Proprietors of summer hotels and boarding houses are already receiving a number of enquiries for accommodation for next summer and quite a few definite reservations have been made. There is prospect of more than average convention business for the Maritimes this year and Prince Edward Island should have its full share. The Canadian Nurses Association are meeting in Halifax this year and it is expected that many of them will come over to Charlottetown.

Hoping you will be as happy there as with us and we shall welcome you at any time it is possible for you to be with us again. **P. E. Island A Tourist Paradise**

There would seem to be good reasons for expecting that Prince Edward Island will have excellent summer tourist business this year. The exchange situation is bound to deter many Canadians from their usual visits to the New England shore and mountain resorts, turning their attention instead to Quebec and the Maritime Provinces and it will at the same time encourage United States citizens to come to this side of the border where their dollars may be worth up to a fifth or a quarter more than in normal times.

Every dollar brought to Prince Edward Island by summer visitors this year will help to tide things over until the upturn takes place in the price received for the products of our farms, fox ranches and fisheries.
