

It Is Of Importance

That a watch should be accurate, should perform its duties in a trustworthy way, day after day and month after month. One does not wish to be obliged to go to the trouble of setting one's watch every few hours in order to keep it right.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupation space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagant.—American Medical Journal
