

GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORIN, 22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, headache, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential) for free advice which will prove helpful.

Nicholson, teacher, Augustine Cove spent the week end in Cra-paud.—S.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incumbrance material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washings the waste material and toxins from the stomach, liver, kidneys, and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food in to the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness; because the skin pores do not absorb impurities into the blood, while the bowel pores do.

—GOING OVERSEAS.—Mr. James Winchester of St. Eanors has enlisted with the Heavy Artillery for overseas service, he left Tuesday morning for Charlottetown, where he will take a course in training.—H.

—PUBLIC MEETING.—A largely attended political meeting was held in the hall on Monday night, Mr. S. S. Lefurgey, Capt. Read, Premier Arsenault, Mr. J. H. Bell, Mr. B. Gallant and Hon Charles Dalton, spoke and received a most attentive hearing.—O.

—ON FURLOUGH.—Pte. Maynard Arsenault of the Composite battalion, Halifax, is spending a few days furloUGH with former friends in town and intended leaving on return to duty Tuesday morning. The fact that Pte. Arsenault has been granted a furloUGH speaks highly of his conduct in this battalion.—H.

—THE NORTHUMBERLAND.—After taking over 80 passengers on Saturday morning, the Northumberland returned at 10.40 p. m. with 28 passengers and five cars of freight. The outward freight on Monday morning was two cars of potatoes, 2 cars turnips, two cars eggs, one car oats, two cars cattle, one car sheep and five cars of freight. The schooner Dictator, Capt. Reinhardt, has cleared for the port of Picton where she will load with coal for the return trip.—H.

—WELL KNOWN RESIDENT DEAD.—Many friends will learn with regret of the death of Mr. B. L. Woodside which sad event occurred at Summerside on Sunday evening. Deceased who was 71 years of age, came on a visit to former friends during the past summer but illness prevented his returning home, he always led an honorable Christian life and took much interest in the various activities of the Church, he was also known as a strong temperance advocate. He leaves to mourn one daughter, Mrs. George Wheeler of Burlington, Iowa, and one son Jack of New London, Ia., also two sisters, Miss Lois and Mrs. Minto of Summerside and four brothers, John of Kensington, Samuel of Margate; J. C. Portland, Me., and Moses of Tryon, N. C. A wire received from his son Jack on Monday morning states that he will arrive home on Wednesday evening and will accompany the remains back to his former home in Burlington, Ia., there to be interred with those of his late wife and son, both of whom have passed away inside of a little more than a year. Funeral to the boat on Friday morning from the home of his sister Mrs. Minto, Granville Street, where the funeral service will be held at about 8 p. m., a service will also be held at the same place on Thursday at 3 o'clock in the afternoon.—H.

—POLITICAL MEETING.—The political meeting held in St. Phillip's hall on Saturday afternoon was good. There were present, Messrs A. Lefurgey, Bell, Premier Arsenault, Capt. Read and Blanchard. All the speakers received a good hearing and the meeting was orderly. The first speaker Mr. Lefurgey made an able appeal for the Borden Government. He reviewed the great good conferred on this province under the present Dominion Administration and nobly defended the stand taken by Premier Borden on the question of the day. He was followed by Capt. Read who criticized the Borden Government. Premier Arsenault next spoke. The Premier referred to the good work done by Canadians at the front. That may be said the deciding factor in this war. Only for our brave Canadians, the war today might present a much more gloomy aspect. In answer to the allegation that the Liberal members now in the Union Government had entered with the object of getting some affairs, he cited names of several of these men who had abandoned lucrative positions in their respective provinces to join Borden and if these Liberals who, after all, were the standard bearers of the party, were only in quest of officers, what better opportunity had they, than sticking to their party and following Sir Wilfrid Laurier to triumph victory which yet is predicted in spite of the hopeless situation. The explanation of such inconsistency is simply an attempt on the part of Liberals to belittle the noble stand taken by their former leaders. Mr. Bell tried to explain what he thought was Mr. Borden's motive in introducing conscription. In denouncing conscription he tried to show that reinforcements were not needed. Mr. Lefurgey followed by answering all allegations made. Mr. Blanchard from Bloomfield was an eloquent speaker. The main substance of his speech was accusations against local tribunals who he thought were too severe and not impartial. He also repeated statements of Mr. Bell's speech, with reference to the number of soldiers Sir Wilfrid Laurier had sent to an instructive one, and was also well attended despite the bad condition of roads.—M.

—WESTERN PERSONALS
—Senator Murphy was a passenger to Tignish on Monday evening.—H.
—Rev. J. J. McDonald, Kinkora, was in town Monday.—H.
—Mr. and Mrs. John Murray, Albany were in town Saturday visiting friends.—H.

—Messrs James T. Gallant, Plusville; Charles McDonald, Charles Hickey and M. Brennan, Kensington were among the visitors in Summerside Saturday.—H.

LAUDS CAMARADERIE IN GLORIOUS CAUSE

BOSTON, Nov. 26.—Sir John Williston of Toronto, aroused the enthusiasm of 300 members of the Canadian Club last night by lauding the comradeship of battle between Americans and Canadians, out of which, he said, is to come "The integrity of nations, free men, free seas, a free world."

Sir John declared that the British Empire had done its full share in the war and added: "In the future journey a great army of Americans will march with us, as bravely and proudly as any armies that this great conflict has called to the field, confident that they seek no vulgar glory or questionable conquest and unconquerable because the cause for which they fight is as righteous as any for which men have contended since time began."

President W. H. P. Faunce of Brown University, congratulated Americans and Canadians on the fact that whenever differences of temperament and history might separate them, they had a common love of liberty which brought them together in a great crisis like the present.

WITH CHEERS FOR LAURIER AND CAT CALLS

MONTREAL, Nov. 26.—The organized gang of noisy interrupters of Unionist meetings was on the job again last night in St. Joseph's School Hall, where Sir Herbert B. Ames and Hon. where Sir Herbert B. Ames and Hon. C. J. Doherty, Minister of Justice, had a hard tie trying to address the electors of St. Antoine division. Cheers for Laurier, intermingled with cat-calls and yelling throughout the meeting made it practically impossible for the speakers to get their views before the gathering with any degree of satisfaction. Sir Herbert gave up trying to do so after repeated interruptions and cries of: "Paper Boots, One individual called out, 'What about Ames and Holden's boots for the soldiers?' To this Sir Herbert retorted, 'You will never wear out any soldiers' boots, if you can help it.'"

Hon. Mr. Doherty was called an Irish traitor by the hoodlums. In answer to their cheering for Laurier he told them they did not cheer for the Liberal leader. "While the cheering is good," Lieut. Col. MacKenzie Forbes, M. D., and Sgt.-Major John N. D. Beveridge in appealing for men to go to the front, were heckled, though the gang showed a little appreciation of their services to the country.

The proceedings closed by the Westmount Rifles Band playing "God Save the King."

PROTECTION OF FRUIT TREES FROM MICE

(Experimental Farms Note)

The annual loss of fruit trees in Canada from mice is very great. Some years they may be very destructive in one part of Canada and do little or no damage in another. The scarcity or abundance of food, the number of mice which are in the vicinity when winter sets in, and the character of the winter, all have an influence on the amount of injury which is done. Where the orchard is in sod or where there is rubbish about in which mice can harbor, the injury to trees, if unprotected, is liable to be much greater than where the orchard has been under clean cultivation or even where a cover crop is sown the previous summer.

It frequently happens that orchards which have escaped much injury from mice for several years from the time of planting, will be badly injured, if not ruined, just when the first crop is expected. There is nothing more discouraging to a farmer or fruit grower than to have an orchard in this way after he has cared for it for a number of years and there must be many instances in Canada where farmers, after a loss of this kind, do not re-plant.

Although it is not every year that mice are troublesome, trees should be protected from them every year until about six inches in diameter and even a tree of this size will some times be partly girdled. If the protection is neglected for one year, that may be the year when mice are very abundant and much injury will be done. The mice usually are looking for, or feeding on, seeds, nuts to the ground under the snow, and when they come to a tree they are likely to begin to gnaw the bark if it is unprotected, and before they have finished the tree may be completely girdled to a height of twelve to eighteen inches above the ground, which usually causes its death, although it may remain alive for most of the summer following.

The cheapest and surest method of protecting trees from mice is to wrap ordinary building paper around the trunk of the tree. The paper is cut into strips which are the length of the breadth of the roll of paper, the width of the strips depending on the size of the tree. The strips should be just wide enough to lap over, as one thickness of paper is all that is necessary. The paper is wrapped tightly around the tree and tied in two places with twine. A little earth is heaped up about the base after the paper is tied to cover any opening through which the mice might reach the trunk. Several thousand young trees are wrapped each year at the Experimental Farm in this way, and there have been practically no cases where the mice have gnawed through the paper to get at the tree. The paper is also effective but trees have been injured by using it and it is well to avoid this as building paper will do as well. A small mound of earth from eight to ten inches in height about the base of the tree will often prevent mice from injuring the trees and even snow tramped about the tree has proved quite effective, but one cannot always depend upon them, they had a common love of liberty which brought them together in a great crisis like the present.

20 p.c. off all Hard Coal Heaters. Note Savings Below

Here are sacrifice prices on guaranteed HARD COAL HEATERS including the well known SILVER MOON stoves also Reliance and Famous heavily nickel plated heaters.

durable and will protect the trees GIRL TELEGRAPHERS ARE TAKEN BACK

MONTREAL, Nov. 26.—The Great North Western Telegraph Company yesterday took back the six girls who operated the printing machines at its head office here and who were let out a month ago, presumably because they had joined the striking telegraphers and linemen a few weeks previously. It is understood that the girls will be paid for the time off, as demanded by the Minister of Labor in a letter to the telegraph company a short time ago. There are two girls in the head office at Quebec similarly placed, and they have not yet been reinstated, but it is believed they will be. The question of the reinstatement of these girls threatened to lead to another strike of the G. N. W. operators and throughout the controversy between the Telegraphers' Union and the company, the former has had the backing of the Labor Department at Ottawa.

THE POWER OF IGNORANCE From Life

No man is ever on intimate terms with a paleontologist but I once knew one as well as a paleontologist can be known. He was a married paleontologist—strange as that fact may seem—and his wife had presented him with a baby.

One of the duties of a paleontologist is to know all about babies. Their metatarsals, their cervical vertebrae, the praesternum coccygeum, and the supra-occipital—all these he knew, and a thousand things more. He knew as much about babies as a paleontologist can learn by studying the subject of the human framework and its history for twenty years.

On the other hand, this being their first baby, his wife knew nothing about babies.

And yet, singular as it may seem, when he volunteered, at the end of a week, to go buy a baby carriage, she looked up with a smile and said: "What you buy a baby carriage? Why, I would just as soon entrust such an errand to Uncle Ned's office boy."

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

NOT HEREDITARY From Answers

Rector's wife (to village grocer): "Well, I hope that you lie the new curate"

Grocer: "Yes, ma'am, thank you, we like him very well—a pause—"not however, that I think that he's as fluent as we had a right to expect, seeing as his father was an auctioneer!"

FRESH SUPPLIES IN DEMAND
Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

BRINGING UP FATHER

IS YOUR HUSBAND LIVING?
NOT YET!
