

THE CENTRAL GUARDIAN

GERMANY'S VIEWS OFF THE PROGRESS

DAILY SELECTIONS FOR GUARDIAN READERS

EMPIRE BUILDERS

For all are Empire-builders here. Whose hearts are true to heaven and home. And year by slow revolving year, Fulfill the duties as they come: So simple seems the task, and yet Many for this are crucified; Ay, and their brother-men forget The simple wounds in palm and side

But he that to his home is true, Where'er the tides of power may flow, Has built a Kingdom great and new Which time nor Fate will overthrow These are the Empire-builders, these Anax where none shall say them nay Beyond the world's uncharted seas, Realms that can never pass away. —Alfred Noyes.

A BROKEN MESSAGE

(Exclusive to the Guardian) NEW YORK, N. Y. August 18.—A Central News dispatch from Harwick says:—German cruisers reported to have opened fire upon a British Flotilla a hundred miles off Harwich this morning. The shots went wide. At this point the message breaks, showing unmistakable signs of censorship. The official press bureau does not confirm the message.

CONDITIONS IN JAMAICA

KINGSTON, Jam., August 18.—Jamaica has been in state of war too, but business continues as usual and the people are calm. At first they feared an attack from German cruisers in the Caribbean Sea but are convinced now of absolute security. The banks are advancing money as usual. There is no great financial stringency. The American flag floats with the Union Jack. German sailors are removed from British ships as they arrive.

GERMAN LETS CAT OUT OF THE BAG

LONDON, August 18.—A telegraph special from Copenhagen, says: Mr. De Borchgrave, the Belgian historian of the magazine Preussische Jahrbucher for August, just issued, discussing the possibilities of a German war. He says that it was almost certain that Britain would not take part because she was menaced and embarrassed by her own troops were still being assembled but they were driven back in the direction of Belfort and our advance was continued. In the meantime the small fortress-division of Strassburg suffered a defeat. On August 14, two fortress battalions proceeding through a pass in the Vosges near Schirmeck with machine guns were surprised. By the fire of the enemy's artillery from Donon our machine guns were destroyed and left behind in useless condition and were probably captured as booty by the enemy who proceeded towards Schirmeck. This success is insignificant and without any influence upon our operations but is warning against rashness.

MAETERLINCK VOLUNTEERS

A telegraphic special, dated Brussels August 18, says: Maurice Maeterlinck, despite his fifty two years, has volunteered for the front. In a letter received here he asks what Belgian corps he can join while a assistant in harvest work.

AUSTRIAN VICTORY AND CRUSHING DEFEAT

NISH, SERBIA, August 18.—Times Special—Austrians have crossed the frontier at Shabat and Leshintza. There are but few details of the Austrian invasion yet to hand. The enemy carried out a series of demonstrations on the frontiers which were successful at Shabat and Leshintza. An attempt was also made to cross the Danube at Tekia and at the Island of Tzignia, near Belgrade, where the Austrian forces at Shabat, are reported to be 15,000 strong. The combined Montenegrins and Serbian, sweeping movement in Bosnia continues. The Montenegrins are bombarding Cattaro. There are persistent rumors of revolution in Dalmatia. LONDON, August 18.—The Daily Telegraph Special received at the Serbian legation from Premier Tashiche, states that the Austrians have been completely routed in the mountains near Sab Atz, 15,000 having been annihilated and 14 guns captured. The Austrians are fleeing in great disorder to recross the rivers Save and Drina. They are hotly pursued by our troops.

FRENCH OPTIMISM SUCCESS ALL ALONG

PARIS, Aug. 18.—The last official statement issued last night says: "Situation continues good. We are making methodical progress in Upper Alsace. The German forces are retiring in great disorder, some towards the north, others east. This is proved by the enormous amount of shells, wagons and provisions abandoned. The Germans also lost much more heavily in this region than we first thought. This is proved by the number of bodies found. We are making the same progress in the valleys of Saint Marie and Ville. Our troops are strongly based on Denon position marching down the valley of Druche towards Strassburg. Everything goes to show the Germans in this region are completely disorganized. Our troops are gaining ground along the line of Lorquin, Adenanade, and Marsal. We have gained ground from six to twelve miles all along frontier from Belfort Chambrey and have established ourselves solidly both Alsace and Lorraine." LONDON, Aug. 18.—An Exchange Telegraph despatch from Mainz says the German Emperor, accompanied by his three sons, including the Crown Prince Frederick William arrived.

JAPAN'S ATTITUDE GROWING ACTIVE

(Canadian Press.) WASHINGTON, Aug. 18.—Japan's sudden entry into the European war situation is a factor that might quickly increase the range of the great conflict to Far East, and has commanded a wide attention both among officials of Washington Government and diplomats generally. The attitude of the States it became clear would be one of non-interference in the controversy between Japan and Germany. This is reflected somewhat in the studied reticence of both President Wilson and Secretary Bry.

GERMAN EXPLANATION OF LIEGE OPERATIONS

(Continued from page one) only casualty was one. One and a half army corps belonging to the enemy penetrated upper Alsace while our troops were still being assembled but they were driven back in the direction of Belfort and our advance was continued. In the meantime the small fortress-division of Strassburg suffered a defeat. On August 14, two fortress battalions proceeding through a pass in the Vosges near Schirmeck with machine guns were surprised. By the fire of the enemy's artillery from Donon our machine guns were destroyed and left behind in useless condition and were probably captured as booty by the enemy who proceeded towards Schirmeck. This success is insignificant and without any influence upon our operations but is warning against rashness.

Stomachs Kept Doctor Busy

"An old-fashioned doctor, a number of years ago, told us stomachs kept him busy. And he argued that a more conscientious care of the stomach would practically put his profession out of commission."—National Food Journal, June, 1914.

It was a new process of milling that had considerable to do with keeping this old doctor on the jump. This process—which made flour look white and pretty—unfortunately removed nearly all of the really vital mineral elements of the wheat—the invaluable phosphate of potash, etc.

This kind of milling has now become almost universal. Think what it means to deprive the system of these elements which are necessary for its daily rebuilding?

Grape-Nuts

—a delicious food

made of wheat and barley, contains all the nutriment of the grains, including their mineral elements. Many forms of stomach trouble are due to a lack of these elements in daily food; and a regular ration of Grape-Nuts and cream along with other food is admirable to set one right.

Canada will prosper at the expense of Continental Europe. This is not a time in Canada for repining on the part of the business man. We must be careful, even frugal, but we must also be bold.
