

Indian Economy

MANY careful people have found that Red Rose Tea is very economical—that it yields more cups to the pound. That is because it consists largely of Assam-Indian teas, which are famous for their full-bodied richness and strength. They make Red Rose Tea go farther.

Try the Indian Economy of this distinctive tea.

—FAREWELL PARTY.—A party from O'Leary paid a visit to the home of Miss L. Mortimer at West Point on Friday evening. The reason being that she was leaving for the West where she has secured a fine teaching post. The many friends of the young lady are sorry at her departure.—W.

—PROVINCIAL SEED FAIR.—March 20th, 21st, and 22nd are the dates set for the Provincial Seed Fair to be held at Summerside. There is some extension in the prizes offered in the grain classes this year. The Fair is being held later than for some years, the object being to give exhibitors at the smaller seed fairs an opportunity to bring their exhibits together and so foster the spirit of competition from all sections of the Island.

—WEDDING BELLS.—The wedding bells were ringing again on Wednesday evening at Haliburton and two young lives became one, the contracting parties being Mr. William Earl Thompson of Campbellton and Miss Mae Catherine McNeill of Haliburton, the ceremony being led by the Rev. R. Brodie. The bride was dressed in white silk and wore a lovely veil in which she looked handsome. Miss Etta Thompson the bridesmaid wore a pink silk dress which had a pretty appearance. Mr. John Thompson of Campbellton acted as the best man. The couple are well thought of the young lady being an active worker in their "division" which brought guests from far and near. At the ceremony a well filled table was laid which was thoroughly enjoyed. The friends wish the young couple success in their new sphere of life.—W.

—FARMERS MEETING.—A meeting of the members of the Farmers' Co-operative Union was held at Ahram's Village on Tuesday evening. The purpose of such a meeting was to discuss the advisability of building a warehouse. The president, Mr. Ed-ward Poirier occupied the chair, and in the absence of the secretary Mr. John F. Arsenault, the proceedings were recorded by Mr. Charles M. Arsenault. The necessity of such a building was clearly set forth and the members were unanimous in the resolution to put up a building of such capacity so as to store up all produce in the fall, and which would serve as an indispensable factor in running a store. The fact that the volume of their business calls for more extensive buildings equipment goes to show that the association is on the way to progression. The directors were asked to take charge of this undertaking, and as they have in the past, always won the confidence of the members, it was decided to leave this matter under their charge. Meeting adjourned.—M.

BRITAIN ORDERS TRACTOR PLOWS

Will be Equipped With Headlights For Night Plowing.

2,000 ARE TO BE IMPORTED.

Women, Prisoners and the Conscientious Objectors to Aid Drivers.

LONDON, March 5.—"We want 2,000 American tractor plows for the use of a civilian army of night plowers, which we are now about to enlist throughout the British Isles," said Arthur Lee, Director-General of Food Production, today. This new department, which is the outgrowth of Germany's submarine campaign, aims at the enlistment of several hundred thousand civilians to cultivate every available bit of soil.

"We hope to make the tractor plows fill the gaps caused by the shortage in labor," continued Sir Arthur. "For this reason we are going to import 2,000, or as many as we can, from America. We are going to equip them with headlights for night plowing. Laborers can only work eight hours, but tractors can work twenty-four hours. They will be driven by taxicab drivers and chauffeurs, who will be able to learn their mechanics in a few hours.

"Behind every plow will be a skilled farmer. They will be assisted by prisoners, conscientious objectors, members of the home defence forces and women. In this way we hope to produce enough food to make us independent of outside help as long as the war lasts. We do not believe we will be able to produce sufficient to feed the population in time of peace, but are confident we will be able to grow enough to stave off starvation during the war. For this we thank the German submarines. They at least have given England the agricultural policy which is destined to make us to a large extent self-supporting. The submarines also have revived rural life, given the farmers a minimum wage and generally made our national defence more effective than a thousand speeches in Parliament."

KEEPING WELL DURING THE WINTER

Don't let your blood get thin this winter. For people who have a tendency toward anaemia—which means bloodlessness—winter is a most trying season. Lack of exercise and fresh air, being too constantly indoors combine to lower the tone of the blood and deplete the blood of those elements necessary to vigor and good health. As soon as you notice the tired feeling, lack of appetite and shortness of breath, that are the warning symptoms of poor blood, take a short treatment with Dr. Williams' Pink Pills. Do not wait until the color has entirely left your face, until your eyes become dull, and until you feel breathless after the least exertion. It is much easier to correct thinning of the blood in the earlier stages than later.

Dr. Williams' Pink Pills build up and enrich the blood and strengthen and tone up the nerves. In this way the general health is improved, the appetite increased, digestion strengthened and new ambition and energy developed. Then work becomes easier because it does not cause exhaustion. You can keep your system at the highest efficiency by the use of Dr. Williams' Pink Pills, the great blood builder and nerve tonic.

You can obtain these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

NO YELLOW STREAKS ON US

NEW YORK, March 6.—Suggesting a way to overcome the objection of those who argue against "entangling alliances" with European nations, a writer in the New York Herald says:

"If the United States does not wish to ally itself with any European nation in a war against Germany, why does she ally herself with Canada, a country as much American as she is. Here is little Canada (in population) big in country, large in manliness and courage, void of yellow streaks, who with a population of about as much as the State of New York, at the first insult from Germany took a bulldog hold on her and has been worrying her ever since."

There will be more need this year than ever for careful planning of orchard work. Labor will be very scarce and every move must count.

One of the very best ways of conserving labor in the orchard is to grow such a combination of fruits, and such varieties of each, as will best distribute labor over the whole season. Day labor will be especially difficult to secure this year.
