

To Keep It Luscious
When LANTIC Brown dries out, its choicest charm departs. In a stone jar, with a moist cloth under the lid, LANTIC Brown will stay fresh and luscious indefinitely.

Keep It Moist

Lantic Brown Sugar! Luscious!

Culture is the butter of the well bred. A match between two dentists would probably result in a draw. Don't forget that the wisest owl occasionally hoots at the wrong time. Don't marry a girl who thinks she might learn to love you. A little learning is a dangerous thing.

—AGED CITIZEN DEAD.—The death occurred this Friday morning at his home in St. Eleanors of Mr. Edwin Durley at the advanced age of 97 years. (There are left to mourn four daughters and six sons. The funeral took place on Sunday afternoon to the English church St. Eleanors. The Rev. Mr. White officiating.)

—ONE RULE FOR ALL.—In reference to the belief of some of our "outside" motorists that they are being picked out and fined for exceeding the speed limit of seven and a half miles and that the Summerside motorists can drive as fast as they wish without being fined. This little article is merely to inform those people that such is not the case for without respect to their rank or office Summerside citizens are being fined daily for exceeding the speed limit. The public of Summerside are only doing their duty as this is a provincial law and they mean to enforce it.

—COME TO THE ICE-CREAM social to be held at Centerville Bessie School grounds Wednesday evening, July 28. Summerside band in attendance. 1869-7-27-21

If You Enjoy Good Coffee DO THIS

Order some "SEAL BRAND" made from the choicest upland berries, grown in luxuriant tropic hills, full of spicy nourishment and stimulating fragrance—the beans cleaned, blended and roasted with rare skill.

SEAL BRAND

Then in making, allow a tablespoonful of coffee to each cup desired, pour boiling water on it, simmer five minutes, clear with a dash of cold water.

Your dealer sells "SEAL BRAND", whole, ground, and fine-ground, in 1/2, 1 and 2-lb. tins, hermetically sealed, so that the coffee reaches you rich in its original strength.

Holman's Reliance Hay Carrier

Freight Paid **\$11.95**

We know from actual experience that our Holman Reliance Carriers will work every time without fail so we stand back of them with our strong guarantee. They are made from the highest grade malleable iron, every part firmly bolted together and are braced right up to the track so cannot spread under severe conditions like others. The Reliance has an extra large and strong swivel, and standing on barn floor you can easily reverse carrier so as to load into opposite end of barn. Every wheel and pulley revolves on steel bushings, reducing friction, wear and working free at all times. The big flaring mouth takes pulley every time whether coming slow, fast or swinging it simply has to enter, the pulley passes well up into carrier, very close to track enabling filling barn to very top. When pulley comes into carrier the load or strain is shifted from pulley direct to heavy frame of carrier, which then conveys it along track until tripped at desired point and then returns quickly ready for another jar. The Reliance has a positive deadlock, no springs whatever; simply operates from own weight, never misses and holds with a bulldog grip. It is positively the highest grade and best carrier on the market and guaranteed to give lasting satisfaction.

Reliance Hay Carrier, for steel track. Price \$11.95

Reliance Hay Carrier, for wood track. Price \$11.95

HOLMAN'S

THE ISLAND'S BIGGEST, BEST AND BUSIEST STORE

SNATCH PULLEY BLOCK WITH SINGLE TREE

Snatch Pulley Block, saves time; after load locks in carrier the double purchase is used and the horse only travels half the distance, when fork is tripped the rope is thrown off snatch pulley and fork is returned to load without waiting for return of horse which saves time. Price \$1.00

HOISTING SINGLE TREE

Hoisting Single Tree, does not drag against horses' legs, and, being bent, fits to horse like a breeching. Traces do not have to be shortened as they fasten to hooks at centre, the eye to which rope is fastened is swivelled, great for hoisting hay, twitching, etc. Price \$2.08

Automatic Grapple Fork

\$18.95

Automatic Grapple Fork. When opened up it has a spread of 55 inches between tines, which is nearly one foot more than any other Grapple Fork. The tines and arms are of the best high carbon spring steel, nicely sharpened and polished. The locks are made of the best annealed malleable iron. When loaded it is discharged by means of a trip rope, the tines are allowed to drop down, made with six tines as cut. Width of head 19 inches. Weight 87 pounds. Price \$18.95

Double Harpoon Hay Fork

Fork, strong rigid construction, improved short head carries load higher, measures 25 inches from points to cross bar. Price \$2.95
