IMPORTANT READING MATTER SELECTED FROM THIS WEEK'S NEWS FOR THE GUARDIAN'S SATURDAY SUBSCRIBERS

MONDAY

Mrs. James Taylor, St. Peters Island, and little daughter Miss Mary and Miss McQuarrie, Matron of the Infirmary, Charlottetown, leave this afternoon to spend the week end with Wm. and Mrs. Docherty, Victoria Cross.

Gordon McMillan, son of Hugh McMillan, Cornwall, had a narrow escape from instant death on Tuesday last. Mr. McMillan was helping put the hay in the barn loft and was standing on a ladder, when a block, about twenty-five pounds in weight, fell from the barn loft striking him on the head and cutting him very severely about the head and face. He fell to the ground but did not loose consciousness. Dr. Murchison was hastily sent for and was with the injured man within half an hour. His friends, while regretting his sad accident which he will take quite a while to recover from, rejoice in his escape from death, as his popularity is such as to make his place in the home and community hard to fill.

Word was received in Charlottetown yesterday of the destruction by fire on Saturday evening of the Winsloe Cheese Factory with practically all its contents.

The fire started at about six o'clock Saturday evening and all efforts possible to prevent the destruction of the splendid factory were unavailing. The cause could not be ascertained last evening but it was learned that the last man in the building that afternoon had left everything in good order. When half a mile from the building he observed the flames and returned with all possible haste.

The exact extent of the damage is not known but with the building there was destroyed about $500 worth of manufactured cheese ready for the market.

There was $1000 insurance on the building said to be with the Charlottetown Mutual Fire Insurance Co.

The loss will be severely felt by the many patrons of the factory, which will be the more discouraging at this season of the year.

The coroner's inquest to investigate the death of a newly born infant found Saturday morning in the bedroom of a servant at the home of F. D. Berkeley, Westwood, met in the city police court room at 7.30 Saturday evening.

Coroner Dr. H. D. Johnson had empanelled the following jury in the morning at 11.00 o'clock: F. H. Horne, (Foreman), J. W. Young, P. I. McMahon, Ewen Campbell, Allan Boisner, Michael Hennessey, John Heartz.

After viewing the remains then lying in the police court the inquest was adjourned until 7.30 p. m. pending an autopsy.

The following witnesses were then examined: Mrs. Catherine Simpson, who found the body; John Simpson, who drove the girl home and notified the authorities; Dr. J. W. McMillan, who performed the autopsy and the girl herself who made a straightforward statement of the circumstances. After due deliberation the jury brought in the following verdict: That the infant came to its death as a result of a precipitated birth. While the mother was stooping over a chamber the child dropped into it and never breathed.

TUESDAY.

The horse races that took place yesterday afternoon at the new race course, at New Annan, proved interesting and were witnessed by a large gathering. Had the day been other than an ideal hay making one, the spacious grounds would not have accommodated the crowd.

James Pendergast, the Manager, is deserving of the highest praise for the steps taken to avoid rowdyism and for the splendid arrangement.

By special arrangement with the Council of the Town of Summerside, two policemen were on the grounds, dressed in their uniforms, and while the racing and other amusements were run off there was not a single exhibition of a "rough house" or intoxicants.

A feature of the gathering was the large number of ladies present.

The track is splendidly situated, overlooked the beautiful Richmond Bay, and considering its age, was in very good condition.

A wire fence was placed on both sides of the track near the finish, which aided the policemen in keeping the crowd in place. This plan should be adopted by track owners who have neglected to look after this important finish touch to a country race course.

2.35 CLASS

For this race there were three starters, viz—Cherry Ripe, Happy George, and Iona Girl. Iona won easily in three straight heats, Happy George, second and Cherry Ripe third.

Much interest was taken in this race as Cherry Ripe and Iona Girl are so evenly matched. It was regretted by everybody, that Cherry Ripe was not in his usual form and the finishes did not excite the spectators to fever heat.

In every heat Iona would hold third position until nearly the three quarter pole, when she would take the pole with ease and jog to the wire, too far in the lead to cause excitement.

GREEN RACE

As will be seen by the summary six horses faced the wire, and it took four heats to decide the money winners. The finishes proved close and excitement ran high. Park Medium proved himself the fastest and won first money, Minne Mac second, and Ruby Rexall third.

SUMMARY.

2.35 CLASS

Iona Girl, McKinnon Drug Co...	1	1	1
Happy George, S. Toombs...	2	3	2
Cherry Ripe, J. P. Irving.....	3	2	3

Best time—2.38.

PARIS, Aug. 8—The Neapolitan Camorra trial, in which the judge has just summed up at the end of 16 months, cannot claim record for its long duration. The longest case on record is French, and was concerned with certain seignorial rights, as to which the Comte de Nevers differed from the town of Donzy. The case began in 1210, and was not finally finished until 1848. In England litigation concerning land in Gloucestershire to which Lisles and the Berkeleys both laid claim holds the record with 120 years.

(Special to The Guardian.)

LONDON, Aug. 8—The annual toll of deaths from wasp-stings in this country has already opened, the first victim being a Bournemouth undergardener named Ernest Mills, who was stung upon the lip while at work in his employer's garden. Mills died in Boscombe Hospital from bronchial pneumonia following blood poisoning caused by the sting. At the inquest the jury returned a verdict in accordance with medical evidence.

The wasp plague, which promises to be severe this year as last, suggests that the old belief associating the size of the plum crop with the prevalence of these unwelcome insects has but little foundation. An abundance of plums is held by the rural folk to be a sure and certain sign of an abundance of wasps, and therefore, arguing on the same principle, one might suppose that in this present season of scarcity in the plum orchards we ought to be spared a plague of these annoying and mischievous creatures. In many places in our southern countries, where on the lighter soils the wasps have already made their appearance in full force, the hot weather of the past few days has, of course, brought into active being many thousands of embryo wasps, though it is full early yet for the plum crop, such as it is, to ripen.

The abundance of queen wasps in the spring was a forecaste of what we might expect this summer, notwithstanding the wholesale destruction of the fruit blossom by late frosts. But so far the wasps have only appeared in any great strength in those parts of the country which have been the least affected by the rains of June and the early part of of the present month. In the sandy and gravelly districts of Hampshire and Surrey, for instance, where in summer even heavy rains hardly do more than damp the surface of the soil, the wasps have already become a veritable plague.

(Special to The Guardian.)

PARIS, Aug. 8—France consumes more absinthe than all the rest of Europe together. Worse still, she is consuming more every year. The year 1911 saw an enormous and quite unprecedented leap of over 1,000,000 gallons. A commission appointed to study its effects entirely confirmed the indictment of the National League against Alcoholism that "absinthe is the source of madness and crime; it causes epilepsy and consumption; it makes the husband a brute, the wife a martyr, and the child a degenerate.

All the same, there are difficulties in the way of the suppression of the trade in absinthe. The manufacturers are a powerful corporation, and the State receives from the sale of this drink $10,000,000 a year and the communes a little less than $5,000,000. In the words of M. Caillaux, "a wave from the depths," is to be feared if all the absinthe drinkers of France—chiefly recruited from the lower classes—are to be deprived of their favorite liquor. For these reasons the Government has abandoned the idea of a complete interdiction of the sale of absinthe. It has been discovered that the principal poison in absinthe is a vegetable substance, thyion, so the suggestion is that distillers should have the right to produce a liquid and label it absinthe, if need be, so long as it be free of this pernicious ingredient. Further, no plant containing thyion shall henceforward be used in French distilleries, and of these plants absinthe or wormwood is the chief. From now on, then, it looks as if we should have an absinthe which is not absinthe. Whether it will be any less pernicious is at least doubtful. The absinthe manufacturers profess themselves entirely satisfied with this compromise, a fact in itself suspicious.

(Special to The Guardian.)

DUBLIN, Aug. 8—This is an age of organized social reform, and there was never a time when women were doing more valuable work for the community. The Women's National Health Association of Ireland may be described as a social welfare army with her Excellency the Countess of Aberdeen in command. Detachments are stationed all over the country. One hundred and fifty branches or battalions are engaged in attacking disease, poverty, misery, and dirt. Twenty thousand women are enrolled under the banner of health and hope, and it would be difficult to estimate the value to Ireland of these women's work.

Ireland, half a dozen years ago, was virgin soil in the sense that there was no definite philanthropic organization for tackling the problems of tuberculosis, infant mortality, and public health. Any remedies were merely palliative. Preventive work had not been started. The infant mortality and tuberculosis deathrates were appalling.

So Lady Aberdeen started babies' clubs, and a pasteurized milk depot for supplying pure milk in Dublin. In the poorest quarters of the city, places were rented by the association to be used as "clubs." Voluntary helpers and trained nurses were obtained, and the good offices of the doctors were enlisted. Thus the preventive work for infant mortality was organized on a professional basis. The association begins with the babies and the mothers in its health campaign, and rightly, too. By the education of motherhood and the protection of infancy this problem can best be solved.

But its energies are extended in all directions. Just lately the Children's Playgrounds scheme has come into being. Derelict spaces in the sunniest parts of the city are being transformed into garden playgrounds for the babies and the children with astounding success. St. Monica's Playground was opened a little while ago by the Lord Lieutenant of Ireland, and the children of that neighborhood have come to regard Lady Aberdeen as a personal friend.

The next move is to be the formation of a Boys' Camp on the site of Ormond Market at present a scene of mouldering walls, falling masonry, crooked lamp-posts, huge heaps of stones, tin cans and refuse of all kinds. Lady Aberdeen has secured it at a nominal rent. It is to be entirely cleared and made into a camp, where destitute boys from crowded homes will live and sleep, going by day to their work or their schools and returning in the evening to a veritable Boy Scouts' Paradise. The effect of a multiplication of such camps upon the questions of juvenile crime, hooliganism, and delinquency is surely self-evident.

(Special to The Guardian.)

PARIS, Aug. 8—A radium palace is being built at Paris, and will be formally opened by the Minister of Public Instruction in October of next year.

The palace will cost $80,000 to build, and will consist of three small pavilions joined together.

One will be a radium laboratory in which Mme. Curie will experiment. Another will be long to the Pasteur Institute for experimental purposes; while the third, which is to be between the other two, is being built as a great safe, with walls of lead, and every possible precaution against burglary.

In this pavilion there will never be less than several hundreds of thousands of pounds' worth of radium stored, and there may often be much more.

(Canadian Press.)

TORONTO, Aug. 8—The Police Commission investigation concerning the actions of Police Inspector Walter Duncan, in connection with matters arising out of the failure of the Farmers' Bank, will preceed the resumption of sittings of Sir. William Merrith and before investigation by the Attorney General of serious allegations against him.

Neave's Food

FOR INFANTS

Is The RIGHT Food For YOUR Baby

The strongest argument for your using NEAVE'S FOOD *for your baby*, is that 80 years experience has proved its value for the youngest and most delicate infant.

NEAVE'S FOOD contains all the essentials for flesh and blood forming, in an exceptional degree—assists teething—relieves constipation—and makes baby thrive.

Sold in 1 lb. air-tight tins by all Druggists in Canada.

Free to Mothers—Write today for free tin of Neave's Food and book "Hints About Baby", to the Canadian Agent—EDWIN UTLEY, 14 Front Street East, - TORONTO. (*Mention this paper.*) 38A

$3.50 Recipe Free For Weak Men.

Send Name and Address To day—You Can Have it Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and vitality, quickly and quietly should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor ever put together.

I think I owe it to my fellow man to send them a copy in confidence so that any man anywhere that is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, STOP-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 3647, Luke Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge $5.00 to $10.00 for merely writing out a prescription like this—but I send it entirely free.

They keep the whole system in the pink of condition.

Their singular curative properties discovered by an Indian tribe—introduced to civilization nearly a century ago—compounded since 1857 in the Comstock Laboratories at Brockville, Ontario.

Dr. Morse's Indian Root Pills

have a remarkable record for consistently curing constipation, biliousness and indigestion, purifying the blood, banishing headaches and clearing the skin. 25c. a box everywhere. 28

Pains Have Vanished

Neuralgia Completely Cured.

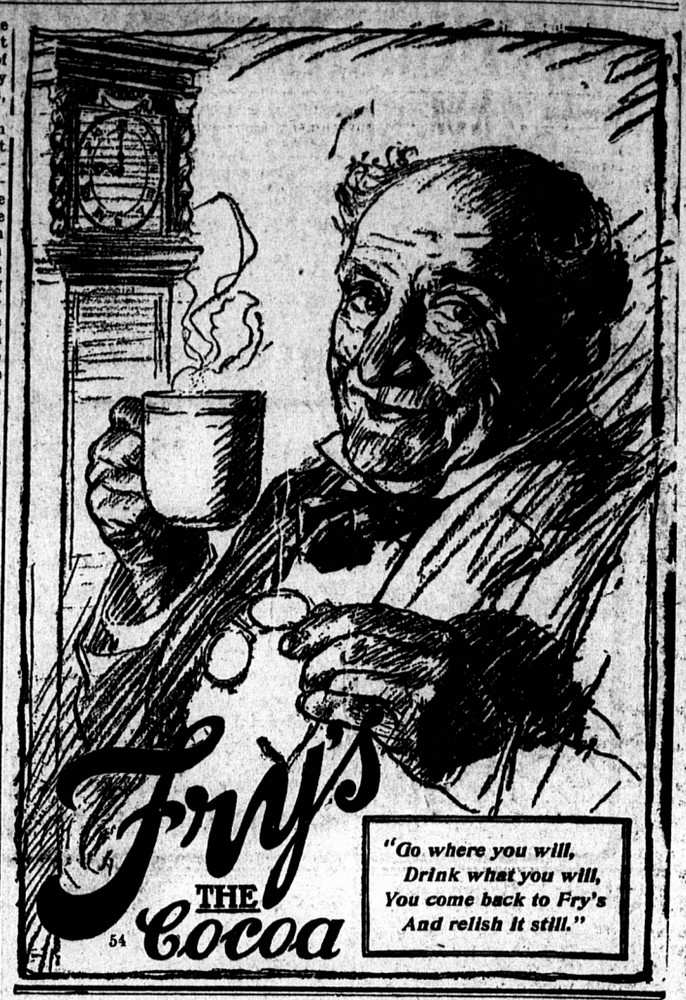
The cure of Mrs. H. L. Barrett, Guthrie, P. Q., is another victory by Hood's Sarsaparilla. This great medicine has succeeded in many cases where others have utterly failed. Mrs. Barrett says: "I suffered intensely from neuralgia in the head, face and shoulders. I had used various medicines without relief. I heard of Hood's Sarsaparilla and decided to try it, and I bless the day I did. I took it several months and now feel well. All my pains have vanished."

Get Hood's Sarsaparilla today. Sold by all druggists everywhere.

Old Dutch Cleanser

will clean Pots & Pans *Perfectly*

Do away with the old-fashioned, arm-tiring method of scraping. Old Dutch Cleanser saves you both labor and time. The fine particles will immediately loosen and remove the grease and the hardest "burnt-in" crusts which soap, soap powder and scouring brick only imperfectly wear off after long, hard scraping. An "all-round" cleanser for every part of the "neat-as-a-pin" house. Strictly hygienic.



GUARDIAN CLASSIFIED ADS

One cent per word first insertion in this column, half cent per word for each continuation. Cash must accompany order and five per cent discount allowed. Minimum charge Twenty-five cents.

Coughs, Colds, Croup and Whooping Cough.

This remedy is famous for its cures over a large part of the civilized world. It can always be depended upon. It contains no opium or other harmful drug and may be given as confidently to a baby as to an adult

Price 25 cts: Large Size, 50 cts.

SLEEP

Did you, sleepless one, ever try a dish of GRAPE NUTS and CREAM Just before bed?

Sure you never did or you wouldn't train with the "sleepless squad."

It's a Bad Practice to load up the stomach with a promiscuous variety of rich, indigestible food at night because it "tastes" good.

Strength without Bulk is a requirement of an ideal food for the last bite before going to bed. The food that is concentrated so that a sufficient amount for all purposes will not distend the stomach; the food that is practically predigested so that organs can, without undue effort, absorb it wholly; the food that contains the tissue repairing and energy-making elements from clean field grains—that contain the phosphate of potash which combines, by vital process, with Albium to repair the gray matter in brain and nerve centres - that's

Grape-Nuts

Try a Dish....about four heaping teaspoonfuls with cream and a little sugar if desired, eaten slowly before retiring, if you're hungry, and note how well you sleep and how fresh you feel in the morning.

"There's a Reason"

Made by Canadian Postum Co., Ltd., Pure Food Factories, Windsor, Ont.

GOOD NIGHT'S SLEEP.

No Medicine so Beneficial to Brain and Nerves.

Lying awake nights makes it hard to keep awake and do things in day time. To take "tonics and stimulants" under such circumstances is like setting the house on fire to see if you can put it out.

The right kind of food promotes refreshing sleep at night and a wide awake individual during the day.

A lady changed from her old way of eating, to Grape-Nuts, and says:

"For about three years I had been a great sufferer from indigestion. After trying several kinds of medicine, the doctor would ask me to drop off potatoes, then meat, and so on, but in a few days that craving, gnawing feeling would start up, and I would vomit everything I ate and drank.

"When I started on Grape-Nuts, vomiting stopped, and the bloating feeling which was so distressing disappeared entirely.

"My mother was very much bothered with diarrhea before commencing the Grape-Nuts, because her stomach was so weak she could not digest her food. Since using Grape-Nuts she is well, and says she don't think she could live without it.

"It is a great brain restorer and nerve builder, for I can sleep as sound and undisturbed after a supper of Grape-Nuts as in the old days when I could not realize what they meant by a "bad stomach." There is no medicine so beneficial to nerves and brain as a good night's sleep, such as you enjoy after eating Grape-Nuts."

Name given by Canadian Postum Co., Windsor, Ont.
