BIG POWERS AT WAR RAISE \$66,521,400,000.

Tremendous Sums of Money provided since the Struggle Began.

NEW YORK—America's contribution of nearly \$3,000,000,000 on the altar of war pales into insignificance when it is placed against the staggering amounts raised by the other belligerent nations.

Revised figures show that, exclusive of the American loan, the nations at war have raised—and virtually expended—a total of \$66,521,400,000.

The amounts are as follows:

Great Britain	\$21,021,400,000
France	12,140,000,000
Russia	8,535,000,000
Italy	2,845,000,000
Belgium	100,000,000
Japan	25,000,000
Serbia	18,000,000
Germany	14,228,000,000
Austria-Hungary	7,610,000,000
Total	\$66,521,400,000

GREAT COAL SHORTAGE IN ALBERTA.

REGINA, Sask.—That it will be impossible to secure a sufficient supply of coal to meet the requirements of the province during the coming winter, even if all the Alberta coal mines are to resume operations at once, and that citizens should use wood in the early fall months and at all other times when weather conditions permit, are the outstanding facts contained in the report issued by Thomas M. Molloy, secretary of the government bureau of labor.

PRICES OF PRODUCE AND FRUIT IN HALIFAX.

HALIFAX—The produce and commission men are making preparations for the first shipments of native strawberries which, if the weather holds sunny and warm, will commence next week. The reports from the valley are to the effect that all that is needed for an abundant crop, is plenty of sunshine. A few American berries keep coming in, but the dealers do not have much satisfaction in handling them. They go to waste very rapidly and are by no means a source of profit.

California peaches and plums have appeared during the week, but at prices only suitable for the purses of those who can afford the luxuries. There are a few new American vegetables also in the market, but the prices are high and unsteady. New potatoes from the warmer climates are also about due and may have an effect on the old native stock.

The dealers are at sixes and sevens regarding potatoes. They are not able to procure stocks at prices which will enable them to quote in a jobbing way anything below \$3.25 per 90 pound bag. Some of the dealers express the opinion that there will be a further big decline in price, while others say they will not be surprised to see the price get back to \$4.00 a bag. In the meantime, the local consumption of potatoes continues above normal, but the visiting shipping makes a demand for a large quantity.

California oranges are coming up in price and are now offering at from \$5.25 to \$5.50 per case. Lemons are not very plentiful and are holding at \$6.00.

Old cabbage is pretty well cleared up off the market as well as carrots, turnips and beets. There are some new American cabbage coming in which are selling at \$5 the crate. There are about 75 pounds net to the case.

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told my husband if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

ISLANDER LOSES LEG IN ENGLISH HOSPITAL.

Mr. Joseph D. Arsenault, Central Bedouque, has received the following kind letters from England with reference to his son, who was wounded and is now in the hospital:—

Woodbank, Winchmore London, 21 England.

Sunday, June 3, 1917.
 Dear Mr. and Mrs. Arsenault,—I thought I would write personally and give you news of your son D. Arsenault, who is in the Edmonton Military Hospital.

I am the Canadian Red Cross visitor there and see him every week. So you will know, I often hear things and see exactly how he is. A fortnight ago he was very ill with the wound in his knee; it had been so painful and prevented him sleeping, which naturally made him very weak, with him sometime before he had an operation to insert tubes behind the knee and he was very pleased, I think, to have someone to take his thoughts off the idea, whilst waiting his turn, and I was only too pleased to be of use; he was a little better the following week, but still the wound was septic, and the poison was going to different parts of the body. He was very worried and in pain, and anxious to have the leg off. This, they did on the Friday. The morning after I had seen him and now this week only five days after, he is looking bonny and said he felt a different man; no pain at all to speak of and able to eat anything. I took him some cakes and some cream cheese. He was most anxious to have a razor, but could only let him have small quantities at first. He has plenty of magazines, books, and Canadian papers I take. So be sure I will look after him and see he does not want for anything. The Canadian Red Cross provide kit bag for those who need them and gave your boy one. It has a razor, soap, face flannel, writing paper and other little necessities, also cigarettes. He was pleased to have it. I told him I would write to you; he has several other Canadians in the hospital and one in the bed next to him. They have nice chats together, but do not come from the same town. Hoping you will receive this letter safely. I remain,

Yours Sincerely,

MRS. R. PAIGE,
 Edmonton Military Hos.,
 May 30, 1917

Dear Mrs. Arsenault,—Your boy Daniel has asked me to write to you. He arrived at this hospital in a very serious condition; every effort was made to save his leg, but to no avail. At last, it came to the point of his life being in danger and he himself asked the doctor to amputate his leg.

I am glad to be able to bet you that he is now doing well and he is on the road to recovery. He is a dear boy and we are all very fond of him. He is worrying about not hearing from you. Perhaps you will write at once to him at this address and put his name in the end of the letter. The most likely your letters have got lost in France, but as he is so anxious about it, you'll do doubt let him hear from you as soon as possible. He asks me to give you all his love.

Yours Sincerely,

R. H. COOPER,
 (Ward Sister.)

PROUD OF GENERAL CURRIE.

Canadian Gazette, London: After a decisive victory such as the Canadian Army Corps won at Vimy Ridge it was to be expected that its commander would receive some special mark of distinction or promotion. For just over a year Sir Julian Byng has commanded the corps in succession of Lieut.-General Alderson, and it is generally recognized that under him the Canadians have reached a high point of efficiency. Now that he leaves them to assume a higher command he carries with him a full measure of Canadian appreciation and the best of Canadian good wishes. Every Canadian fighting man is proud to know that he and his comrades won the approval of no capable a British soldier. General Byng has had under him a group of Canadian generals who have had much experience on the Western front, and have shown much skill in leadership. It is natural that upon one of them should devolve the command of the Canadian Corps. The Canadian general with the longest service on the Canadian front is now Major-General Currie, and his selection may be regarded with especial satisfaction. He and General Turner, now G. O. C., the Canadian Forces in this country and the late General Mercer were the first three Canadian Brigadiers in France, and the brigades all had their share in the bulldog tenacity and skill with which the Canadian Division helped to stop the German onrush in the second battle of Ypres in April, 1915.

A FUTURITY FOR HORSE BREEDERS

AVON, N. Y.—Members of the Genesee Valley Breeders' Association, of which Mrs. Herbert Wadsworth is the head are proud of the achievements of the district toward securing horses suitable for cavalry mounts, fine hunters, and saddlers. Under the plan formulated by the association mares acquired by donation or purchase were placed with farmers who were to use them for light work. The only obligation was that these mares were to be bred to sires provided by the Breeding Bureau of the Jockey Club. The Jockey Club bought some of these mares of good type and others were donated by hunting and racing men. There are more than 100 foals from these sources this Spring and those recently inspected by a representative of the Breeding Bureau were a splendid lot, with not a curly hock in the bunch. Members of the association predict that in the near future 200 head of the next type of half-breds and three-quarter breeds will be available in the valley annually.

THRILLING DUAL WAS FOUGHT IN THE AIR.

CANADIAN HEADQUARTERS IN FRANCE.

FRANCE—In an aerial duel at probably the greatest altitude at which aviators have fought—nearly four miles—a triplane today pursued an enemy two-seater Aviatik and worsted its crew. When the Aviatik spotted the triplane it sought safety by climbing upward. The triplane went after it. At a height of twenty thousand feet the pilot of the enemy machine either fell or jumped from it and disappeared at the moment of the first burst of fire from the gun of the pursuing airplane. The observer was then seen to get out upon the tail of the machine, but he lost his hold, and he, too, in a few moments, fell headlong to the earth. Finally, the machine was seen to turn its nose down and after falling nearly four miles crashed into the earth.

Try BEAVER FLOUR Both Ways

Make up a batch of Bread and Rolls with it. Then bake a Pie and Cake.

Notice the fine, even texture—the absence of holes—the delicate, nutlike flavor, of the Bread. Then consider the lightness and flakiness of the Pastry. You'll never go back to the coarse, almost tasteless western wheat flours, after once enjoying the flavor of the good things made with Beaver Flour. Order a sack today.

DEALERS—write us for prices on Feed, Coarse Grains and Cereals.

THE T. H. TAYLOR CO. LIMITED, CHATHAM, Ont.

and harness horse families of America.

They hold the attention of the leading enthusiasts of the country, and are the essence of the entire breeding industry. The suggested event could be open to all foals by Breeding Bureau sires, with a nominal entry fee or none at all.

Save the Food and Serve the Empire!

The Average Canadian Family Wastes Enough to Feed a Soldier

"The Kitchen must help as well as the Workshop and the Trenches" Lloyd George.

INTELLIGENT economy in the kitchen can do much to prevent the threatened world famine—can counteract the effect of high prices—and can replace growing debt with systematic saving.

Careful investigations show that before the war the average British family wasted 25% of their food—and we Canadians were even more extravagant.

This waste is not in a few big things, but in many little ones, each, we used to think, too small to bother about—such as careless peeling of vegetables and fruit—failure to make good use of dripping and "left-overs"—and such others as will occur to every thrifty housekeeper.

For the Empire's sake as well as your own, hunt up and cut out these leaks! You'll be helping to relieve the food shortage—saving your own money—and putting yourself in a position to buy Canadian War Savings Certificates and help win the war.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post-Offices and Banks, thus yielding over 5% interest. Should you need it, you can get your money back at any time.

The National Service Board of Canada, OTTAWA.
