

ANGLO-CAN SYNOUD MEET IN ST. JOHN.

FREDERICTON, N. B., July 26.—The fire which occurred at Christ Church Cathedral will probably mean that the Synod of the diocese of Fredericton will not meet in this city. Some time ago announcement was made that the Synod would meet in this city, and preliminary arrangements were going on for the holding of the Synod here, the date chosen being early in the month of November. Now, the work of preparing for the Synod to meet here has all been dropped.

THE DOCTOR'S QUESTION

Much Sickness. Due to Bowel Disorder. A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that ninety-eight per cent of the illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Recall Orderlies are eaten like candy, they act quietly, and have a soothing, strengthening, healing influence on the entire intestinal tract. Two sizes, 25c. and 10c. Sold only at our store—The Rexall Store, MacKinnon Drug Co.

MARRIAGE LAW QUESTION.

OTTAWA, July 26.—In Commons this morning Mr. Taylor asked: "Does the Government consider it desirable that steps should be taken to prevent cruelty and injustice by reason of marriages contracted before a duly ordained clergyman, but afterwards declared invalid?" Mr. Taylor also asked if the Government proposed to take any steps to legalize every marriage solemnized in Canada. These questions, of course, had Sir Allen Aylesworth replied that the opinion of the Government was that it had no power or jurisdiction in the premises.

MONTREAL TO HAVE A BIG DRYDOCK

OTTAWA, July 28.—The contract was last night signed between the Government and the Canadian-Victoria Dock Co., of Montreal, for the construction of a dry dock at Montreal. The dock is to be ready for operation by December 31, 1913. The Government undertakes to pay 3 1/2 per cent, for 35 years on an investment of \$3,000,000.

The tackle that caught these trout was bought at the above drug store. There were eight on exhibition, the largest weighing four pounds and the smallest one and three-quarters. This is about the best catch made this season.

Rev. Wm. McLeod upon arrival at his home in Truro on the 25th inst. was agreeably surprised to find that Mrs. McLeod, who took ill in February, seated on the verandah, able to walk and much better. While in this Province Mr. McLeod conducted eight services, visited forty families, travelled twenty miles on foot, travelled by carriage and eighty-four by rail. Altogether he was in charge of three congregations, viz.—West Cape, R. Tyne Valley and Hampton and called to lead in special services in Orwell, Montague, Wood Island, Murray Harbor, North and South, George's Church, Zion Church, Clyde and West River, New London, Malpeque, Bloomfield, Alberton and Caledonia. He recently saw many people and several communities never known in the past. Mr. McLeod is more assured than before that the Gulf of the Gulf is not a misnomer, and that the general thrift, intelligence and hospitality of the people is above the average. Many are practical workers in the Master's vineyard. Yet there are fields white to the harvest. More prayer for more laborers will surely be answered. The genial Rev. F. A. Wightman in the Methodist Church at Souris on the night of the 16th aptly introduced Mr. McLeod as one who previous to '92 had for several years been a near neighbor and co-worker in Harcourt, N. B., with himself.—Cor.

THE WAR CLOUD GROWING DARKER. LONDON, July 28.—The most pessimistic views regarding the acute nature of the Moroccan crisis were largely confirmed by the Prime Minister in the House of Commons yesterday, when with a manner ex-

pressive as words he read from a manuscript which had been carefully prepared a warning to Germany that Great Britain proposed to stand for what she considered her rights and to maintain the balance of power in Europe.

Further testimony as to the gravity of the situation is given by the fact that the Prime Minister obviously had taken the leader of the Opposition into the Government confidence and Mr. Balfour's declaration was no less firm than Mr. Asquith's. The Prime Minister's statements were couched in diplomatic, though not reassuring language.

It is accepted as a fact that the crisis arising from the Moroccan situation, and general friction between Germany and Great Britain, is more acute than any one has heretofore considered possible. At military and naval headquarters there is keen alertness, indicative of expectation of emergency orders. It is an open secret that the Government considers the Agadir incident as a thrust against England rather than against France. England, consequently, is really directing the French side of the Franco-German negotiations, in which no progress is being made. King George has cancelled his visit to the races at Goodwood, because of the tense political situation and the Moroccan crisis. The King had already postponed his earlier visit to the races. The Admiralty would not give any information regarding the authenticity of the report that the Atlantic fleet has been held in the home waters owing to the Moroccan crisis.
