Object Of The Company

The Oriental Silver-Black and Patch Fox Company, Limited, has been formed for the purpose of purchasing, breeding, raising, and disposing of silver-black and patch foxes and all kinds of fur-bearing animals.

Prospectus of The Oriental Silver Black and Patch Fox Company Limited

The Foxes

The Company have now three pair in their ranch.

No. 1 is a pair of Island silver blacks.

Nos. 2 and 3 are two pair of Newfoundland silver patches of the very best quality, raised in our ranch in Newfoundland last year.

It is a well-known fact that the Newfoundland fox is the very best fox obtainable. This fact can be readily proven, as the oldest and most successful of Our Island fox ranchers have for years past, and do so yet, mate their Island best stock with the Newfoundland fox in order to get stronger, healthier and more vigorous stock in their ranches, and also better quality of fur.

Capitalization

The Company have these three pairs in their ranch, capitalized at $24000.00 (twenty-four thousand dollars). Of the twenty-four thousand dollars, fourteen thousand is paid up, and the balance (ten thousand) is for sale in one thousand shares of ten dollars each.

Upkeep

Until September 20th, 1914, the ranch-owners will maintain the running of the entire ranch without any charge to the Company.

The Possibilities

It is a well-known fact that fortunes have been made in a short time in the Prince Edward Island fox business and this opportunity has been by no means exhausted Fox-ranching is no longer an experiment but an accomplished science and one of the most profitable investment in the world today.

Estimated Results

If these three pairs produce, at the lowest estimate, three pups each on or about April 1st, 1914, and these sell at the low average of $2500 (remember one pair is silver-black), this would net the Company $22,500 or in other words would return a profit of almost 100 p. c. on the money invested, in eight months. Consider this, almost as soon as your money is invested the pups will be born Is this not far superior to investing in a pair of 1914 pups out of which you will get no returns until 1915? This fact is worth considering before investing. The Company guarantee 20 p. c. payable Oct. 1, 1914, which is equal to 40 p. c. a year.

Ranch Manager

Mr. G.H. Walker has had three year's experience in raising foxes, and is a most competent man in every respect. He also has an interest in the ranch.

The Ranch

The ranch is only a short distance from St. Peter's Station (about five minutes walk) and within fifty yards of the keeper's House, and is a most ideal place to raise foxes.
