Farm Notes

HAY MARKET OUTLOOK

The latest addition of the Hay Market Report of the Dominion Seed Branch shows that good hay is reported in fair demand in the domestic markets of most of the cities and towns in Canada, but of course the total amount required for this trade is small when compared with the surplus of hay available in the commercial hay growing districts throughout Canada. There are still substantial quantities of mixed and timothy hay in the St. John River Valley and the Sackville, Pictou and Truro districts of the Maritime Provinces, in the Upper St. Lawrence Valley and the Montreal district, Quebec, and in Ontario, particularly in the Ottawa Valley, and the Warton, Inwood, Sudbury and North Bay districts.

record of receipts and expenses together with an inventory (a list with values of live stock, feed, implements, etc., on hand), taken at the beginning and end of the farmer's year, must be kept if he is to find out why or where it doesn't pay. A record of each department of the farm business should be kept. This is the only way to find out how much is being made from each or which departments are not paying. To assist the farmer in this matter the Dominion Experimental Farms have issued a very simple and useful little account book. This little book, while simple, is a great step in advance of keeping no accounts whatever. It may be procured from the Publications Branch, Department of Agriculture, Ottawa, for the sum of ten cents.

GROW MORE ALFALFA

There are excellent arguments for a greater use of the alfalfa crop in Western Canada. At the present time there is a definite tendency to increase the acreage of forage crops. Alfalfa should certainly be grown on part of this land. It is true that the acreage of alfalfa remains small and many trials have resulted in disappointment. The reasons for this, however, are well understood. Alfalfa is a crop that requires special conditions and proper handling but it is a crop which will prove very valuable to the man who will try to understand how it should be grown.—Dept. of Agriculture, Ottawa.

NEW WAY TO SELL POTATOES

A recent market report from Toronto states that the Allison Branch of the Central Ontario Potato Growers' Marketing Association has sold a quantity of Canada fancy potatoes in 15-lb. bags which retail at 18 cents each in Toronto. This is at the rate of 45 cents net on the basis of the standard 90-lb. bag or considerably above prices obtainable in ordinary containers.—Economic Annalist.

"MAPLE" MEANS "PURE"

Now that the sap season is here again it is timely to point out that Canada leads the world in respect to pure maple products. Under the provisions of the Maple Products Industry Act (1931) the word "maple" may be used only to designate a maple product 100 per cent pure. Any adulteration is not permitted. Wherever the Canadian product is offered under the name of "maple" it is 100 per cent pure, being the product by evaporation of pure maple sap.—Dominion Fruit Branch.

ST. PETER'S INSTITUTE

On June 1st, 10 members and 3 visitors met at the home of Mrs. George MacLaren. Meeting opened by singing "The Wreck of the No. 9." Roll Call was answered with Recipes. Minutes of last meeting were read and discussed. Correspondence was read and discussed. Members decided to attend district convention at Morell; program for this branch, a dialogue and recitation. It was decided that Miss Laura Simons take the secretary's books for the July and August meetings. A report from the supper was given. The total proceeds were \$8.05. Program for the evening consisted of a recitation, "Old Man Brown" by Mrs. Billie MacLaren. Reading, "Choosing a Man for Jennie", by Mrs. John K. Simons. Song, "I'll Forget But I'll Never Forget", by Marjorie Webster and Hattie Simon. Reading, "Mrs. Candid Entertains the Ladies Aid." Recitation, "The Marriage of Celina Swartz." Instrumental music by Miss Laura Simons.

CANNING BUSINESS GROWS

During the past decade there has been a rapid development of small canning establishments in rural Quebec. In 1920 there were but four or five canning plants of this type whereas in 1931 there were fifty nine. The output was 500,000 cases of canned goods and in addition catsups, mayonnaises, marmalades and jellies were made in considerable volume. The value of these canned goods produced in Quebec in 1930 was over \$4,000,000.—The Economic Annalist.

THE FIELD FORCE COUNTS

C. B. Gooderham, Dominion Apiarist for the Department of Agriculture at Ottawa, calls attention to an important phase of honey production in the following statement: "The amount of honey which a colony can gather is largely dependent upon the number of bees that colony can release for field work during the period of the honey flow and upon the ability of the bee-keeper to keep this force contentedly working. The total number of bees within the colony is not a reliable index as to its ability to gather honey, because it is only those bees that are above a definite age that are effective as nectar gatherers and it is the number of bees in this force that counts in the production of surplus honey and furthermore, the strength of this force is dependent upon the care given the colony during the previous eleven months and not upon spring management alone as so many beekeepers fondly hope."

FARMER'S ACCOUNT BOOK

Farming is a business, and if it doesn't pay the farmer wants to know why it doesn't pay. Some

CENTRAL GUARDIAN

KINDERGARTEN CLOSING
Wednesday morning, June 22nd at 10.30. All interested in Kindergarten cordially invited. 3818-5-21-21.

Porter left on Monday morning for Charlottetown where they will attend the annual meeting of the Masonic Grand Chapter for Nova Scotia, Prince Edward Island and Newfoundland. Among those attending the sessions will be Dr. Thomas N. McKee, and James McCullough, both of Kintail, P. E. The former is Grand High Priest Grand Holy Patriarch of the Chapter of Pennsylvania.—Truro News.

CALEDONIA PRESBYTERIAN CHURCH—July 3rd will be Communion Sabbath. The communion services morning and evening will begin on Thursday morning. The closing service will be on Monday morning, July 4th. Revs. D. L. Griffiths, Belfast, and A. R. Gibson, Montague, will assist the minister. On Sabbath there will be the usual 11 a.m. Gaelic service and the sacrament dispensed at the tent in the beautiful grove below the church. Rev. Allister Murray, minister.

Coast To Coast

Cooperation With Nurses' Association

SAINT JOHN, N. B., June 22—(By The Canadian Press)— Attainment of the national objectives of the Canadian Nurses' Association is being accomplished by co-operation of provincial organizations from coast to coast, Miss Florence H. M. Emory, assistant director, department of Public Health Nursing, University of Toronto, said today in her presidential address to the biennial convention of the association.

An increase in the membership was placed in the forefront of the association's objectives by the president, along with the implementation of the survey of nursing education in Canada conducted by Dr. G. M. Weir, Vancouver, B. C. This survey which will be discussed at length at the convention and which, Miss Emory said, "will provide content for convention programmes for years to come," is "scientific in approach and method." "Some of its findings cut deep," said the president. "They strike to the core of nursing difficulties. In its pages the student nurse is portrayed. Her intelligence her health care are examined. The nursing school is brought to the footlights with the conclusion that financial support from the state is necessary if schools of nursing are to take their place with schools giving preparation to a sister profession."

"Perhaps the most intriguing and stimulating chapters of the report are those devoted to a discussion of the control of the graduate nurse" said Miss Emory. "The socialization of nursing services with the formation of district registries, of provincial and federal nursing councils, appears to offer a penetrating and intelligent, if somewhat remote, solution of nursing problems."

The report of Dr. Weir had not only provided the profession with an immense body of subjective and objective data. It had brought together in national and provincial joint study committees those who have power to improve the situation, the president explained. "This report is not the final publication on nursing affairs in Canada. The profession should expect a second report, indicating accomplishment, revealing new truth," said Miss Emory.

INSPIRING SERVICE AT LONG CREEK

A service of a most inspiring and uplifting character was held in Long Creek Baptist Church on Sunday evening, the 19th, when "The Prodigal Son in Song and Story" was presented by the excellent local choir assisted by soloists from Charlottetown and Cornwall.

In the absence of the pastor, Rev. Mr. Wakeling, Mr. Alex McPhee presided, reading appropriate scriptural passages and introducing (in a few well chosen remarks) the hymns which depicted so clearly the wanderings and subsequent happy return of "The Prodigal." The participants in this service were greeted by an exceedingly large and appreciative congregation the church being filled to its utmost capacity.

The beautiful floral decorations added greatly to the worshipful spirit which characterized the service throughout. Much credit is due the organist Mrs. Hector Currie, her splendid choir and the assisting artists for the excellence of this sacred program which was as follows: Duett, "Drifting," Mrs. Leigh Warren and Mr. Bertram Warren. Solo, "Where is My Wandering Boy Tonight," Mr. John Heartz. Male Quartette, "Wandering Child, Oh Come Home," Messrs. Warren, McKeanie, Heartz and Stretch. Solo, "Only a Step to Jesus," Miss Dorothy Doull. Mixed Quartette, "Almost Persuaded," Mrs. Alex. McPhee, Miss Helen Doull, Messrs. Norman Stretch and Wilfred Stretch. Duett and chorus, "I Surrender All," Mrs. Warren, Mrs. McEachern and choir. Solo, "The Mistakes of My Life have been Many," Mrs. Leigh Warren. Solo and chorus, "Lord I'm Coming Home," Mr. Norman Stretch and Choir. Chorus, "Lead Kindly Light," Choir. Solo and Chorus, "Home Sweet Home," Miss Jean Moore and Choir. Solo, "He Lifted Me," Mr. Wilfred Stretch. Chorus, "Ring the Bells of Heaven," Choir. Duett, "Sweeter as the Years go By," Mrs. McEachern and Miss Dorothy Doull. Offertory organ solo, Mrs. Hector Currie. Hymn, "All Hail the Power of Jesus Name," Choir and Congregation. Benediction, Doxology and Prayer. Solo—Miss Jean Fraser.

PERSONALS

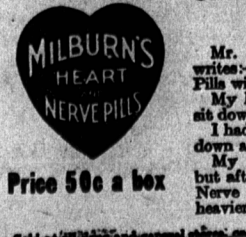

Miss Marie McLeellan and Miss Mary Devereux left yesterday morning for St. John to attend the Canadian Nurses Biennial meeting. Her friends will be pleased to know that Miss Winnifred Robertson of Pownal is rapidly improving after undergoing an operation. She is expected home in a few days time.

A dear old lady in black visited an undertaker and said: "I want a coffin for my old man. He was a good-old man and I want a fine coffin, an oak one."

"Oak, yes, madam," said the undertaker. "And what kind of trimmings?" "Trimmin's" said the old lady. "Trimmin's" and she began to cry. "Oh, no, mister, no trimmin's! It was them the poor old boy died of."

Sharp Pains In His Heart Nerves In Bad Condition

Mr. Fred J. Chase, Thomson Station, N.S., writes:—"I have used Milburn's Heart and Nerve Pills with wonderful results. My heart would beat so fast I would have to sit down when at work chopping in the woods. I had sharp pains in my heart when I would lie down at night. My nerves were also in a very bad condition, but after using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

ANCIENT TOKEN FOUND IN EARTH

HALIFAX, N. S., June 21—A communion token of the Presbyterian Church of Nova Scotia at Onslow near Truro was recently unearthed on the premises of a LeMarchant Street residence. The token, which is of pewter, is about four-fifths of an inch square with rounded edge and slightly rounded corners. Inscribed in capital letters in a ring shaped band is the name John J. Baxter on the upper part, and Onslow on the lower. The date 1832 is in the centre and the reverse side is blank. The token was presented by the finder to the Provincial Museum.

FAILS TO CHARM 4-FOOT SNAKE

Boston, Mass., June 21—A thoughtful friend of Mrs. Laura G. Summers, 59 Claremont Road, Belmont, sent her as a present a four-foot bull snake, from the wide open spaces of a western desert, with a little note telling what fine pets bull snakes make when trained. Ignorant of training methods, but quite undaunted, Mrs. Summers began her instruction of "Brownie," only to solicit aid from the Animal Rescue League. Exit "Brownie." "Brownie" weighs about eight pounds and is about as thick as a half-dollar at his "waist." He is a mottled brown, sprinkled with black here and there. His kind flourished on deserts and are deadly enemies of rattlesnakes, since they are immune to the rattlers' venom and invariably come out victorious when in combat.

So "Brownie" is now looking for a nice, comfortable home, and Mrs. Summers is going in for more domestic pets.

Hold always to honesty as one would to life.

First Organ In N. B. Still In Use

FREDERICTON, N. B., June 20—The first pipe organ ever used in a church in New Brunswick is still in service in Christ Church, Maudsleyville, Sunbury County, the congregation of that parish having purchased the instrument when another was secured for the parish church in Fredericton. The organ was built in England and brought here in 1790 by Hon. Thomas Carleton, first lieutenant-governor of New Brunswick. The first parish church of Fredericton was completed in 1790 and the organ was in use for some years after that date. It is still in good condition.

GULLS SIGN OF LUCK

CAPE ST. MARY, N. S., June 21—A unique and beautiful sight here recently was a large flock of gulls. In the early morning the water was crested with them, just a few yards from the breakwater. Old fishermen knew it to be a sign for pollock, and when amateur fishermen in dories or punts tried their luck, they found the water alive with them. Expert fishermen also got busy and one boat landed 1500 pounds of fine pollock in two hauls, caught only a few hundred yards from shore. It is twelve years since pollock has been caught so near shore here.

For treatment of caked bags in cows, or garget, use Douglas's Egyptian Liniment—the quick, sure remedy. Saves times and expense. Prevents blemished stock.

The prosecuting counsel had encountered a rather difficult witness. At length, exasperated by the man's evasive answers, he asked him if he was acquainted with any of the jury.
"Yes, sir," replied the witness, "more than half of them."
"Are you willing to swear that you know more than half of them," demanded the man of law.
The other thought quickly. "If it comes to that," he replied, "I am willing to swear that I know more
