Women of Middle Age

THE critical stage of a woman's life usually comes between the years of 45 and 55, and is often beset with annoying symptoms such as nervousness, irritability, melancholia, heat flashes which produce headache and dizziness, and a sense of suffocation. Guard your health carefully, for if this period be passed over safely, many years of perfect health may be enjoyed.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women through this crisis. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. It is prepared from medicinal roots and herbs, and contains no harmful drugs or narcotics. Its value is proven by many such letters as these:

Vancouver, B. C.—"Before I took your wonderful medicine I was sick and ailing all the time. I happened to be speaking to a friend and she said, 'Why don't you try Pinkham's?' I am on my fourth bottle and can truthfully say I never felt better. I had tried all kinds of medicines but none seemed to do me much good. I urgently plead with those who are sick to try it. I was always cranky and had headaches but now life is altogether different. What the Vegetable Compound has done for me it will do for others."—Mrs. T. W. PLURO, 557 Richard St., Vancouver, B.C.

Brockville, Ontario—"I took Lydia E. Pinkham's Vegetable Compound for weakness and female disorders. I was so weak at times that I could not stand up. I had been this way for nearly three years, and the different medicines I had taken had not done me any good. I found one of your little books at my door one day, and I thought I would give your medicine a trial. I am now on my fifth bottle, and it has helped me. I am feeling much better, have no weak spells and can do all my work now. I am recommending your Vegetable Compound to all I know."—Mrs. CASEY LEMERY, 176 Abbott St., Brockville, Ontario.

Letters like the above do influence women to try
