

ADAMS BLACK JACK

The Canadians first introduced chewing gum into the trenches and now there's scarcely a soldier on the west front who doesn't consider a good gum like Adams Black Jack a necessity. A stick a day keeps nerves away. Every time you buy it for yourself, buy it for a soldier.

ADAMS Pure Chewing Gum

D. & F. Fresh Pork Sausage

Manufactured from best spices obtainable and choice fresh meats.

Under Government Inspection

Each wrapper bears the official stamp: "Est 50 Canada Approved." No higher certificate of quality is needed.

Sold by all leading grocers.

Charlottetown, P. E. I.

IN THE NORTH SEA

War operations in the North Sea, especially the activity of the German fleet, have been in view of the residents of the west coast of Jutland all summer, says a despatch from Copenhagen. So frequent have been the manoeuvres of the German fleet along that coast that the people of Holmsland Downs have become quite well acquainted with the German naval tactics.

Zepplins, waterplanes, mine vessels, torpedo-boats, destroyers, and submarines pass day after day along the coast outside the territorial limit, and occasionally the sound of guns at a distance carries the message that the English naval forces are not idle either.

When Zepplins or waterplanes show themselves in the south of the Downs above the international water, it seldom takes a long time before German mine sweepers, two and two together, often several pairs in company, make their appearance in the

south, and it does not require a very sharp observer to find out that lined up between each pair of mine sweepers is a submarine. If the flying craft signal peace and no danger, the trawlers proceed boldly, stopping only at the northern end of the mine belt, where they turn round; the submarines evidently do not any longer need assistance.

Until midsummer the trawlers used to stop a little before they were off Soudwig. Later on, after the extension of the English mine area, they generally proceed farther north, until off Hirtshals.

Tears are the diamond chips of sorrow if you want the world to hear you.

Some men dress so loud that they can't hear themselves think.

The person who does his or her best has done everything, but those who have done less than their best have done little, if anything.

When There's Not A Minute To Lose

Instant Postum

is a friend indeed. Made in the cup instantly, and mighty delicious and nourishing.

"There's a Reason"

The Central Guardian

IT PAYS to buy in this province.

THE MORNING GUARDIAN may be had at the News and Variety Store, 70 Great George St., opposite St. Dunstan's Cathedral.

WELL KNOWN RESIDENT DEAD—A wide circle of friends all over the Province and many who have visited here in the summer season will learn with genuine regret of the death of Captain James Taylor of St. Peter's Island which occurred several years ago. He died of heart failure, the result of a heart failure. To the bereaved widow and family the deepest sympathy will be extended.

HOME FOR BURIAL—The funeral of the late Mrs. W. A. Eisenhauer whose death came as a severe shock to her relatives and friends took place at the Catholic cemetery yesterday morning. Requiem high mass was sung in St. Dunstan's Cathedral by Rev. Maurice McDonald and the services at the grave were performed by Rev. Frank McQuaid. The pallbearers were Messrs M. Reardon, Charles Moran, William Moran, P. Cass, Vincent Blake and Alfred Trainor.

THE STANLEY—The New Glasgow Free Lance says:—The D. G. S. Stanley, Captain Walter Rowe, has received instructions from Ottawa, to defer lifting buoys for the present on the Cape Breton coast, and proceed to the Strait of Canso and relieve the coastal steamers which are imprisoned there by the ice. The Stanley, by no means as strong as she was ten years ago, is justly termed, the Queen of the ice breaking fleet and has withstood many years of strenuous ice work. Captain Rowe is one of the youngest of old time mariners, having spent forty-three years of his life fifty six at sea, and during all that time, although having sailed to every part of the known globe, he has yet to meet with his first loss.

A GENIAL WELCOME—The people of Rustico and vicinity turned out Tuesday night in honor of Privates Dolron and William Gauthier, two returned soldiers. The brave lads were met at Hunter River Station by Mr. Chester Wellner. They were then driven to Pte. Dolron's home, where a grand reception was tendered to them. There were over one hundred present. The boys were presented with an address of welcome, which was read by Father Chaffin. Speeches were also given by Mr. Buote, Teacher and Mr. William Paynter. The evening was most pleasantly spent, with instrumental music, patriotic songs, etc. Refreshments were then served, after which the gabbling was brought to a close by the singing of the National Anthem, and three cheers for the brave soldier boys.

CHANGE OF RESIDENCE—Mr. W. O. Johnston who has been associated for some time in this and the neighboring provinces, with Mr. P. A. Murphy, Dominion Pathologist, Prince Edward Island and Nova Scotia, leaves this morning for St. Catharines, Ont. where he will be located in future. His duties there, as here, will be in connection with plant diseases, principally potatoes and he will be attached to the staff of the St. Catharines Laboratory. Mr. Johnston has been a resident of Charlottetown for some two years and has made many friends here who will be sorry to see him leave. He has been a Sunday School teacher in the First Methodist Church for some past and otherwise active in church work and his departure will be a loss to the congregation and the Sunday School. His many friends will wish him abundant success in his new home.

POWNAI CONCERT—On Wednesday February 8th last a very successful concert was held in Pownal Hall by the "Busy Bee" Red Cross Society. The concert was one of the best that has been held in Pownal in recent years, and the young ladies of the Society are to be congratulated in their success. The programme was most capably rendered by talent from Pownal and surrounding districts, and comprised the following: Chorus, I love you Canada, Recitation, Verna Smith, Solo, Victoria Jenkins, Recitation, Evelyn Cosgrove, Solo, Iltte Richards, Dialogue, Marian Weatherble and Chester Acorn, Solo, Marguerite McEachern, Violin Music, Francis Drake and May Jackson, Chorus, Your Country Needs You, Recitation, Earl Herman, Solo, Marian Weatherble, Recitation, Margaret Burden, Duet, Enid Smith and Iltte Richards, Solo, Chester Acorn, Dialogue, Hazel Stewart and Irene Smith, Solo, Enid Smith, Chorus, Three cheers for the lads of the Navy, God Save the King. The chairman for the evening was Rev. H. Pierce and the accompanists Mrs. A. G. Judson, Marguerite McEachern and Enid Smith. After the concert, lunch was served in the spacious dining room of the Florida Hotel by the same young ladies. The sum of \$40 was realized.

MARVELOUS SPEED ATTAINED WITH NEW TELEGRAPH

Within the past few weeks a seven-league stride has been made in high-speed telegraphy, says the February Popular Mechanics Magazine. An apparatus, which in actual test has proved its ability to transmit over a single grounded wire 6,000 words a minute, has been evolved.

The real significance of this escapes one until it is realized that 6,000 words set in type will fill seven and a half standard magazine pages. Details of what appears to be an epoch-making achievement must be withheld for military reasons. It is a war invention and has for its chief purpose the liberation of hundreds of expert operators for the signal corps without disorganizing our much-needed commercial lines. No secret is divulged, however, when the apparatus is described as a printing-telegraph system depending upon a universally used recording instrument that has never before been associated with telegraphy. The system is applicable to wireless but so far has not been actually used in connection with it.

GREAT WAR VETERANS ASSOCIATION Club rooms open from 4 to 6 and 7 to 9 p. m. daily. Newspapers, magazines, games and music furnished. 2664.

INSTITUTE WORK—The monthly meeting of the Lakeview Women's Institute met at the home of Mrs. Stephen Rose, Lakeville, February 13th 1918, a paper on "Work by Women in Rural Ontario" was read. Subject for next meeting, "Balanced Rations." An autograph quilt is being made and the proceeds from it are to be towards the Prisoners of War Fund. \$4.83 was voted, at the February meeting, to be sent to Canon Simpson for the Prisoners of War Fund. During the winter 80 pairs of socks have been knitted by the members of the Institute and \$40.00 were sent to Mayor Brown for the Halifax Relief Fund, leaving cash on hand \$35.00.

CATHOLIC CLERGY AT THE FRONT—There could be no greater tribute to the heroism and patriotism of the Catholic clergy than the latest military dispatches from the various fronts. The most pathetic, and perhaps the most romantic, tells of the death of Father Bernard Kavanagh, C. S. R., acting Chaplain of the Forces, who died of wounds received in action just outside the Holy City of Jerusalem, on December 21st last. With Father Kavanagh in General Allenby's victorious army was Rev. Father Leo, O. F. M., of Killarney, who entered the Holy City with the troops. Father Kavanagh asked to be attached to the Palestine Force for the special reason that the great desire of his heart was to help drive the oppressive Turk from the Holy Places. Across the deserts and wastes of Palestine he had marched with the troops, comforting them when wounded and then, like Moses, he promised his land was denied him, and he died with the glad knowledge that Jerusalem was at last free.

THOSE SIDEWALKS—All that the streets in Charlottetown need is a sunny sky and some gondolas to be right in line with the Venetian Lord Byron loved so well. Certainly the streets and walks have sufficient water—and then some—and if the Bridge of Sighs is lacking, it is substituted by crossings that provoke language stronger than ever a sigh could be. Like a landing stage to a tired swimmer or a beacon-light to a shipwrecked seaman are the few thoroughly cleared and hard sections of sidewalk, notably on Hillsboro street between Sydney and Dorchester, a part of Sydney street and some parts of Grafton street. Citizens by this time should know that a thaw usually follows a heavy snowfall or continued cold period; that casual and desultory snow shovelling leaves a corrugated coat of ice on the sidewalk that is dangerous; that lack of drains will make a first class pond on a perfectly good promenade and also and above all it is impossible for a body of seven policemen to personally stand over some 4000 house owners and see that the bye law respecting shovelling is enforced. A little civic interest and "property" pride is a good thing to have.

Fairville, Sept. 30, 1902. Minard's Liniment Co., Limited.

Dear Sirs,—We wish to inform you that we consider you MINARD'S LINIMENT a very superior article and we use it as a sure relief for sore throat and chest. When I tell you I would not be without it if the price was one dollar a bottle, I mean it. Yours truly, CHAS. F. TILTON.

AN EMULSION EASY TO TAKE

COD LIVER OIL is one of the greatest vitalizers known, and is recognized by physicians as a splendid remedy in cases of debility, throat and lung troubles, etc., but it has been hard to get in a palatable form.

OUR EMULSION OF COD LIVER OIL

tastes good because it is fresh. The oil is produced from the best quality goods, and is filtered at zero temperature.

The intense cold prevents the greatest yield from the Cod Liver, but the oil that is obtained is absolutely pure and free from the objectionable, fishy taste characteristic of cheap oils.

MOORE & McLEOD, Ltd

119-121 Queen Street, Charlottetown

INVENTOR OF MARGARINE

(London Daily News)

Margarine came into being as a substitute for butter during the siege of Paris. M. Mouries, a French chemist and scientist, invented it by mixing milk and beef fat. The article that M. Mouries improved and eventually

patented was later on manufactured by the Dutch and the Danes. When it was found that there was not sufficient beef fat for the manufacturers to meet the increased demand for the new butter, vegetable oils were experimented with, and so originated margarine as we know it, of which our manufacturers are now turning out 5,000 tons a week.

If it is not a habit of yours to watch for new ideas—start now; stop, look and listen and you will not be run across by the engine of defeat.

There are two crops which cannot, as a rule, be grown in the same patch, viz., sheep and dogs. Sheep are most profitable, but dogs are the favorite with too many farmers.
