Japs And Chinese Resume Fighting

Many Killed And Wounded In Battle For Bridge—Further Clashes In Prospect.

(Canadian Press)

TOKYO, Nov. 5.—Manchurian peace was postponed indefinitely today by a battle between Japanese and Chinese troops for possession of a dynamite wrecked bridge. The Japanese rushed reinforcements to the scene, where the Taonan-Anghai railway crosses the Nonni River and further fighting was in prospect.

The War Office here announced fifteen Japanese and an undetermined number of Chinese soldiers had been killed and many wounded, and said, "positive and effective measures" had been decided upon by the Japanese to meet the "threatening" situation facing them on the Nonni river.

W. Cameron Forbes, U. S. Ambassador who has been on leave in the United States, arrived at Yokohama and immediately arranged to confer with Baron Kijuro Shidara, the Foreign Minister, concerning Manchuria, where Japanese troops have been in control of the southern part of the country since September 18.

CAUSE OF BATTLE

The immediate cause of the battle after which the two armies "dug in" on either side of the river, was not quite clear. The Chinese troops were those of General Mah Chang-Shan, supporter of the absent Nationalist Government of

Big Increase In Dairy Production

Market Progress In Dairy Output Shown By 1930 Figures

(Canadian Press)

OTTAWA, Ont., Nov. 4—Canada's total output of dairy produce in 1930 had a value of \$126,623,832, according to a report issued today by the Dominion Bureau of Statistics. Of this amount the sum of \$56,870,504 was contributed by creamery butter, \$18,089,870 by factory cheese, \$10,040,176 by concentrated milk products, and \$4,822,982 by miscellaneous dairy products, milk and cream sold as such, ice cream etc.

Ontario was the largest creamery butter producing Province, being responsible for 64,898,291 pounds, valued at \$30,593,397, which was an increase in production of over five million pounds.

Quebec's increase was nearer seven million pounds, and came next to that of Ontario at 60,746,865, valued at \$17,851,545.

The average of the three Prairie Provinces was approximately fifteen million pounds each, at a price level ranging from 28.04 cents a pound in Alberta to 30.95 cents in Saskatchewan.

Canadian makers of creamery butter produced 185,751,061 pounds last year, an increase of nearly 15,000,000 pounds from 1929. Cheese production was about half a million pounds over the figures for 1929, being in 1930, 119,105,203 pounds as against 118,746,282 pounds for the previous year. The 1930 value was \$18,089,870, or an average price of 15.19 cents per lb.

Ontario's production increased from 79,904,131 pounds to 81,322,611 pounds, while that of British Columbia rose from 39,452 pounds to 564,833 pounds. In other provinces the variations were slight.

GOOD NEWS FOR CANADA

OTTAWA, Ont., Nov. 5.—(By the Canadian Press)—The sturdy advance which bar silver made in world markets today was good news for Canada. The white metal romped along to around 35 cents an ounce, which is some 7 cents an ounce above the September average and nearly 9 cents above the year's low. It sent the stocks of silver mines up in Toronto and Montreal exchanges. Canada is the third greatest silver producer in the world and should benefit materially if recent advances are continued.

The Light Investigation At Moncton

(Canadian Press)
SAINT JOHN, N. B., Nov. 5.—Practically all of the two sessions today at the investigation being held, into the electric light rates at Moncton, before the N. B. Board of Public Utilities here, was taken up with the testimony of Harry E. Carver, Vice-president of the Moncton Tramways, Electricity and Gas Co., Ltd. The only other witness was J. M. Robinson, investment banker of Saint John, who was on the stand a short while in the afternoon and testified in regard to the financing of a company, such as the Moncton one. The city is seeking lower rates from the Tramway Company.

The testimony of Mr. Carver concerned the making up of a rate base, amount of working capital needed and how arrived at, comparison of rates with other towns of the Province and similar evidence. The investigation will be continued tomorrow.

Grain Continues To Climb Higher

(Canadian Press)
CHICAGO, Ill., Nov. 5.—Grain continued a stubborn climb to higher prices today, overcoming all obstacles with strong public support. Independent of securities markets holding the lead in what had been widely heralded as the "return to prosperity," foodstuffs the world over spurred sensationally and then weathered the usual technical reaction to close at substantially higher prices.

The grain pits at Chicago held the key position again and seethed with activity in one of the busiest sessions of the year. Wheat closed from 7 1-2 to 1 3-8 cents high er, corn from 1 5-8 to 2 1-5 cents up.

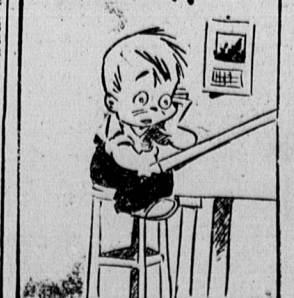

It was just one month after the low prices for the season had been recorded. In that month wheat contracts had gained about 22 cents, or not an income tax will be proposed. It will be necessary, he declared, to have the whole picture at hand before any decision can be made.

REMEMBRANCE DAY A PUBLIC HOLIDAY

November 11th Shall Be Observed In The Same Way As Armistice Has Been In The Past.

OTTAWA, Ont., Nov. 5. (By the Canadian Press)—Remembrance Day stands in the same position as the 1st of July, Labor Day, Christmas Day or New Year's Day. As it is a holiday established by legislation, there is no necessity for His Excellency the Governor General to proclaim the day as a holiday. Neither is it necessary for any provincial or municipal authority to proclaim a holiday. The intention is that Remembrance Day shall be observed in the same way as Armistice Day has been in the past. The desire of the Government is that Remembrance Day "be observed and honored throughout the

DUMPING

OTTAWA, Ont., Nov. 5. (By the Canadian Press)—Explaining the operation of the dumping duty applied to commodities imported from countries whose rate of exchange is adverse to Canada and when these commodities are subject to valuations fixed for duty purposes, the Department of National Revenue today issued a bulletin to all appraisers. A concrete illustration of how the regulation works out is given.

Three elements enter into the operation:
(A) The selling price in the country of origin.
(B) The valuation imposed in Canada for duty purposes.
(C) The rate of exchange.

Passenger Plane Crashes, 5 Die

Pilots, Sensing Disaster Throw Mail Overboard—Intense Heat Fails All Attempts At Rescue.

(Canadian Press)

CAMDEN, N. J., Nov. 5.—Crashing to earth on a golf course as it attempted to land at the nearby airport, a Washington bound passenger plane early tonight burst into flames, killing five persons. The plane had left Newark at 5:48 p. m. Those killed, all burned beyond recognition were Floyd Cox, Washington pilot; Elmer Smith, advertising manager of the Washington Herald; Vernon Lucas, Washington; George B. Taylor, of the Washington Herald and Francis R. Ehle, Riverton, N. J., President of the International Resistance Company, of Philadelphia.

The plane, a high speed Lockheed Vega monoplane which is owned by the New York-Philadelphia-Washington airways corporation, apparently was gliding to a safe landing when it suddenly nosed to the ground on the Copper Creek golf course.

Motorists on a highway and attendants of the airport hurried to the scene but were unable to rescue any of the passengers because of the intense heat. The Pennsukken Fire Department extinguished the fire. Other fire companies arrived soon after. Officials of the airport refused to

offer an explanation as to how the plane caught fire. The entire ship seemed to catch fire at once, witnesses said, and neither passengers nor pilot had time to leap to safety, had they tried.

Would-be rescuers said the dead were either killed or knocked unconscious by the fall as they uttered no screams. John Jennette, station master at the airport, gave the first eye-witness story of the crash.

"I was standing near the terminal building," he said, "when I saw the ship circle the field. It was flying rather low, between 100 and 200 feet as it came from the northwest. Suddenly I saw its landing light as it came from the northwest and I saw it suddenly dive downward. It disappeared behind some trees and
