GIANT FLYING BEETLES

PORT WILLIAM—Giant beetles have made their appearance at this Lakeland city. A hard-shelled member of the order of Coleoptera, three inches in length with a wing spread of more than four inches flew into the home of John Thunder at Mission village, near here, and knocked the chimney off a coal-oil lamp.

Possemen Expect Gun Battle

EUREKA, Calif., Aug. 31—Expecting a gun battle—and ready for it—possemen poked rifles through heavy brush along the wild California-Oregon border to night hunting two ex-convict brothers, accused triple-killers.

Divided into small groups and aided by bloodhounds and Karook Indians, the posses slashed their way through brush 30 feet high as they trailed John Britte, 36, and C. T. Britte, 34.

Shot-torn and beaten, the bodies of deputy sheriff Martin Lange, 46; constable Joseph Clark, 65; and Capt. Fred Seaborn, 50, former United States navy officer, lay in a morgue here, victims of a mountain gun battle early Sunday morning.

The slayings occurred when the two officers, Seaborn, and his vacation companion, Charles Baker, went to serve assault warrants on the Britte brothers. Seaborn and Baker complained they had been attacked by the men when a horse wandered onto their gold prospecting claim.

ROYAL PHONES

More telephones have recently been installed in Buckingham Palace. His Majesty is a firm believer in the use of the telephone and he has given instructions for a telephone to be placed in every room of the Palace which he may use. The number of telephones at St. James's Palace and Fort Belvedere has also been increased. King Edward VIII, unlike King George V., uses the telephone on all possible occasions—he even puts through calls himself without the operator's assistance. All calls from Buckingham Palace are secret, as special devices prevent the operators from listening in.

EVERY AGE AFFECTED

All unknown and many known errors of vision are neglected. Results of this neglect are tremendous. Every age is affected by faulty vision. Individuals everywhere are not getting out of life what they should because they do not see as they should and because they are continually under a strain.
