### KELLY'S CROSS SCHOOL

Report of Kelly's Cross School for the month of September.

Grade IX Sr.—1. Mabel Monaghan. 2. Carl Hagen. 3. Lawrence Bradley.

Grade IX Jr.—1. Francis Caragher. 2. Theresa Flood. 3. Charles Gauthier.

Grade VII:—1. Noreen Trainor. 2. Austin Bradley and Minerva McDonald (equal). 3. Edith Kelly.

Grade V:—1. Vivien Trainor. 2. Eddy McDonald. 3. Charles Monaghan.

Grade IV:—1. Clarence Flood. 2. Laura Binns. 3. Leonard Kelly.

Grade I (a):—1. Mary Monaghan. 2. Lauretta Monaghan.

Grade I (b):—1. Carl Molyneux and St. Clair Trainor (equal). 2. Pauline Kelly.

Grade I (c):—1. Florence Sherrin. Teacher, Mary P. McKenna.

### Navy Acquires Fast Ocean Yachts

OTTAWA, Oct. 3.—(CP)—Shorn of the trappings of wealth and luxury 15 fast ocean-going pleasure yachts form part of the floating force of the Royal Canadian Navy, Navy Minister Macdonald announced today.

Renaming of 14 of the former yachts after Canadian animals brings a new touch of Canadianism into naval nomenclature. The 13 Canadian destroyers are named after Canadian rivers, the yachts under construction or recently placed in service are called after Canadian wild flowers and now the yachts being converted into anti-submarine patrol vessels bear the names of Canadian animals.

The one former yacht which kept its original name is the "Sans Peur," formerly owned by the Duke of Sutherland. The others are called Elk, Vison (French for mink), Beaver, Cougar, Moose, Otter, Caribou, Raccoon, Grizzly, Reindeer, Lynx, Wolf, Renard and Husky.

The average length of the 15 former pleasure yachts is 170 feet and some of them run to 220 feet and carry crews of 50 to 60 men and are armed with guns and depth charges.

Because of their high speed and seaworthiness they are particularly useful on the long cruises involved in anti-submarine patrol. The Government now is providing protection to men exposed to machine gun fire from enemy aircraft aboard merchant ships registered in Canada, said Mr. Macdonald.

### In Memoriam

#### MRS. FRANCES ROSSITER

There passed away on September 20th, 1940, at Morell a life long resident of that vicinity in the person of Mrs. Frances Rossiter. She was born at Morell after her marriage 52 years ago. Although she had been in failing health for more than two years, she was seriously ill for only three days. Her pastor, Rev. Joseph Rooney visited her frequently during her illness, and administered the Last Rites of the Catholic Church to her before her death.

She was highly respected as a woman of high Christian principles and kindness. Of her nine children four predeceased her; three in infancy, and one son Eugene in December, 1938. Her husband died in October, 1934. There are left to mourn their loss three sons, Edward and Ernest of Morell, Philip of Charlottetown, and two daughters, Mary, Mrs. Walter Connolly of Bedford, Mass., and Lottie, Mrs. Joseph MacDonald of Vernon River. Also three sisters, Mrs. John D. Larkin, St. Peters, Mrs. John C. McCarthy, Morell River, Mrs. Woodworth, Boston, Mass., and one brother, Ambrose Phalen, Morell River. Also thirty-one grandchildren.

Her funeral which was largely attended took place from her late home on September 23rd. The services were conducted by her pastor. The pallbearers were Messrs. Ralph Dingwell, Frank Kelly, James Leslie, George Phalen and Rupert Phalen. The many spiritual offerings, floral tributes and other expressions of sympathy testify to the esteem in which she was held. May her soul rest in peace.

MONTREAL, Oct. 3.—The gross revenues of the all inclusive Canadian National Railways system for the 9 days period ending September 30th, 1940 were \$6,491,022 as compared with \$7,520,260 for the corresponding period of 1939 a decrease of \$1,029,238 or 13.7 per cent.

### Scout News and Notices

Prince Edward Island Scouts are active with good work during last winter in feeding Hungarian partridge introduced into the province a few years ago.

A new wartime job given the Boy Scouts of Canada is the collecting of used medicine bottles to augment the supplies at military hospitals. The request is being made at the request of the Royal Canadian Army Medical Corps, at Ottawa. Collections of many thousands of bottles already have been made at Saint John, N. B., London, Calgary and Victoria, B.C.

In connection with the news of fighting and aerial raids along the borders of Kenya Colony in East Africa there has been some concern regarding the safety of Lord and Lady Baden-Powell, the World Chief Scout and Chief Guide, in retirement on their ranch near Nairobi. Answering a question in the recent issue, the magazine "The Scout" states: "Kenya is an enormous stretch of territory and as the Chief is residing in the south of the Colony he is hundreds of miles from the scene of fighting. The Chief is in good health, and we are receiving copy and sketches for his page regularly."

A special message from His Excellency the Governor-General, the Earl of Athlone, Chief Scout for Canada, to adult leaders of the Scout Association throughout the Dominion, also calls upon available and suitable men outside the movement to come forward and take training as Scouters. The Governor-General's message, in the October issue of "The Scout" reads: "I am glad to hear that you will never regret having joined what 'by common consent is the finest youth movement of modern times.' 'Wherever I have seen Scouts since I returned to Canada, His Excellency, I have been impressed by their bearing, and I know that almost every boy in Canada would want to be a Scout if good leaders were available.'

Rover Scouts of Delhi, India, go on regular "good turn bicycle hikes," stopping wherever they find something they can do for villagers.

When a train was wrecked near Blue River, B.C., and a number of soldiers and others injured, two Boy Scout passengers were promptly on the job rendering first aid. The boys, Scouts Joly Amussen and "Scotty" Buchanan of North Battleford, Sask., were themselves slightly injured, but this did not prevent them from attending to the aid of their fellow travelers.

A new kind of wartime burglary was that reported by a Winnipeg soldier's wife. Returning to her home after a day's absence, a neighbor informed her that two boys had been seen leaving her woodshed, after screwing the door hinges back into place. Investigating, the woman found that a load of wood had been split and neatly piled. The "burglars" were two Boy Scouts who had taken on the job of looking after the soldier's home during his absence.

That the Boy Scouts Association does a bigger work at less expense than that of any other organization was the declaration of Mayor Morrison of Hamilton, Ont., at a meeting of the Hamilton Board of Control at which the co-ordination of all local social services was discussed. Said the Mayor: "In my opinion the Boy Scouts are doing a bigger and better work than any other organization, and at less expense."

A competition in snaring rabbits is a spare time activity of Scottish Boy Scouts who are doing their bit at a war timber cutting camp. The tree felling is done by adult workmen, and the Scouts are busy setting out the traps for picking up by tractors. "Between logs" the rabbit snares are inspected, and the competition includes skinning the rabbits and writing up the best of the articles of them. The rabbits of course are added to the Scout menus.

## Extension Of One Week For Lobster Season

The lobster fishing season in the late district in the western section of Prince Edward Island has been extended one week. Mr. J. J. Larabee, Supervisor of Fisheries for the province, said last night. He was informed of the extension in a telegram from Mr. A. L. Barry, of the Department of Fisheries in the United States, that the season will close now on October 12 instead of on October 5 as provided for in the regular season regulations.

Mr. Larabee said not 40 per cent of the days since the first of September were fine enough for fishermen to go out to their traps. The catch of lobsters for the district was below that of last year, due to the weather. The fish seemed plentiful when the seas were calm enough for lobster boats to venture out.

"Price for canned lobsters, was rather uncertain," packers said. But the price for market lobsters, those shipped alive, primarily to the United States, was about that of last season. It varied between 16 and 19 cents per pound, it was learned.

Mr. Larabee said that fishermen by his department indicated fishermen in the late district, which extends from Victoria on the South Shore, around the south and west coasts to North Point, had lost more than \$9,500 worth of gear during a heavy storm early in September.

"The extension of the season for one week would permit fishermen to recoup some of their losses from storm and from the poor fishing weather, it was believed."

### Plan Formation Of Local Branch Of Parliamentary Assn.

The Prince Edward Island Legislature will form a branch of the Parliamentary Assn. when it meets at the next regular session, it was announced last night by Premier Thane A. Campbell.

The decision was arrived at yesterday during a meeting between Sir Howard deGaulle, K.B.E., LL.D., secretary of the Empire Parliamentary Assn., and Hon. Leut.-Governor B. W. LePage, Premier Campbell, Hon. Dr. W. J. P. MacMillan, Leader of the Opposition, Mr. W. F. Allan Stewart, Speaker of the House, and members of the Government. The meeting took place at the Premier's summer home at Stanley Bridge.

Sir Howard arrived Monday night for the purpose of approaching the Government with the view of establishing such a branch here. Every province in the Dominion with the exception of Alberta, has such an association, which is formed upon a non-party basis. It exists in each Parliament of the Empire.

At yesterday's meeting Sir Howard discussed the possibility of forming a branch in this province. He outlined the aims and objects of the association, pointing out that it was particularly important in wartime as a means of giving information, much of it confidential, to the members concerning the features of the war.

The members of the Government present, after considering the merits of the association, decided that a branch would be formed here and it is their intention to have it established at the next regular session of the Provincial Legislature.

### MEETING

### Dramatic Story Of Dakar Expedition

The following is the first detailed account of dramatic events leading up to the three-day British-supported effort of General Charles de Gaulle's "Free French" expedition to occupy Dakar, capital of French West Africa and "key to the South Atlantic" the naval and air battle was abandoned on Sept. 25.

WITH THE DE GAULLE DAKAR EXPEDITION, Sept. 29—(Delayed in transmission)—(AP)—Heroism of a naval officer-priest whose white-flagged "Free French" landing party touched off the battle of Dakar, prevented the capture of former French Deputies who tried to win West Africa bloodlessly over to Gen. Charles de Gaulle's Anglo-French cause.

He was Capt. G. Thierry d'Armenieu, who stood erect in a small boat under a deadly hail of machine-gun fire, even after being wounded, and directed withdrawal of the landing party, made up of members of the French Parliament serving in De Gaulle's legion.

Although sailors were lining the rails of warships and commercial vessels in Dakar port, no effort was made at first to halt the Free French landing party, which flew its white flag alongside the French tri-color.

Halted at Landing

Just as the party reached the dock and prepared to go ashore, however, an automobile drew up on the quay. A young ensign with a drawn revolver and a lieutenant stepped out and refused to let any member except d'Armenieu land.

The lieutenant shook hands cordially with d'Armenieu, who asked authorization for his delegation to land. The lieutenant sent for Capt. Lefevre, commander of port police, who granted permission for the entire party to come ashore. When d'Armenieu declared he was carrying a letter for Governor-General Pierre Boisson of West Africa and the admiral commanding the port, the chief of police telephoned the Governor for instructions.

The Governor's answer came eight minutes later. Its tenor was indicated by Capt. Lefevre who ordered the party to put back to sea at once.

"And if we refuse?" d'Armenieu demanded.

"I would be obliged to put you under arrest," the Captain replied.

Order for Arrest

He scarcely had finished speaking when an orderly rushed up with a written order for the immediate arrest of the entire party.

d'Armenieu shouted a quick warning to his officers, then leaped into the boat himself just as it pulled away from the quay.

Meanwhile the young ensign who had greeted the party with a drawn revolver, ordered his machine guns trained on the party.

The momentary hesitation of the gun crew gave the De Gaulle delegation time to reach the outer limits of the harbor where they came under heavy fire from other machine guns and rapid fire cannon on the harbor moles.

Although seriously wounded in the thigh with blood soaking his white uniform, d'Armenieu stood erect under the withering fire, even halting his boat to wait for a second and slower one carrying members of his party.

On the outer harbor was cleared, d'Armenieu executed a smart 90-degree left turn and calmly headed for the escort vessel Savignan de Braza which stood idly outlined in the fog-blanketed sea.

### Record Production Of Hogs In Canada

In the report on the June survey of live stock dealing with the number of hogs on Canadian farms, the 1940 spring pig crop and the number of sows to farrow in the fall of 1940, it stated that live production in Canada in 1940 will be the greatest recorded. The 1940 spring pig crop was 30 per cent greater than that of 1939 and farmers also reported an increase of 27 per cent in the number of sows expected to farrow in the fall of 1940. The increase in the spring pig crop resulted in a gain of 37 per cent in the number of hogs on Canadian farms on June 1, 1940. The total number of hogs on farms at that time was estimated at 5,532,000, the highest on record.

"The increase in 1940 is a continuation of the upward trend in the numbers of hogs which commenced in the spring of 1939. The year's relatively favourable weather conditions and an abundance of corn proved to be the main reasons for the increase. As a result of the increase in the pig crop, market prices will be higher during the remainder of 1940 and the crop increase is expected to average of over 40 per cent in 1941."
