RIPPER KILLS EIGHT GIRLS IN EIGHT WEEKS

A Negro in Atlantic Imitate Crimes of London Whitechapel Fiend—No Trace of Monster Found

ATLANTA, Ga., July 8.—A series of murders of attractive-looking mulatto and quadroon women—eight murders in all, in eight consecutive weeks, each occurring on a Saturday night—has completely baffled the police department and sent terror to the hearts of the negro population of the city and surrounding territory. The latest victim was murdered last Saturday night.

Killings of negroes by negroes are frequent enough on Saturday nights, when blind tiger whiskey has been flowing freely, and if the murderers had been of the ordinary kind where there is a heated quarrel, a blow, the crack of a pistol, or the glitter of a knife in any of the many dives and dance halls of the city, little would been thought of them.

But a new variety of negro murderer—for it is assumed beyond question that he is a negro—has suddenly appeared. He is as neartless and unerring as "Jack the Ripper," whose grewsome murders in the Whitechapel district of London over twenty years ago started the whole world.

He displays the same diabolical cunning, the same fiendish desire to rip and tear and mutilate after once death has been inflicted. And, strangely enough the bloody work betrays the fact that he possesses no little knowledge of anatomy.

The first stroke is always in a vital spot and death is dealt out with absolute certainty. It is afterward that the swift, silent, carving up of the victim—always in the same region of the body—begins. The body is then left in some dark, obscure alley. Possibly the crime is not discovered until Sunday morning. At all events, it has been the same for the last eight weeks, the murderer excapes leaving no clue of his identity.

Physical evidence goes to show that the murder is not committed after the accomplishment of the usual crime for which negroes are frequently lynched in the south. Rather it is thought to follow the awful mania of a diseased mind which in other subjects is rational enough.

In each case the victims have been good-looking and neatly dressed. More than one of them has received an education in one of the many schools for negroes founded by the philanthropic people at the north.

The average negro is a gregarious and a child-like creature, easily swayed by the impulse of the moment. When he stoops to crime in the murderous kind it is usually the swift result of hot and unbridled passions getting the better of him or when his brain has been befuddled by whiskey. He seldom plans for days ahead, as apparently the slayer did in these murders. And yet, in support of the theory that it is a negro, is the fact that the habits of the victims, what time they leave work, where they live, and the most likely place for the commission of the crime, are known in advance.

Saturday night it is a time of merry-making and carousal for the average Atlanta negro after his day's work is done. Arm and arm men and women loiting up and down certain streets, picking guitars, thumbing banjos, singing, laughing—a care free, happy, irresponsible lot. They have their jealous quarrels, fights and killings, but a Saturday night tragedy does not linger long in their memories, and they are taught little by experience as a general rule.

But this human monster that has stolen among them and dealt out death so unerringly has caused fright to grip them. They have conjured up a being something more than human, possessed af supernatural powers—an ogre, a fiend incarnate—and when Saturday night comes scores of bright, yellow-skinned girls, who were wont to laugh and joke and coquette with the men of their race as they strolled from place to place, are huddled up at home behind closed and barred doors, afraid to venture forth.

CRIPPLE FROM RHEUMATISM

NOW IN PERFECT HEALTH THANKS TO "FRUIT-A-TIVES"

VANCOUVER, B.C., Feb. 1st. 1910.

"I am well acquainted with a man, known to thousands in Vancouver, Victoria and New Westminster, who for nearly a year was practically a cripple from Rheumatism. He was so troubled with the disease that he found it difficult to even turn over in bed. His heart appeared so weak that he could hardly walk up stairs.

Last June, he received a sample of "Fruit-a-tives". He used them and dates his recovery from that time. To-day, there is no man in Vancouver enjoying better health.

He was building a house this fall and shingled a good part of the roof in a driving rain, without suffering any bad effects".

JOHN B. LACY.

Mr. E. E. Mills, (assistant postmaster at Knowlton, Que.,) also writes:

"I honestly believe that "Fruit-a-tives" is the greatest Rheumatism cure in the world". Try it yourself.

50c. a box, 6 for $2.50, trial size, 25c. At dealers, or from Fruit-a-tives Limited, Ottawa.

Not in a single instance has an out-and-out black woman been murdered in the manner described, and the word has gone forth among them that they are safe.

It would seem that all of the negroes has been killed with the same instrument, a razor or a sharp knife such as surgeons use. Save in one instance, the throat was cut and the wound was clean. No stab marks were evident.

All wounds were made as if the victim had been seized suddenly, head held back and the blade drawn swiftly across in a horizontal direction. The jugular vein was in each case completely severed.

STRANGE STORY OF MURDER IN BALLOON

LONDON, July 8—A remarkable story of murder in a balloon is sent to London by the Vienna correspondent of the Daily Mail.

A number of policemen, while walking across a field near Dorchoi, Roumania, saw an abandoned balloon with a guide rope trailing along the ground.

When the balloon was hauled down, the headless bodies of a young man and a girl were found in the car. Both bodies showed evidence of a desperate struggle.

The girl had been stabbed to death. Her companion had been shot. The gas bag had been split with a knife.

An investigation revealed that the girl was the daughter od a distinguished army officer of Bucharest, and that she was to have been married on the day the balloon was found.

The man in the car was the son of a wealthy land owner, named Jonesen, who had fallen in love with her.

The Roumanian police say that the young man, finding his advances rejected by the girl, who was promised to another, induced her to go with him on a balloon trip, and then murdered her and killed himself.

How the heads were lost from the bodies is not explained, however.

MACQUARRIE-BAXTER.

At their new cottage the "Merrymac" at Meshanticut Park, Rhode Island, the wedding of Henry Bruce MacQuarrie, son of Thomas MacQuarrie of Rice Point, P. E. I., and Miss Helen Cushing Baxter of Providence took place on June 28th, 1911, the Rev. Samuel W. Steckel of the First Presbyterian Church officiating. The ceremony was very simple, the couple being unattended and witnessed only by the immediate relatives of the bride and groom. The bride was gowned in white crepe de chene trimmed with silver beading and carried a bouquet of bride roses. Charles T. Baxter, a well known optometrist, father of the bride, gave her away. The groom is assistant manager in the garment department of the Shepard Company, Providence, while the bride was a teacher in the Providence City schools. Immediately after the ceremony the couple left for an extended trip to Mr. MacQuarrie's home in Prince Edward Island. Part of their time will be spent at Rice Point with Mr. MacQuarrie's parents and part at the home of John H. and Mrs. Latham of New Dominion.
