Kensington and Vicinity

Not progressing favourably in her illness Mrs. George Webster has entered the Prince County Hospital for treatment, her many friends join in wishing her a speedy recovery.

Mr. Merril Craswell of Charlottetown, was in Kensington on Wednesday on business.

Mr. Ian Darrach is visiting in Charlottetown.

Mr. Wm. Brown of Charlottetown was in Kensington on Wednesday.

Mr. Harry Lapthorne of Charlottetown was a visitor to Kensington on Wednesday.

Mrs. Archibald O'Hanley of St. Peters Bay, P. E. I., enjoyed a pleasant weekend in Kensington the guest of Mr. and Mrs. Peter Power.

Mr. Blois Andrews of Charlottetown paid Kensington a visit on Wednesday on business.

The match race which was to be held in Clermont on Wednesday afternoon was cancelled until a later date, due to heavy conditions of ice after the recent snow storm.

A truant officer should be appointed here, was the remark your scribe heard, after one of our young business men had enquired from a young lad why he was not in school? The answer being, I don't know, and your scribe heartily agrees with this above young man, as several boys are to be seen around the town when they should be in school.

Although road conditions were not of the best a large number of our town hockey fans attended the game on Wednesday evening between the Victoria Unions, Intermediate champions of the Maritimes and the Kensington Hockey Club in their first game of home and home series, for the right to meet the winners of the eastern section of the Island.—H

Experience joined to common sense is a providence. — From Great Thoughts.

Bad Cold Developed Into Bronchitis

Many people have bronchitis and don't know it. Don't even know the danger of neglecting it.

Bronchitis is generally the result of a neglected cold caused by exposure to wet and inclement weather, and is a very dangerous inflammatory affection of the bronchial tubes.

Those troubled with bronchitis will find in Dr. Wood's Norway Pine Syrup a remedy that will help stimulate the bronchial tubes, subdue the inflammation, soothe the irritated parts and loosen the phlegm.

Mrs. R. P. MacDonald, Nappan, N.S., writes:—"Last winter I had a very bad cold which turned to bronchitis. I tried different kinds of medicine, but none did me any good.

A friend told me about Dr. Wood's Norway Pine Syrup, as she had used it for her children with great success. I purchased a bottle and before it was used I got great relief; the phlegm was brought up easily without any hard coughing, and after using three bottles I was completely relieved of the bronchitis."

Put up by The T. Milburn Co., Ltd.

—REXALL ASTHMA POWDER 50 cents at Taylor Drug Co., Kensington.

—TAKE ADVANTAGE of the good ice and take delivery of your supplies now at Brace's. L-394-3-3-2i.

—SURPRISE PARTY — A jolly party of young people invaded the newly appointed home of Mr. and Mrs. Ivan Darrach at Kensington, on an evening recently. Taken altogether by surprise, Mr. and Mrs. Darrach rose to the occasion and accorded a joyous welcome to their friends. The happy climax came when a presentation was made to the host and hostess of a lovely porcelain-like ivory enamel top kitchen table. Mr. Darrach, in his own inimitable style, suitably expressed appreciation and thanks in a neat speech. The remainder of the evening was pleasantly spent in playing bridge. At the conclusion, the ladies of the party served a dainty yet bountiful lunch. B

ST. MARY'S ACADEMY, SUMMERSIDE

The following is the standing of the pupils of St. Mary's Academy, Summerside, for the month of February.

Grade X.—1, Marjorie Kelly; 2, Gertrude Gallant; 3, Jean MacPhee.

Grade IX.—1, Lena Ranahan; 2, Rita Gallant; 3, Mary Cummiskey.

Grade VIII.—1, Alice Blanchard; 2, Marie Sonier; 3, Doris Gallant.

Grade VII.—1, Henrietta Coyle; 2, Doreen Gallant; 3, Florence Cormier.

Grade VI.—1, Patricia MacDonald; 2, Elma Landry; 3, Reta Bernard.

Grade V. (a)—1, Sheila Callaghan; 2, Louise Wedge; 3, Mary Teresa Arsenault.

Grade V. (b)—1, Eunice Clow; 2, Mary Anne Bernard; 3, Elizabeth Gillis.

Grade IV.—1, Joan Gillis, Barbara Silliphant; 2, Eleanore Campbell.

Grade III.—1, Florence Clow; 2, Olive Gaudet; 3, Frances Arsenault.

Grade II. (a)—1, Adeline Gallant; 2, Gladys Gallant; 3, Alice Gallant.

Grade II. (b)—1, Dorothy Arsenault; 2, Marjorie Rogers, Therese Pineau; 3, Elizabeth Beagan.

Grade I. (a)—1, Julia Sonier; 2, Frances Peters; 3, Mary Ella Gallant, Therese Arsenault.

Grade I. Girls—1, Teresa Arsenault; 2, Mary Florence Gallant; 3, Alma Arsenault.

Grade I. Boys—1, Russell Arsenault; 2, Louis Blanchard; 3, Kenneth Arsenault.

Music Department (over 9 %.)

1, Sheila Callaghan; 2, Pearle Stewart; 3, Ferne Bell; 4, Louise Wedge; 5, Jean MacPhee; 6, Henrietta Coyle; 7, Shelton Harris; 8, Diane Downing; 9, Alex MacInnis; 1, Ruth Kelly; 11, Barbara Silliphant; 12, Lorraine Gallant; 13, Mary Calibeck; 14, Helen McEwen; 15, Francis Arsenault; 16, Helen Muttart; 17, Florence Williams; 18, Zita Silliphant.

Junior Class—1, Joyce Chaisson; 2, Arthur McEwen; 3, Sally Schurman; 4, Rita Deighan; 5, Dorothy MacPhee.

Wishes To Pay For Stolen Ride

VANCOUVER, B. C., March 3—When a rod-rider wants to pay his fare, that's news. It was pleasant news to Canadian National Railways today when they received a request to name their price for a ride stolen on a freight train to the coast from a small Saskatchewan town last spring.

Neither was the railway ungrateful. In seeking to name the lowest fare they checked back to the date mentioned and discovered there was an excursion being operated from the Prairies to the coast at the time.

This being much lower than the regular fare the excursion rate was quoted. In their reply the railway expressed appreciation. The conscientious patron, who remains anonymous as far as the railroad is concerned evidently secured work in the lumber industry on Vancouver Island after his trip.

There is no bitterness like self-reproach.

INVESTMENT:

We now offer the public a limited quantity of shares of Treasury stock in our Company.

With present interest rates so uncertain, the opportunities we present should meet with general approval and response.

Many people are cognizant of the fact that the Oyster Industry is opening new avenues of revenue to them.

Do not hesitate to write us for prospectus and information.

SUMMERSIDE P.E.I.

Mrs. Wm. Muttart Passes Away At Summerside

Many friends throughout the province will learn with much regret of the rather sudden passing of Mrs. William Muttart who died at the home of her son, Mr. W.W. Muttart, Cambridge Street, Summerside, shortly after five o'clock yesterday morning. Mrs. Muttart had apparently been in her usual health on Wednesday and was out in the afternoon but was taken ill while down town. She gradually became weaker and passed peacefully away the following morning.

Mrs. Muttart was a native of Freetown and was 82 years of age. Her maiden name was Louisa Cook. She had resided in Summerside for many years and was most highly esteemed by all classes of citizens. She was most kind and charitable, and many will remember her for her kindly actions and help to those in need. Mrs. Muttart was a member of the United Church and a life member of the W.M.S. and all her life had been devoted to the work of the Master whom she strove to serve. She was also a member of the W. C.T.U. and an ardent worker for temperance.

Mrs. Muttart was an honorary member of Edith Cavell Lodge L. O.B.A., Summerside. She was also an honorary member of the Orange Lodge of British North America and also of the L.O.B.A. of Prince Edward Island. In her passing the Lodge has lost a valued member.

Mrs. Muttart leaves to mourn one son, Mr. W. W. Muttart; three grandchildren to whom she was devoted, namely, Glenda, Mrs. Norman Prichard, Miss Winnifred Muttart and Read, all of Summerside; also three sisters, Minnie in Wakefield, Mass.; Emma and Theodosia, in Chelsea, Mass.; and one brother, Mr. Seacord Cook, on the Island. Her husband predeceased her five years ago.

The funeral will be held on Saturday with a short service at the house followed by a service in Trinity United Church at 1.30 p.m.

Burma

Flying Boat's Mishap

How the loss of a propeller in mid-air caused an R.A.F. flying-boat to make a forced landing in the Bay of Bengal, 50 miles from the nearest port of call, was related to a Press correspondent by Commander G. L. H. Dean, Captain of the 5,285-ton S.S. Jalagopal of the Scindia Steam Navigation Co.

The mishap overtook the fifti. flying boat of the squadron that left Calcutta recently for Akyab en route to Australia, to participate in the 150th anniversary celebrations of New South Wales.

Commander Dean said: "When the Jalagopal left Andrew Bay on December 15 at noon for Rangoon, a distress message was received stating that an R A. Flying boat had made a forced landing in the Bay of Bengal, 50 miles south-west of Akyab, and required immediate assistance. I immediately altered the course of the ship and proceeded at full speed towards that position.

"We arrived alongside the flying boat at 5 p. m. and found her in a badly damaged condition. One propeller was missing, the other propeller was smashed and both the engines had broken down. The structure of the machine was also damaged. Apparently one propeller came off in mid-air, struck the other propeller and broke it; a piece also went through the other engine and a wing petrol tank. The remainder of the broken propeller remained embedded in the starboard float.

"The sea was a bit rough and the boat, which was in an uncomfortable position, was drifting rapidly of the shore. We lowered a life boat in charge of the Chief Officer, who took a line to the flying boat, and then we towed her at slow speed to Akyab. The crew of the flying boat remained on the aircraft and must have spent an anxious night. We were relieved to reach Akyab at 7 a. m. on December 16."

"Poaching" in Burmese Waters

Tighter control over poaching in Burmese waters by foreign fishing craft, particularly Japanese, is indicated in a notification issued by the Burma Government.

This says that the Governor of Burma has appointed the Commanding Officers of H.M.S. Norfolk and Emerald to be ex-officio fishery officers under the Burma Fisheries Act, 1905, in respect of the fisheries along the sea coast of Burma.

Tragedy at Sea

Four men dead on a derelict—such was the grim discovery made by a steamer in the Bay of Bengal. On the arrival of S.S. Ethiopia at Madras she reported that at latitude 13 N longitude 81.E she had sighted a country boat of the Burmese type, riding well out of the water, with its mast, which had been blown off, floating alongside.

Seeing no sign of life in the boat, the Ethiopia made closer investigations. Four bodies were discovered on the vessel. It is surmised that the was blown off the Arakan coast during a cyclone six weeks ago, and that the men on board, unable to regain land, died of starvation and thirst.

Report on Empire Study, by Miss Gladys Holman.

Madame Regent and Members: The Committee on Empire Study tried again this year to strengthen the ties of Empire by turning its study on India.

In April, Mrs. Sonneman gave a survey of India's history from the beginning, almost lost in antiquity, to the entity that is the India of today (This was based on lady Hartog's book "India" some copies of which are owned by members, and one copy available to the public, is in the town Library).

At the November meeting Miss Agnes Ramsay gave the members a geographic lesson on the land structure of India, it's famous rivers, its teeming cities its industries and the labor of its masses. She spoke of the great variety of languages and religions from which have arisen many grave problems.

The second part of Miss Ramsay's talk was a summing up of the new Constitution of India (much discussion followed). At the postponed December meeting Miss Estelle Bowness gave a review of events that led to Britain's foothold in India and spoke of the powerful effect that British Administration had on the whole future of India.

In January at the regular meeting Mrs. J. S. Perry spoke on the Religion of India pointing out the characteristics of the various living religions and referring to the high moral tone and spirituality of Indian thought as shown in the large number of religious books.

The Committee was also pleased to have Miss Georgie McLean Principal of Summerside Academy speak on her English trip —a scholarship won by her through the Carnegie Foundation. She referred especially to the Victoria League of London affiliated with the I. O. D. E. through whose services she met eminent men and women in educational work. This added to the charm and benefit of her British experiences.

Your committee hopes to continue its program of Empire Study as part of the educational scheme of the order.

Respectfully Submitted
GLADYS HOLMAN

Convenor Empire Study.

Report of Milk Committee, by Mrs. Arthur Allen.

This year as in the past five years, the Abegweit Chapter is supplying 1-2 pint of milk every day to 100 under nourished, and under privileged school children. — Again the sincere thanks of the Chapter are due to all those who so willingly cooperate in this work namely, Miss Ross who weighed and examined the children and made careful inquiries as to their means, the teachers who painstakingly handle the milk at the school, Mr. Barlow the efficient vendor, who not only supplies the milk at a reduced rate, but also supplies the straws with which to drink it, and lastly the citizens who contributed money for this work.

The Chapter also voted for the supply of 1 quart of milk daily for six months to a young citizen suffering from Tuberculosis.

The daily delivery of milk to the school enables other pupils to buy it if necessary. The number availing themselves of this opportunity, varies. At present fifty children are procuring it there.

Respectfully Submitted
LOUISE ALLEN

Convenor Milk Committee.

Secretary's Report by Mrs. J. S. Perry.

Eight meetings were held during the year, with an average attendance of eighteen. Four new members joined the Chapter giving a paid up membership of fifty four.

As a patriotic Society we celebrated the Coronation of Their Majesties King George VI and his Consort Queen Elizabeth with a tea at the home of the Regent, Miss Hunt.

The Chapter contributed to the Red Cross Fund for the war stricken people of China. The Chapter also assisted with funds for the Dental Clinic. 100 children are taking milk at the school supplied by the Chapter.

A T. B. patient, a young man resident of Summerside is being helped by the Society many of the members instructing him in his studies as he is unable to attend school.

Five dollars was given for prizes for the Ada MacLeod Memorial for the essay contest in the High School. John Williams won the prize for Grade X. And Ada MacLeod for Grade nine. Subject was "transporation in P. E. I."

Twenty-five flag placards with directions as to how the flag should be used were distributed to the school classrooms and Girl Guides and Boy Scouts.

Good names are gained by exemplary deeds.

Counsel and wisdom achieve more than sense.

Indians Successfully Operate Coal Mine

OTTAWA, March 3 — Efforts of the Department of Mines and Resources to advance the Indians of Canada to a position of independence and self-support have been rewarded by the successful establishment of a coal mine on the Blackfoot reserve about 22 miles from Gleichen in southern Alberta.

Operations at the Reserve Mine began in 1931 and by October of that year the demand for coal, which is sold at the mine head, was so great that it was necessary to establish an office and commence the erection of houses and other buildings for the workers. The only white man employed is a qualified miner who supervises the mine operations. Under his direction some fifty Indian miners are employed and they are paid $1.50 per ton for all coal mined and delivered to the mine head. A very capable Indian is in the office in charge of the books, weighing and selling coal, and other routine business. Sanitary men, the dairyman, drivers, engineers, tipple men and slack haulers are all Indians and they are paid at the rate of 30 cents per hour. The mine is self-supporting and provides an average payroll of about $500 per week. Production in the last fiscal year amounted to 10,000 tons of coal, and after five years' operation the debts classed as bad on the books would not total $50.

The Reserve Mine provides steady employment and is run on a co-operative basis. A representative body of Indian miners and members of the Blackfoot band council meet with the Indian Agent, stationed at Gleichen, when agreements are made as to prices, wages and general development. The mine owns between 30 and 40 houses; a wash house provided with showers and wash tubs with hot water service; a dairy which provides milk from tested cattle at low cost; a barn for the mine ponies and cows; a blacksmith shop, and a dressing station and drug dispensary. An Indian woman runs a restaurant, which caters not only to the single Indian miners but also to a discriminating white clientele. A large tent with a floor for dancing provides the entertainment centre, while the sporitual needs of this happy Indian Village are cared for by two churches.

Crested Wheat Grass Valuable Forage Crop

The superiority of crested wheat grass as a perennial forage crop in the dried areas of Western Canada has been amply demonstrated during the past decade. It fulfills a long recognized need for a perennial grass that will persist and produce feed under dry-land conditions. Experience has shown also that this grass is of value in somewhat more moist areas state Dr. T. M. Stevenson, Dominion Forage Crops Laboratory, University of Saskatchewan. The fact that it is ready to be pastured from ten to twenty days earlier in the spring of the year than the native or other cultivated perennial grasses makes it of great value as a pasture crop, even in the more humid areas.

In addition to being the most drought resistant of Canadian cultivated perennial grasses, crested wheat grass is extremely hardy and has never shown any tendency to winter kill, even under the most severe conditions. It is a long-lived perennial grass but does not produce creeping roots and may be eradicated without difficulty when desired. As a pasture plant it withstands tramping and grazing well and produces abundant pasture in the early spring and late fall when other crops produce little. As a soil-binding grass it is unequalled by any other cultivated crop in Canada. As a hay crop it has consistently outyielded other cultivated perennial grasses under dry land conditions and the hay is palatable and nutritious. Even the straw from the threshed seed crop is eaten readily, and excellent results have been reported from its use as a feed.

Because of the superiority of this grass in dry land agriculture, it is desirable that the acreage devoted to its production be increased as rapidly as possible. Up to the present, production has not increased sufficiently to keep pace with the demand, and while on the one hand the high prices obtained for seed have tended to benefit the seed producer, they have without doubt on the other hand tended to restrict the use of crested wheat grass for hay and pasture purposes.

Due to these conditions, growers who wish to lay down an acreage of crested wheat grass for hay and pasture would be well advised, first to establish a seed plot which would yield at least enough seed for their own needs. A seed plot of several acres in area may be sown at a relatively small cost, since only three pounds of seed are required to sow one acre in rows spaced 3 or 3 1-2 feet apart, which is the recommended practice for seed production.

The production of crested wheat grass seed does not necessitate the purchase of special equipment, nor does it present any special difficulties. To be successful with spring seedings, it is necessary that the seed be sown early and shallow into a firm soil where there is no danger of soil drifting. Early seeding is essential in order to take advantage of the cool temperatures and favorable moisture conditions, both of which favour quick germination and rapid growth. Best results may be expected from seedings made just as early as the land can be worked in the spring of the year. Although crested wheat grass is exceptionally drought resistant, after the plants have developed strong root systems, the young shallow rooted seedlings readily succumb to drought. Hence the necessity of seeding the crop early so that the plants may become well established before the hot dry summer weather sets in.

Shallow seeding is equally important. The seeds should not be covered by more than one-half inch of soil.

For further details regarding the production of crested wheat grass for seed, hay or pasture, write to the Dominion Forage Crops Laboratory, University of Saskatchewan, Saskatoon, or to the nearest Dominion Experimental Station. Two publications "Seeding - Crested Wheat Grass for Hay and Pasture" and "Crested Wheat Grass" may be obtained free on request from the Publicity and Extension Branch, Dominion Department of Agriculture, Ottawa.

In nine breeding station districts in Canada, saddle and hunter horses, and horses for police, remount, and light delivery purposes, are being produced in considerable numbers. This type of horse is in keen demand in Canada and in the United States, and there is little likelihood of any decline in popularity. Horse breeding clubs among Canadian farmers increased from 125 in 1933 to 254 in 1937, while the number of purebred stallions qualifying for approval in 1937 showed an increase of 21 per cent over 1936.

COULDN'T EAT COULDN'T SLEEP

Now Free of Bad Liver and Kidney Trouble and Feeling Fine

Here's another woman who felt terrible until she found how to get back appetite, sleep soundly, and secure new health. Mrs. A. H., Montreal, writes, "I had years of liver complaint and dizzy headaches — bowels irregular, crippled with kidney trouble too —no appetite—no sleep. Many laxatives gave me cramps. I tried Fruit-a-tives and my health greatly improved." These famous fruit juice, herb, and tonic tablets cleanse and strengthen the liver, help stomach, kidneys, intestines. Troubles go. Health must improve. 25c. and 50c. All druggists.

FISH PLENTIFUL

SAINT JOHN, N.B. March 2 — (CP)—Exceptionally good catches of graspereau and cod are being made in this district by fishermen. About 10,000 gaspereau was taken in one day by nets through ice of the Kennebecasis River. Cod are are plentiful in the Bay of Fundy.

FROZEN LOON

KENTVILLE, N S —(CP) — One of the most unusual specimens of the handiwork of nature is on display here. It is a preserved specimen of a loon frozen in a block of ice that was found in Lake George near here. Apparently the bird had become caught in the ice and as more ice formed, it was frozen solid.

Hockey

UNIONS SWAMP KENSINGTON CLUB 13 TO 8

In Kensington rink on Wednesday evening a large number of hockey fans who braved the elements to see the initial game between the Victoria Unions and the Kensington Hockey Club in their home and home series were treated to nothing more than a farce, as far as hockey is concerned, and I am willing to wager, that not a single one of the number would go as far as their own back yard, to witness such an exhibition of hockey again. The initial and second period, although the spectators could easily see that the Unions were in a class by themselves and could score almost at will, were nevertheless quite satisfied with what they were seeing, but after, we might say giving the Kensington boys a present of two goals after the opening of the period the Unions snapped in five in exactly five minutes then half of their team left the ice and what remained did not even try to play and this along with the Kensington club following their example of not even trying, certainly gave the fans who had paid their good money to see a hockey game a rotten deal, the least both teams could have done was to play the game regardless of the score and whether it would have been a lop-sided affair or not, the fans would at least figured they had got their money's worth.

LINEUPS

Unions: Goal, S. Lord; Defence, G. MacLeod, W. Farrar, C. MacQuarrie, R. Miller; Forwards, D. MacLeod, L. MacLeod, J. Knox, L. Taylor, H. Betts, J. Betts, Coach, Jos. Miller.

Kensington: Goal, B. Champion; Defence, R. Craig, R. Heckbert, G. Webster; Forwards, M. Waite, A. Bernard, J. Ready, H. Champion, R. Champion, W. Duggan; Coach, J. Burns.

SUMMARY

First Period

1—Unions, D. MacLeod (Knox) 2.05
2—Unions, Knox (D. MacLeod) 16.14
3—Unions, D. MacLeod (L. MacLeod) 18.52
Penalties: None.

Second Period

4—Unions, D. MacLeod (L. MacLeod) 3.00
5—Unions, Knox (L. MacLeod, D. MacLeod) 3.38
6—Unions, Knox (D. MacLeod) 5.00
7—Kensington, Ready (Waite) 14.28
8—Kensington H. Champion (Duggan) 17.30
Penalties: H. Champion.

Third Period

9—Kensington, Bernard (Ready) 3.25
10—Kensington, Bernard (Waite, Ready) 7.32
11—Unions, D. MacLeod (L. MacLeod) 8.18
12—Unions, Knox (L. MacLeod) 9.15
13—Unions, Knox 10.50
14—Unions, L. MacLeod (D. MacLeod, Knox) 11.35
15—Unions, Farrar.
16—Kensington, H. Champion (Waite) 15.27
17—Kensington, Waite (Ready) 15.40
18—Kensington, Bernard (H. Champion) 15.50
19—Unions, H. Betts 16.10
20—Unions, H Taylor 18.23
21—Kensington, Bernard (H. Champion) 18.31
Penalties: None.
Stops by Lord 37; by Champion 23.
Referee: Earl Arsenault.

NOTES

W. Duggan, shortly before the end of the second period was knocked out cold and had to be carried from the ice. He returned however, and finished the game none the worse.

S. Lord received a bad blow over the eye in a mix-up at his doorstep, but it sure did not hinder him from kicking them out.

For those who were wise enough to stay home by their fireside, I mention D. MacLeod, L. MacLeod and Knox, as the outstanding men on the ice, what they are doing playing hockey here is a mystery to yours truly.

Why those Unions are not in senior hockey is another mystery, for if they can't take either the Crystals or Abbies into camp I know quite a few that will eat their hats.

If all games were as easy to handle as this one was, what a glorious time the referees would have.

The only busy man in the rink and none too warm at that, was the time-keeper, if he hasn't got a sore throat now, after hollering out time of scores to yours truly and others, he sure is immune to that annoyance.—H

ENO'S "FRUIT SALT"

Junior Finals

CANCELLED

The game scheduled for tonight at Borden between the junior Abegweits and Borden juniors has been cancelled.

L-572.

Albany and Vicinity

The many friends of Mrs. Mark Dixon, North Tryon, will regret to learn of her serious illness.

Miss Mary Dawson of the Summerside Business College, spent the week-end at her home in Albany.

The many young people who are availing themselves of the use of the Tryon Open Air Skating Rink are deeply grateful to Mr. and Mrs. Stanley Carr for the use of their house in which to don their skates.

The Albany Study Groups which is being held weekly at the home of the members, under the leadership of Rev. Mr. Trites, is proving very interesting and a good attendance is reported. The last meeting at the home of Mr. and Mrs. W. A. MacKay concluded with a social hour in which a very pleasant program was enjoyed and a delicious lunch was served by the members. Next meeting to be held at the home of Mr. and Mrs. Max Legurgey.

The Pleasant Circle Women's Institute held its February meeting at the home of Mrs. Arthur MacKay. The president presided and meeting was opened by repeating the Creed in unison. Roll call was answered with a Valentine from each member to the secretary. Minutes of last meeting were read and approved. There was no correspondence. Sick and School committees gave reports and new committees were appointed Sick, Mrs. Emmet Crocken and Miss Helena Keough. program, Mrs. Ewen Cameron and Miss Beatrice Tierney. Next meeting to be held at the home of a shut-in member, if suitable. Roll call to be answered with something of Irish Wit and Humor. A lunch committee was appointed for the next meeting also. 14 KILLED IN CRASH

(A. P. by Guardian's Special Wire)

MEXICO CITY, March 3—Dispatches from El Mante, Tamaulipas state, said today that 14 persons were killed when a train crashed into a loaded bus and threw it into a canal.

Two cars of the train fell on the bus. Most of the victims were pinned under water and drowned. The train was loaded with sugar cane.

SEASON FAIR

DALHOUSIE, N. B., —(CP) — The smelt and cod fishing season on the Restigouche River ended this month and was considered only fair. The smelts were packed at Chatham and Newcastle, depriving Dalhousie workers of this employment for the first time.

WHEN YOU PASS THE TIME OF DAY WITH A FRIEND OR A GOOD NEIGHBOR

Good feeling and goodwill prevail as the tobacco passes around.

No other brand makes a more friendly impression than the Island's Favorite. 10c a Fig.
