Eastern News

The first catch of spring herring was made by Pius Cheverie on Monday last.

A steamer, in all probability, a sealer, was sighted, caught in the ice, off East Point a few days ago.

The stork paid a visit lately to the home of Mr. and Mrs. Jerome MacDonald, Little Harbor, and left them a baby girl.

We regret to record the death of Mrs. D. McLean, Souris Line Road, which took place at the home of her son-in-law, Mr. Charles Bushey.

The Souris harbor is free of ice and the "thug", "thug" of the motor boat is evidence that the fishermen are ready for "The harvest of the sea."

Messrs Stephen McAulay, D. F. Lavie and A. F. McQuaid were selected as the building committee for the erection of the new Catholic Church at Souris.

The steamer "Lovat" which plies between Pictou, Souris and the Magdalen Islands is expected to make her first trip on the 27th of April, if the ice conditions are favorable.

Many people will be pleased to hear of the recovery of Mr. Thomas Arbing from a severe illness. They are not forgetful of the courtesies that he extended to them while he was station agent at Souris.

The lobster season opens on the 26th of this month, but the lines will hardly be run as there is a great deal of ice in the Gulf. Reports from the North Side inform us that the ice is packed on shore and as far out as the eye can see.

There is a rumor along the shore front, that during the coming summer, a company will buy fish of all kinds from the fishermen such as dogfish, sculpin and flounders, as well as cod, haddock and hake. The cod, haddock and hake will be sold in the usual market but the offal, dogfish and other inedible fish will be sent to a fertilizer plant. Credence is placed in the report by the fact that the "Brant" has already been bought from the Dominion Government. They will operate all along the coast, and if the rumor becomes a fact it will be an inestimable boon to our fishermen.—Rollo B.

The drooping back hem line is generally followed but there is much use of drooping side back points and dips with the centre back slightly higher. Peau lengthens his evening skirts in front to well below the knee.

While little children go hungry as they do now, I'll fight.
While men go to prison in and out, in and out, I'll fight.
While there is one poor lost girl upon the streets, I'll fight.
While there yet remains one dark soul, without the Light of God, I'll fight—I'll fight to the very end!

1087 THE PR...

Are You in Favor of a Flying Field and Club for this Province?

At a recent meeting of citizens much interest was expressed in the formation of a Flying Club, and the establishment of a Flying Field in this province.

It was felt that it is certainly desirable that this Province should not fall behind the other provinces in the important and rapidly increasing matter of air transportation, and that our young men should have an opportunity of becoming versed in what will doubtless develop into one of the great industries of Canada.

An organization committee was appointed to investigate the possibilities of forming such a club, and the committee, that with the assistance of the Dept. of National Defense in offering the free use of two planes, a Flying Club is possible, provided they have the whole-hearted support and interest of the people of the province.

TO TAKE ADVANTAGE OF THE DEPARTMENT'S OFFER OF A LOCAL FLYING CLUB MUST BE FORMED, AND THE ORGANIZATION COMMITTEE THEREFORE WISH TO SECURE AS QUICKLY AS POSSIBLE THE NAMES OF ALL THOSE WHO ARE WILLING TO SUPPORT THE MOVEMENT, as application must be made to Ottawa without delay, the number of planes available being limited. With this end in view an Application Blank has been inserted on this page, through the courtesy of the "Guardian", which should be completed and returned to the address indicated.

ACTIVE MEMBERSHIP gives the club member the privilege of taking instruction and learning to fly under the tuition of a pilot-instructor provided by the club and approved by the Dept. of National Defense. To secure a private pilot's license it is necessary for the candidate to have put in about twelve hours actual flying time, the first ten of which will be in conjunction with the instructor, and the last two "solo flying." This instruction would probably be spread over a period of three months. The student will pay a fixed rate per hour for the use of the plane during instruction.

ASSOCIATE MEMBERSHIP entitles such members to fly in the club planes as passengers, with a licensed pilot, at a rate to be fixed by the club.

ONLY MEMBERS OF THE CLUB WILL BE ALLOWED TO USE, OR TRAVEL, IN THE PLANES IN ACCORDANCE WITH THE REGULATIONS OF THE DEPT. OF NATIONAL DEFENSE.

We would suggest that all those interested, and willing to support the movement although not desirous of becoming pilots, should take advantage of the Associate Membership.

The Committee earnestly solicit the support of Summerside, Montague, and other centres throughout the province, as the advantage offered by the club will be available to any member. It is hoped that in due course flying fields will be established at various other points throughout the province.

W. T. PARKER, Chairman,
Organization Committee.
