BESCO PROPOSAL FORWARDED TO PRESIDENT J. L. LEWIS

Passed First Through Hands of the Miners And Minister of Labour Murdock - Latter Makes Only Official Comment.

(Canadian Press) SYDNEY, N. S. June 19.—The British Empire Steel Corporation's proposition for a settlement of the present tie-up in the Nova Scotia fields has been forwarded to International President John L. Lewis, at Indianapolis by the district executive of the United Mine Workers, and is going tonight to the various local unions of the province. The Corporation's "Proposals" were given to Hon. James Murdock, Minister of Labour by Vice-President J. E. McLurg on Wednesday and handed on by the Minister to the miners yesterday. The minister then left for Ottawa today leaving behind him the opinion that the strike "can and should be settled within ten days." The only official comment on the Corporation's "proposal" so far made was contained in Mr. Murdock's statement last night in which he quoted the miners' representatives as finding therein "two or three able" proposals which appear, almost if not entirely impossible of acceptance.

Scheme To Re-compense Home Bank Depositors

(Special to the Guardian) OTTAWA, Ont., June 19.—The fate of the Government's measure for the re-compense of the Home Bank depositors to the extent of \$5,450,000 on the basis of approximately thirty five cents on the dollar hangs precariously in the balance. At the request of the Senate, G. T. Clarkson, liquidator of the defunct bank, appeared before the Senate Banking and Commerce committee today, and submitted a mass of statistics. He stated that 88 percent of the depositors had had amounts in the bank under \$5,000 and that 47,000 out of 60,000 odd had amounts under \$500. When asked for a suggestion, Mr. Clarkson put forward a proposal that claims up to \$2,000 be settled in full, then eliminate corporations and all the balance of losses to put in affidavits to the effect that they had been left destitute and let a special committee deal with these cases.

FAREWELL ADDRESS PRESENTED TO SISTERS OF CHARITY

By the Mayor and City Council at the City Hospital last Evening.

His Worship Mayor McKenna, all the members of the City Council and the City Clerk waited last evening on the sisters of the Charlottetown Hospital who are about to leave for Quebec province, and presented them with the following address which was read by His Worship the Mayor:

To the Sisters of Charity in Charge of the Charlottetown Hospital. It is with deep and sincere regret that our citizens learn that you are leaving here to take up your duties elsewhere.

Forty six years ago the Sisters of your Order came to this city and started a Hospital in a small building on the site where now stands the beautiful Cathedral of St. Dunstan.

Under your care and management the Charlottetown Hospital has grown from humble beginnings to the magnificent edifice which in a short time will be opened to continue and extend the good work inaugurated and carried on successfully by you for so many years. The steady advancement of this institution to its present position, of a standard well-equipped hospital to be attributed to the assiduous care the Sisters of your Order have taken in looking after every detail in the supervision and management.

Your many acts of kindness and charity to our citizens will be long remembered; your kind and soothing words to the sick and suffering shall remain a memory as long as life lasts.

That dread year of the small-pox epidemic brings to our minds many sad thoughts of those terrible days of suffering and sorrow among our people. The example of

Maine Claims Any Arctic Discoveries By MacMillan

(Canadian Press) SOUTHPORT, Maine, June 19.—Governor Ralph O. Brewster of Maine, tonight authorized Donald B. MacMillan, who sails for the Arctic tomorrow, to claim any territory he may discover in the polar regions for the State of Maine.

He made this announcement at Newagen Inn at dinner in honor of the explorer, which was attended by many persons prominent in state and national affairs.

Governor Brewster himself arranged for the dinner and in view of recent press despatches announcing Canada's attitude toward the United States in the matter of claiming any territory discovered by the MacMillan expedition, his announcement was heard with keen interest.

"By the well settled principles of international law," said Governor Brewster, "Discovery is the primary incident in a claim to any land. If the question shall ever arise as to its title, ample constitutional provision is made for its determination by the Constitution."

CHARLOTTETOWN WELCOMES HER SONS AND DAUGHTERS FOR OLD HOME WEEK

A right royal welcome is being prepared by the citizens of Charlottetown for their sons and daughters, who have gone out to burn fiercely in their breasts. It is fitting, therefore, that we unite in one grand spontaneous effort of genuine Prince Edward Island hospitality during Old Home Week. Let us honor those who have brought honour to us. They have been beacon lights pointing the World to the land of their birth. Let the land of their birth for one delightful riotous week, lay aside the cares of office, and forgetting all else, bend their energies and give of their time and money to the entertainment and enjoyment of our visitors. We are known as the "Garden of the Gulf," the "Home of the Silver Fox," etc. Let us deserve the further title of "The Home of Hospitality." The committee in charge want the sympathy, the co-operation, and the loyal support of its citizens. If Charlottetown proves true they will get it. Are you in on it?

BURDEN OF TAXATION IS INCREASING

At Alarming Rate—If Present State of Affairs is not Remedied Canada Will be Absorbed by the United States

TORONTO, June 19.—Canada would be absorbed economically, if not politically, by the United States, if the present state of the country's affairs were not remedied, it was predicted by Hon. H. H. Stevens, Vancouver, Minister of Trade and Commerce, in the Meighen Government at the annual picnic of ward four. Toronto Conservative Association at Queenston Heights yesterday.

At present in Canada, continued Mr. Stevens, there were three outstanding problems facing the country. They were unemployment, transportation and debt or taxation. As things now stood Canada was drifting in an alarming way. The country's very social and political life was threatened and its great natural resources were not being developed in the interests of Canadians, but on the contrary were being exploited by others. The railways were not receiving nearly sufficient tonnage and the burden of taxation was increasing at an alarming rate.
