Scout News and Notices

Announcement of the appointment of Leonard Johnson of Saint John as associate editor of The Scout Leader, official Boy Scout publication, with headquarters at Ottawa, has been made by Scout headquarters officials. Mr. Johnson will have special duties relating to the publication of new books. Mr. Johnson joins The Scout Leader's editorial staff with a background of many years in public service and in the service of the Boy Scout organization, in newspaper work, seven years as receiver of taxes for the City of Ottawa, and nearly five years in the Royal Canadian Navy from which he recently was released with the rank of lieutenant. Mr. Johnson was in the Cubing, Scouting, Rovering and Sea Rovering, as district secretary, as secretary of the New Brunswick district council, as district commissioner for Cubs, district commissioner for Rovers, and assistant provincial commissioner for Rovers. On behalf of Dominion headquarters he did field work in the province. He took part in the 1931-32 expedition to the Arctic, and in 1940 the Scout Medal of Merit for good service to the movement. In 1941 he was awarded the Scout Medal of Merit for his work as a reporter, staff photographer and feature writer of The Evening Times-Globe and Telegraph-Journal, and in making the most fruitful bilateral agreements—using the great bargaining power of our country to do so. But in the free-for-all to which we now are pledged our task will be immensely more difficult.

The Labor Party organ, the Daily Herald, concluded: "The agreement now has the authority of the British Parliament. We await that of Congress, eager to set about our future tasks as a nation and as a leader in world economic partnership."

The Conservative Daily Express published by Lord Beaverbrook, who recommended yesterday that the loan be "gratefully rejected," said that between now and the assembly of the world trade conference the British peoples must choose between "the Keynes way and the Beaverbrook way." "These the Express defined as 'the old methods of free trade' and 'tariffs—the indispensable instrument of imperial preference.'"

**CANADIAN COLLEGE NEWSPAPERS ON EXHIBITION**

**NO IMPROVEMENT IN PRINTERS' STRIKE**

WINNIPEG, Dec. 18 (CP)—Publishers of the Winnipeg Free Press and the Winnipeg Tribune said today that an effort to settle the working agreement dispute which has kept 120 printers idle since Nov. 8 has met with no response from union representatives.

The publishers said that V. E. Anderson, president of Local 191, International Typographical Union (A.F.L.), failed to reply to their offer suggesting a board of arbitration.

The publishers' letter to Mr. Anderson suggesting a board of arbitration set 6 p.m. Dec. 17, as the deadline for a reply, saying the offer could not be held open longer "since we must begin to make full-scale preparations for the resumption of publication of printed newspapers in Winnipeg."

The work stoppage involves arbitration procedure and a new working agreement, the printers refusing to submit their union laws to arbitration.

**Barred From United States**

NORFOLK, Va., Dec. 19 (AP)—Entrance to the United States was denied today by immigration officials to 16 Estonians who landed here Saturday after sailing from Stockholm on a ship that had been under European war and oppression.

None of the group, composed of seven men, five women and four small girls, possessed visas. The group has appealed the denial of the immigration officials and it is expected that it will be at least several weeks before the United States Attorney General, the final authority, reaches a decision. Meanwhile, immigration officials said, the Estonians will be paroled.

**Japanese Diet Concludes Session**

TOKYO, Dec. 18 (A.P.)—The Japanese diet, its members displaying lack of familiarity with parliamentary procedure, today ended an extraordinary 22-day session which should bring some improvement in the lives of millions of citizens.

Chief accomplishments of the session were an election reform bill which will increase approximately 22,000,000 young women and 3,000,000 young men, a labor union law, a farm reform measure and the repeal of several wartime laws.

Diet members handpicked to form a rubbering parliament failed to demonstrate either a marked interest in the people's welfare or an ability to utilize the newly-gained freedom of speech.

The session produced an unprecedented discussion on whether Emperor Hirohito shared in war guilt. The Diet voiced support for continuation of the Emperor system and agreed with Premier Kijuro Shidehara that Hirohito was not a war criminal.

**Expect Huge French Order For Ships**

VICTORIA, Dec. 20 (CP)—A huge order for ships, on which the Victoria Machinery Depot Co. Ltd. and two Vancouver firms will bid, will be placed in Canada by the French Government, R. W. Mayhew, Liberal member of Parliament for Victoria and Parliamentary Assistant to Finance Minister Daley, said today on his return from Ottawa.

Mr. Mayhew said the ships would be paid for through the Canadian Government's credit set up for the French Government, although the order was so large that it would probably cost more than the total sum available in Canada credited to the French Government.

Closing date for bidders for the contract has been set for Jan. 6, Mr. Mayhew said.

The order is being placed by the French mission which had headquarters in Montreal, he said.

## Washington Spotlight

BY CLUDE BLACKBURN Canadian Press Staff Writer

WASHINGTON, Dec. 21 (CP)—This week Washington has witnessed a series of events which a year ago few would have thought possible and no one would have thought likely.

The most unexpected incident was appearance of a Japanese submarine commander as witness for the prosecution in the court-martial of Capt. Charles B. McVay III, skipper of the cruiser Indianapolis when it was sunk

last July with loss of 883 lives. The dapper, astute little Jap was flown here from Tokyo, lodged in a swank hotel under officer guard and called, over loud defence and public protest, to tell how he sent his torpedoes into the Indianapolis between Guam and Leyte.

A few days later the Supreme Court hastily assembled in special meeting and granted a stay of execution of the death sentence passed upon Lt. Gen. Yamashita by a Manila Military Court.

Yamashita had appealed a special appeal to the Supreme Court after the death sentence had been passed for his responsibility for atrocities against American soldiers and Philippine civilians.

Perhaps the strangest of this series of events was the bawling out given a group of generals and

other "brass hats" by bald-headed, 37-year-old Private George L. Marks of Cleveland at a session of the House Military Affairs Committee.

Given immunity and freedom to speak his mind, the soldier looked out over the rows of brass and called them "Pentagon Boy Scouts, bemuddled four-flushers and aristo-cratic phonies."

He said the high officers wanted a big army "so they can retain their rank," and added, "these brass hats don't like work; if they did they wouldn't be in the army."

He was due for discharge next day and one of the generals privately said he would see the discharge went through on schedule. "We are not going to waste any time letting him out of the army," he said.

## British Press Discuss Trade Expansion

LONDON, Dec. 19 (Reuters)—Anxiety about United States cooperation in the projected expansion of world free trade predominated today in British editorials on the House of Lords endorsement of the Anglo-American loan agreement.

Commenting on the trading conditions of the agreement, the Independent Times, independent, said the decision "to revert by all possible means to the system of uncontrolled world trade which prevailed before the First Great War" is "being forced upon this and almost every other country by the pressure of American economic power and the desire to open markets to American goods."

Commenting on the "almost brutal realism" with which Lord Keynes described the American approach, the Liberal News Chronicle said: "we must face the fact that the future would be hard for us even if we succeeded in making the most fruitful bilateral agreements—using the great bargaining power of our country to do so. But in the free-for-all to which we now are pledged our task will be immensely more difficult."

The Labor Party organ, the Daily Herald, concluded: "The agreement now has the authority of the British Parliament. We await that of Congress, eager to set about our future tasks as a nation and as a leader in world economic partnership."

The Conservative Daily Express published by Lord Beaverbrook, who recommended yesterday that the loan be "gratefully rejected," said that between now and the assembly of the world trade conference the British peoples must choose between "the Keynes way and the Beaverbrook way."

These the Express defined as "the old methods of free trade" and "tariffs—the indispensable instrument of imperial preference."
