart. In front of the chestfield was a medicine tray, spoon, hypodermic needle and two empty vials, each of which had contained 25 tablets of narcotic. Other unopened vials were on the floor.

Detective Inspector David Nicholson said Stawnychko was arrested by City Police Dec. 29 on charges of forgery and uttering, and was released on bail two days later.

RECORD FREEZE

(Continued from Page 1) stranded in various parts of the two states.

Trains operating north and east of Denver and east and west of Cheyenne, Wyo., were ordered to remain in yards or on sidetracks.

Trains stalled in Nebraska and Wyoming. The North Western Railroad said it would cancel some west coast trains and combine others.

37-Inch Snowfall

Snow piled up to a depth of 37 inches in Chadron, Neb., and still was falling. The Alliance (Neb.) Times-Herald, a semi-weekly newspaper, gave up publishing today because its workers were snowed out.

The Union Pacific and North Western Railroads reported that trains were stalled or held up at Sidney, Dix, Imbell, North Platte, Kearney, Omaha, Grand Island, Rawlins, Pine Bluffs and Egberg, Wyo.

The California chill sent the mercury skidding to an all-time low of 27.9 in Los Angeles and to 19 degrees in the \$100,000,000 citrus belt. The previous low in Los Angeles was 28.4 degrees on Jan. 7, 1913.

Growers kept their orchard heaters going at such a blast that a pall of black oil smoke hung over Los Angeles. There were fears that the loss of crops might be considerable.

Some readings in the redlands and highlands were as low as 19 degrees and heaters could not raise temperatures above 25 degrees. The fruit is fairly well developed at this season and most navel oranges can stand several hours of 28 degrees temperatures without permanent frost damage.

At Palm Springs, Calif., which advertises itself as a warm winter resort, the mercury dipped to 22 degrees.

authorities now have extensive powers over these industries, including powers over production, investment, development and other matters concerning management and direction. As is known, the French authorities have been invited to join in the work of these control groups. It has been agreed that at the appropriate time such of these powers relating to the supervision of management and direction as the Six Powers consider necessary to achieve their purposes with respect to the security and well-being of Europe will be transferred to the Ruhr Authority or to the Military Security Board or its successor or to some other international body. These would be powers of supervision over production, investment and development and regular responsibilities of management. The conditions under which these powers will be transferred and the manner in which they will be exercised, will be determined as soon as practicable in the light of experience acquired over a period of time under the present control groups. Any powers transferred to the Authority in this connection for economic purposes, will be transferred for the purpose of contributing towards that closer association of the economies of Europe which the Six Powers have set out as one of their objectives in the preamble to the agreement. It was agreed that the powers to be continued should also be adequate to prevent the revival of excessive economic concentration in the coal, coke or steel industries of the Ruhr and to prevent persons who furthered the aggressive designs of the Nazis from acquiring ownership interests or positions of direction and management in those industries. The agenda of the meeting did not include the question of the final ownership of the industries concerned, and this question is in no way affected by the discussions of the draft agreement.

19. The Authority will have the right to obtain information necessary to enable it to perform its functions, including adequate rights of inspection and investigation.

20. The Authority will consist of a Council composed of representatives of the member Governments and will have a Permanent Secretariat.

21. As soon as a German Government is established, it will have the opportunity of acceding to the agreement of the Ruhr for Germany being exercised meanwhile by the occupation authorities. When a German Government has undertaken the full obligations of its membership, it will enjoy full voting rights except in matters of security and defeat.

22. The Authority, if its decisions and directives are not properly respected by the German Government, may find the latter in default and make recommendations as to the action to be taken.

23. The Authority will submit an annual report on its work which will normally be followed by a meeting of specially appointed representatives of member Governments to review the report and to elect the Authority any two or more members, who consider that the policies of the Authority are not consistent with the purposes for which it was created, may call for a special examination in matters relating to security.

24. In the past the resources of the Ruhr have been used for the purposes of aggression. The six Governments are determined that, through the security measures referred to above, any recurrence of such a situation shall be prevented. They are equally aware that the political and economic welfare of Europe requires the full and effective use of the industrial production of the Ruhr and the participation of a democratic Germany in the community of nations all enjoying a reasonable standard of prosperity. The establishment of the Ruhr Authority is an innovation in the international economic field. It is not being set up to limit free competition by European industries in the markets of the world. It has a constructive function to fulfil in promoting the general economic welfare of Europe and in re-establishing international confidence. If operated wisely, the Ruhr Authority may be regarded as a further contributory step towards a more
