THE first lecture of the Natural History and Antiquarian Society course will be given next Thursday evening in Queen Square School by Rev. A. G. Browne Subject—Sun Spots. Their nature, their cause, and their effect.

THE furniture in the school at Union Lot 83 has been recently re-arranged to the great convenience of both teacher and pupils. A new system of ventilation has also been introduced and the building put in first class condition for the winter season.

C. B. and Mrs. Mallett and family of Union have moved into their fine new residence which has all the most modern improvements and conveniences. The style of architecture is altogether new in that part of the country and is very creditable to the architect and builder Mr. Mallett himself.

MR. WILEY, and other gentlemen connected with the Dominion Packing Company, Charlottetown, were in town last Saturday and have arranged to make Pictou a warehousing centre for the distribution of their products. An agreement has about been reached with Messrs P. Brown & Son by which the Packing Co. will have the use of their large warehouses on the Market Wharf. It is not improbable that the Company will erect a packing plant in this town. As it is a splendid centre for their work and would be of immense benefit to the town and country, The Town Council should take active steps towards securing at least a branch factory. The citizens will back them up in any reasonable scheme.—Pictou Standard.

THE home of John and Mrs. Deason, North Wiltshire, was the scene of a happy event on Wednesday evening Nov. 18th., the occasion being the marriage of their only daughter, Miss Emma to Everett Boyer of Banbury. Rev. W. B. Thomas spoke the words that made them one. The bride who was given away by her father, was prettily dressed in white silk with bridal veil. She was attended by her cousin, Miss Clara Balderston, while Stephen Deason supported the groom. After the ceremony the company repaired to the dining room, where a bountiful repast was served. The bride was the recipient of many valuable presents, including an elegant watch and chain, the gift of the groom. The happy couple left the following day for their home in Banbury, attended by the best wishes of their many friends in North Wiltshire.

PROMINENT among the wholesale commission fresh fish dealers of New York are P. M. Comstock & Co. This well known and reliable firm is situated at 162 and 151 Beekman St., Fulton Market and their warehouses are an emporium for the fish trade from the different parts of Canada and the United States. By strict attention to business and the business integrity which marks the leading firms in the fish dealing trade P. M. Comstock & Co. have won a reputation which makes them confidentially trusted by all shippers who have previously had business transactions with them. During their past years of business they have accumulated an experience, in the handling of consignments from Provincial dealers, which is a prime requisite to conducting a business of this kind. Island fishermen and dealers in fish during the coming fall and winter season are asked to write to Comstock & Co., regarding prices and other matters relative to consignments. Schedules will always be furnished on application, prompt returns are guaranteed to all shippers, and the topmost market prices are a characteristic feature of the dealings of the firm with their consignees.

Daniel McLure of Union Corner spent Sunday in this village as the guest of M. C. DeLaney.

Daniel McKenzie & Son, of Tryon, are now applying their artistic brush to the interior of the new residence of S. L. Lawson.

The white mantle of snow, which has covered "Mother Earth" during the last few days, in this vicinity is now rapidly disappearing, under the influence of gentle showers of rain.

The new rotary of the firm of Geo. Ives & Son, has arrived and is being installed, as fast as possible. It is a marvel of workmanship and more than satisfies the expectations of this enterprising firm.

Although many thousand dollars worth of pork has been shipped from this village there is still a large number of hogs to market. The farmers who have not yet killed are waiting in hopes that the prices may rise.

Our farmers are now preparing for the coming winter, of which this village has had its first foretaste. The past season has been a very successful one for them, to which the bursting barns and o'er flowing cellars testify.

Leewood (274) the trappy up-to-date power, owned by S. N. Dawson, is in the pink of condition and the owner is patiently waiting for good ice on Bedeque Bay, to show some of our western speed owners, a clean pair of heels.

The new barn of James Dawson, is now completed and the owner is to be congratulated on adding such an acquisition, to our village, and also for having the best, the most convenient and the best arranged stock barn in this village.

Our carpenters are now finishing their various jobs up for the winter; being more than satisfied with the work they have put through during the past season. Many buildings now stand as monuments to their skill as being second to no carpenter work on the Island.

Our butter factory, under the skilful management of Frank Lang, is now running three times a week, which timetable, will be kept up during the winter months. Although the amount of milk which has been received is not up to the average of former years, yet it is of a superior quality; and this will make up the farmer's loss, in weight.

The Rifle Association of this village, has been doing excellent work at the range, on Capt. Boulter's farm. Good scores have been made by all the members, who have fired. The most efficient shots are Capt. F. Boulter and Ross Boulter, who have almost made 100-ables at every range. The cold weather has somewhat suspended shooting now, but the crack of the rifles, and the whir of the bullets, are still heard.

Our genial blacksmith, Thos. McNeill is doing a rushing business in the new shop he erected this summer. His shop now embodies every convenience that can be had in an up-to-date shop. Although Mr. McNeill has been kept busy in this line, yet he has by no means neglected the wants of those who are to be supplied with sleighs and cutters. Experienced workmen have been employed and under the owner's foremanship, choice articles have been turned out, more than satisfying those who expect so much. In truth Mr. McNeill is "the right man in the right place" and no one can predict what the cause would do without "our smithy Tom."

UNMISTAKABLE SIGNS OF CATARRH.

If you have a ringing in the ears, drooping in the throat, bad breath, headache, morning weakness, bad taste in the mouth—then you catarrh. Use Cattarrh-zone in four times daily and eradicate this awful disease from your system. Cattarrh-zone kills the germs, heals the inflamed membranes, clears nose, throat and air passages by one application. Cattarrh-zone quickly remedies the head, neck and deafness, prevents drooping and is warranted to absolutely cure all forms of Cattarrh, Bronchitis, Asthma, and Lung Troubles. Two months' treatment costs \$1.00; trial size 25c. Druggists or N. C. Polson & Co., Kingston, Ont. DR. HAMILTON'S PILLS CURE HEADACHE.

SMALLPOX IN NEW YORK.
