Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep The Children's Comfort—The Mother's Friend.

BUILT BRIDGE IN [illegible]

All bridges construction records of peace times are said to have been broken by the replacement of the Point of Pines bridge over the Saugus River, between Lynn and Revere, Mass. this summer.

The new bridge, a wooden structure four hundred feet long and thirty-three feet wide was put up in ten days and cost $33,000. Counting the clearing away of burnt parts before reconstruction could begin, the wh[illegible] took exactly thirteen days [illegible] twenty minutes.

An account of the feat published in the Scientific American says:

On the morning of July 4 steam derricks appeared at the bridge and work started tearing off the damaged deck and weakened piles. Three days later new construction began.

"Storms and heartbreaking obstacles interfered from the start. At first it looked like a month's job. Flood-lights were put up and the work drove ahead night and day. As days passed the outlook grew brighter.

By July 12 all the caps except on six spliced points at the Lynn end of the bridge were in position. On the 14th it was possible to cross the bridge on the loose planking while the cross bracing went ahead swiftly.

"While the job of laying the wearing surface of 2 inch spruce planks began, the workmen were sure that sawing would take ten days to two weeks. An individual motor-driven circular sawtable with mitering arrangements operated by two experts were rushed out from the Lynn works. The planks were cut at the proper angle as fast as they could be fed. The laying of the planks was so swift that Mayor Creamer was able to drive the last spike on the 18th, and the bridge was done.

"Only the best materials have been put into the structure. The new piles are of oak; the stringers caps, deck, fence, post and hand rails are of long leaf hard pine and the wearing surface of spruce. 270,000 board feet of lumber have been used. Instead of a temporary bridge, it is made as well, if not better than the original structure, and is guaranteed for ten years."

Are You Sure Your Children's Eyes Are Right?

A responsibility rests upon every parent to give his child every possible advantage in life; to give the child the best of weapons with which to meet the struggle of the years ahead. Surely good eyesight is "the priceless gift" that your child should have. Remember that poor eyesight means poor concentration and will retard the youngster's progress. Many a child considered dull or lazy in school or music studies has simply been suffering from defective vision. And after correct glasses have changed entirely the record of performance. Perhaps your youngster's report-card is reflecting the presence of eye-strain. Perhaps you are not doing your own child full justice. Have an examination made and know. Consult

THAT MARRIED LOOK!

By a Married Man.

Asked in court the other day whether a certain individual was married or single a woman witness remarked that he certainly did not look like a married man.

The answer was founded on experience and observation, and it is a disconcerting truth that married people and married men in particular can be detected by many almost infallible signs; just as a man's trade can be told from his appearance, his face, hands, or the texture of his skin.

A woman can recognize these signs with eerie certainty.

Married couples of any standing have a certain look either of serenity or of subdued discontent; an absence of absorbing interest which indicates that the personality of each has been fully explored by the other, and that the result is content or discontent, but always a degree of boredom. There is also a possessive quality in the looks and conversation of married people.

Honeymooners, of course, despite their efforts of concealment are apparent to all men. It is curious to observe that they almost invariably attempt to disguise their newness by putting on a mask of disillusion and lack of interest.

But they are betrayed a thousand times by the expression of love and mutual delight which cannot be hid. The sun might as well feign extinction by hiding for a moment behind a summer cloud.

I was staying once at a hotel where three such couples vainly tried to carry off this amiable deception. On the third day after her arrival one of the brides had occasion to use her parasol, but the confetti which descended in a shower upon her was no news to the delighted spectators.

It is more difficult to recognize the married man away from his women-folk. Consider, for example, the men seated in your railway car. Some of them have the married look and some have not.

There is a general presumption that people over a certain age are married. But, taking the man of 25 to 30, you will note that there are differences.

As to the general appearance, the dress of the average married man is well brushed, his linen clean, yet there is an absence of that masculine smartness which bachelors who have not yet come to terms with the other sex almost invariably achieve.

Moreover, a certain expression of sadness or sobriety is characteristic of the man who feels the in

Aches And Pains Of Rheumatism

Sometimes They are Unbearable

There are weather conditions that make rheumatism worse. They are not the same in the cases of all persons. Some rheumatics suffer more in dry warm weather than in moist, cold weather, but all suffer more or less all the time.

The cause of rheumatism is an excess of uric acid in the blood, affecting the muscles and joints, causing aches and pains. Hence the blood must have attention for permanent results in the treatment of this disease.

Result Depends On French Delegates

NEW YEAR'S EGGS.

The Persians still exchange presents of eggs at New Year's just as we do at Easter. But the rest of us now do our giving of presents at Christmas parties, though we may give to each other on January 1. In Scotland and England everybody calls on everybody else New Year's day, and drinks punch. Here in America calling has gone out of style, but if we do nothing more, we at least shout "Happy New Year" to everybody we meet on New Year's morning. When we shout that, we mean good luck to them for all the new year through.

IF YOU ARE WELL BRED

You will take your departure just after having spoken to your hostess. Leaving while someone else is speaking is bad form.

You will consider yourself the accredited chaperon of any young woman guest in your home who has not brought a chaperon with her.

You will ask that the hostess not be interrupted if you arrive at her home before the appointed hour and are admitted by a maid or some member of the household.

You will lead conversation along bright and entertaining lines when calling n the sick.

You will send a card of invitation indicating your days at home when you wish to open an acquaintance.

You will return a first call within a fortnight.

You will remember that a lady never calls on a man, except on business.

You will call on a bereaved friend within four weeks after the funeral.

You will not refer to the afflicted one's sorrow unless he or she mentions it.

You will speak to the member of the bereaved family with whom you are best acquainted.

You will remember that a bereaved person is a law unto herself and that refusal to receive you is not discourtesy.
