

Sore Chest Cured In One Night

Broke Up a Heavy Cold, Relieved Pain in the Side, Stopped an Irritating Cough.

"Anyone that goes through all that I suffered last winter will appreciate the value of a remedy that cures like Nerviline cured me." These are the opening words of the solemn declaration of E. P. Von Hayden, the well-known violinist.

It is because Nerviline contains the purest and most healing medicinal principles, because it has the power of sinking through the pores to the kernel of the pain—these are the reasons why it breaks up colds, cures lumbago, stiffness, neuralgia, sciatica, and rheumatism.

OF INTEREST TO FARMERS.

North and South Dakota have not been miserably in their grants for the improvement of Agriculture. The agricultural purposes of the Agricultural Appropriation Bill for 1912 are estimated to amount in all to \$331,000 of which \$24,000 is for the establishment of 23 demonstration farms and \$40,000 for the establishment and support of substitution.

The State Legislature of North Carolina has appropriated \$82,000 for the maintenance of the State College of Agriculture, \$30,000 for a new Animal Husbandry building and \$15,000 for other permanent improvements.

It is time to begin to think of your orchard. The first spraying should be done before the seedling begins as there is more time to spare then. It might be done now the first warm day.

Intending competitors in the Fields of Standing Grain should notice that six prizes are being offered for oats this year, five for weight and four for barley in each District.

Is your harness oily, scab, grain cleaned, and bagged; clover and grass seeds mixed; implement equipment ready for business; manure all out of the land; summer fuel supply on hand; heavy teaming done; team conditioned for spring work; and necessary fencing material on hand, and everything strengthened up around the buildings? Spring is due, and every day is worth money in seedling time.

If you have not before kept a farm garden notebook, start this season. Put down the names of the varieties you grow, where the seed was obtained, the dates of planting, notes re cultivation and manuring, when the hot-bed seeds were sown, when plants were transferred to the cold-frame or the open ground, date of ripening, yields, and other information that will be of value next season.

This is the time of year for farmers to be preparing for spring. The seed grain will perhaps need to go through the separators again, and the harness will need mending and oiling. If this is all attended to before the season opens, the crop can be sown as soon as the ground is fit and it is most important to get the grain in when the ground is in condition. If this is not attended to now, you will be surprised to find so much mending and fixing up is needed, and you will be surprised when you should be sowing or harrowing. Emigrants for Canada—The Department of Agriculture is in receipt of a letter from a Mr. Shaw of Yorkshire, England. He is at present a farm foreman on a farm in Yorkshire and is very desirous of coming to Prince Edward Island. He has a family of six children, Thomas aged 15, Hilda 14, Sara 12, William 10, Emma 6, and Mary 4. They have worked at farming all his life. His wife is an experienced dairy manager and can make butter and cheese.

ANNOUNCEMENTS

One cent per word each insertion. Cash must accompany order and five per cent discount allowed. Minimum charge twenty-five cents.

There will be a sale of valuable horses on the market square on Saturday the 6th of March. This will be a good opportunity for any person who has stock to sell. For particulars see ad in this issue. 4-1d1.

A meeting is to be held in Windsor Hall on Monday night, April 22, at 7.30 p.m. for the purpose of organizing and to arrange details regarding the construction of a rural telephone line. 3-28d5i.

None of us travel too much, and some of us can not travel at all, we can't afford to, most everyone has five cents to spare, and by spending it at the People's Theatre tonight they may take a trip in comfort down the Magdalen River, in the Phillipine Islands, in some places the going is very rough, and it is necessary for the guides to get out and guide the boat, but you won't have to move from your seat nor will you experience any seasickness for you are comfortably seated in the Theatre. The thrill of the trip and the magnificence of the scenery makes the event one never to be forgotten, come one and all, and see and learn something about the world about you.

MORGAN WILL VISIT VENICE INAUGURATION.

VENICE, Italy, March 28—J. P. Morgan has written a cordial letter to the committee, announcing that he will be in Venice on April 23, for the inauguration of the biennial international art exhibition on April 25, and for the inauguration of the new Campanile di St. Mark's. The municipality has published a manifesto, which is an engraving by Joseph Pennell, the American artist. It is considered a masterpiece, and represents the homage of American art to Venetian glories.

SCHOONER CAUGHT IN ICE AND WAS ABANDONED.

PARRSBRO, March 29—The schooner Annie Blanche, Robert Newcomb, master and owner, sank off Cape d'Or last night. She sailed from the last evening for Machiasport, Me., with a cargo of coal and was caught in the drift ice below Spencer Island, which crushed her so badly that she had to be abandoned. The vessel was built here seventeen years ago, 68 tons registered, and was insured for \$1,200.

The family has all been helping with the farm work but most of them are still in school age. They can get satisfactory references. Anyone who would like to engage this family should write the Department of Agriculture.

An Act of the recent provincial Legislature of British Columbia set aside 170 acres at Point Grey for the site of a provincial university, and makes a grant of 2,000,000 acres of public land for its maintenance. One important group of buildings is to be provided for a College of Agriculture with accompanying schools of forestry, domestic science and veterinary science. A central farm in connection with the college is proposed as well as several branch farms in the Province. British Columbia is known to us as a mining and lumbering country, but if these industries do predominate the people realize that there can be no permanent prosperity without good agriculture and they are ready to spend their money to bring this about. The people of Prince Edward Island are realizing the same thing and we hope for larger expenditures for agriculture in future.

DIKE OF WELLINGTON'S BELGIAN PENSION.

A Belgian correspondent sends us a copy of La Demiere Heure, a journal which under Edoles, contains the following paragraph: "It is known that Belgium pays to the eldest descendant in the male line of the Duke of Wellington, Prince of Waterloo, an annuity of 80,637 francs, 50 centimes, \$3,225. 16s. This annuity figure in article 2 of the public debt it is due by virtue of a title created in 1815 by the Government of the Low Countries, and remains a legal title incumbent on Belgium. This income will stop in the event of there being no other descendant in the male line.

The question of the redemption of this income having been submitted to the minister of finance, he has replied in the following terms: The possibility of the redemption has been submitted in the report in the central section of the budget for the public debt in 1891. M. Bernaert, then finance minister, decided in the negative."

Tragedy Of Bad Health

One of the most tragic things in life is the failure of health. The breadwinner of the family overtaxes his strength, the mother wears herself completely out with the never-ending round of home duties, or the son or daughter works too hard in school and happiness. We consider ourselves very fortunate in having a remedy that we can recommend in absolute confidence to all whose health is failing, young or old, and we freely give back the money if this remedy does not please. It is Vinol, our delicious cod liver and iron tonic. Probably you have heard of the hood it has done some of your neighbors. We sell a great deal of it, and it certainly does make weak, pale, worn-out people strong and well again. E. A. Foster, Central Drugstore, Charlottetown.

THE QUEEN'S COUNTY GUARDIAN

It pays to buy in this Province Today is All Fool's Day.

Marcus Calder, Summerside, spent Sunday in Charlottetown.

John Anderson, Charlottetown, was a passenger to Kensington Saturday.

Eight thousand people are wanted to buy tags in aid of the P. E. Island Hospital next Saturday.

Mrs. John Saunders, Charlottetown, will visit her daughter Mrs. Victor Haslam.

Mrs. (Dr.) J. V. McFadyen, Tignish, is visiting in Charlottetown, the guests of her parents, G. H. and Mrs. Holbrook.

Miss Annis Watson, of the teaching staff of Prince Street School, Charlottetown, leaves tomorrow morning en route to Boston where she will visit her mother.

The fire alarm rang yesterday at 10.55 o'clock for a slight blaze in the building on St. Peter's road, Charlottetown, formerly the P. E. Island Hospital. There was little or no damage.

E. Wood, Pownal; P. Doyle, Mt. Stewart; Frank Rosseter, Morell; E. S. McGrath, Mt. Stewart; B. H. Howatt, Bradenline; E. K. Wood, Pownal; J. C. Jenkins, Port Verdon; Wm. F. Brown, Pownal and E. S. Ings, China Point, registered at the Revere Hotel, Charlottetown between 3.40 Saturday night and 10.30 the previous night.

Yesterday afternoon an iceboat owned in Charlottetown skinned out the harbor and up to the Earl Grey as she was fighting her way through the ice in the Bay. Several of the passengers who went out on the iceboat decided to board the Earl Grey and come in on her and the iceboat returned to port. The boys were somewhat disappointed in the steamer failing to reach the Marine Wharf and whether they walked in or obtained message on the teams which brought passengers and mails from the steamer has not been learned.

The Earl Grey in her attempt to reach Charlottetown from Pictou yesterday, as referred to on page one, met with very heavy ice all the way over. The icebarrier reached the Earl Grey was crossed with some difficulty and from that to the point where she was held up, about two miles from the mouth of the harbor, was very hard work. The heaviest of all is just ahead of the steamer, the channel being narrowest at this point. Capt. Brown's efforts to open this port are greatly appreciated and should success not attend him this time it surely won't be for the want of a good trial.

An interesting game of hockey was played in the Charlottetown Arena on Saturday night between the Shamrocks and West Kent School. The W. K. S. boys went out by a score of 12-1. The Shamrocks were without some of their regular men and lined up as follows: goal—S. McWilliams, point—J. Duffy, cover—J. Bethune, rover—J. Gordon, centre—R. Taylor, wings—R. Binns and George Binns. Fred Nash handled the game in a capable and efficient manner.

Quite a crowd of the younger members of the Charlottetown Y. M. C. A., as well as many of the older members, gathered at the Association rooms on Saturday evening to say farewell to C. H. Oberdieck. The program consisted of vocal solos by Miss Campbell, Miss Dorothy Sutherland and Percy Stanley. All were in fine voice and their singing was greatly enjoyed. Professor Barlow gave a whistling solo which was a delight to the boys. Edgar Shaw rendered several readings in his usual capable manner. Speeches were made by Murdoch McKinnon, Dr. J. H. Ayers, Arthur Bruce and Secretary Reilly. Mr. Oberdieck responded to these and spoke briefly of his plans for the Summer. Refreshments were served by the members of the young ladies gymnasium class. Mr. Oberdieck leaves this morning for Georgetown and will cross to the mainland today on his way to New York. All join in wishing him abundant success in his future work.

Train Dispatches Missed For Hull Disaster

OTTAWA, March 29—New light is thrown on the circumstances leading up to the disastrous wreck on the Canadian Pacific Railway line near Hull on Friday, March 8, by the announcement that the company had disannounced from its service the dispatcher who transmitted the order to Harvey Boal, the Hull conductor, to hold the passenger train that was subsequently wrecked.

Boal's failure to hold the train, as ordered, caused the wreck, but it will come as a source for some comfort to his friends to learn that the order was not a regular one any way. Assistant Superintendent Boyle, of the Canadian Pacific Railway Ottawa division, gave out the following statement: "John Francis Cole, train dispatcher, has been dismissed for issuing an order for a freight train to encroach on the schedule of a first class passenger train on time."

BRITISH SUFFRAGETTE LEADER ADVOCATES USE OF TRAYGOT

LONDON, March 29—At a meeting of suffragettes held tonight in protest against what the speaker described as their "base betrayal by the house of commons," Mrs. Despard, who was sentenced to prison in 1909 and was once arrested for picketing the Premier's house, said the time had arrived for the militant suffragettes to adopt more effective methods to get in their desire. She urged, in effect, a boycott. She said the women should not buy hats, which would hurt the tradesmen worse than window smashing, declared that they should not go to sea. Her reports represented in parliament by men of anti-suffragette tendencies and should not subscribe funds to churches or institutions or invest their money in England.

MAGIC BAKING POWDER NO LUMP REFUSE THE JUSTAS GOOD KINDS DON'T BE IMPOSED ON MADE IN CANADA E.W. GILLET CO. LTD. TORONTO, ONT.

BORN

McEWEN—At Bristol on March 21st, 1912, to J. W. and Mrs. McEwen a son (still born).

CAMERON—At Marshfield Place, Augustine's Cove, March 28, 1912, to Austin and Mrs. Cameron (nee Annie Muttart) a daughter.

DIED

HENNESSEY—At Charlottetown, March 31, 1912, Edward Hennessey, aged 7 years. Funeral from his father's residence, 62 Brighton Avenue, this afternoon at 2.45 o'clock to R. C. Cemetery.

CALLAGHAN—At Charlottetown, March 31, 1912, at the residence of his brother-in-law, Jms McMahon, 75 Dorchester St., Patrick Callaghan, aged 84 years. Funeral tomorrow morning at 8.45 to St. Dunstan's Cathedral thence to R. C. Cemetery.

BABY IS KILLED BY SCALDING WATER.

HAVENHILL, March 28—Toddling across the kitchen floor Robert, the eighteen months' old son of Olive and Mrs. Cote of No. 30 High street, fell against his mother's dress, causing her to upset a pan of boiling water, and the child was so frightfully scalded about the face and body that he died two hours later.

SURPRISE PARTY FOR TWO FORMER ST. JOHN MEN.

BOSTON, March 29—Two former St. John men, living in Holyoke, Thomas Edwards and John A. Robb, have received official notice from the Canadian government that they have been placed on the roll of honor and are entitled to medals and a purse of \$100 in gold each which the government is distributing to the men who took part in defence at the time of the Fenian invasion of Canada.

Edwards has resided in Holyoke for twenty-five years. He is a contractor. He says the invasion happened so long ago he can remember but little of it. He was living at St. John at the time and was a member of a militia company which was called upon to defend the city, the regular troops have left. Robb is a plumber and at the time St. John was a member of a company of the uprising was living across from militia company which was called to defend the city. Both men had almost forgotten the uprising and were greatly astonished to receive word from Canada.

A popular horse medicine, MacKinnon's Condition Powder is one of the most popular horse medicines sold here. We honestly recommend it as a superior all round medicine for horses. It cleans the blood, strengthens the stomach and improves the appetite. 25c. large tin. The Mackinnon Drug Co., corner Great George and Kent Streets.

Huntain, Bell & Co., for best coal. Lowest prices. 1-23d1f.

KEITH & PROCTORS FIFTH AVENUE THEATRE NEW YORK.

Another of the record-breaking bills that are making the Fifth Avenue Theatre the most talked-about place of amusement in New York City, the Keith and Proctor brand of vaudeville, is announced for the week of April 1st. Headline features of novelty and song characterize the big program, the predominating factor being comedy.

The renowned author, composer and manager, Mr. Ned Wayburn, will present for the first time one of the very best of vaudeville's grand musical productions, entitled "The Producer." This is a spectacular one-act farce, in three scenes, supported by a company of fifty people. In "The Producer," Mr. Wayburn reveals to the public the trials and tribulations of a manager preparing a big musical comedy.

The big comedy feature of the program will be Mr. Homer B. Mason, Miss Marguerite Keeler and a competent company, presenting for the first time this season a screamingly funny sketch, called "In and Out," a complicated mix-up and considered one of the best comedies on the stage today. Miss Nellie V. Nichols, recently a star at the head of her own company, will make her first appearance in vaudeville this season with an impressive repertoire of vocal material to signalize her return.

Everybody will welcome the appearance of the clever comedy couple from Philadelphia, John and Mac Burke, one of the best variety teams in a post-pourri of nonsense. A special attraction for the children will be the latest feature of the Barnum and Bailey's Circus, Professor Howard's Musical Ponies and Equestrian Dogs, the greatest and the most beautiful of all animal acts especially engaged for this week.

The foreign attraction will be the grand appearance of the beautiful Russian, Miss Olga Petrova, presenting an original study of songs sung in her own delightful way. The performance will conclude with Edgar Berger, recently discovered in the West, who will offer for the first time a brilliant performance in equilibrium work.

STRENUOUS TIME CALCULATING A MEXICAN PAPER.

MEXICO CITY, March 29—Despite the orders of the police the Heraldos was printed at noon and copies of the paper were thrown to the street from windows of the building and the roof.

Fifty policemen who had been stationed in front of the building seized and arrested many of the printers, but a large number of them nevertheless gained circulation. Firemen were called out to aid the police and played the hose on hundreds of news boys who were trying to gather up copies of the paper from the sidewalk. The affair created both indignation and amusement among the large crowd that witnessed the attempts of the police to prevent copies of the edition of the paper getting into circulation. During the excitement Ignacio Lara, circulating manager of the Heraldos, was seized by secret police and gendarmes and taken to the police station. Miguel Martinez, Lara's assistant, also was arrested but was rescued by employers of the paper after a scuffle with the police at the entrance to the Heraldos building.

STOMACH DISTRESS INDIGESTION AND DYSPEPSIA VANISH

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes after careful investigation. If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your Pharmacist a 50-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the chest, Dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

THE FAMINE IN CHINA.

Seven Provinces are affected in them an area approximating 30,000 square miles. The International Famine Relief Committee to make the following estimate of those in need of famine relief during the next few months:

Table with 2 columns: Province, Population. Includes Kiangsu, Anhwei, Szechuan, Chekiang, Kiangsi, Hupeh, Hunan.

\$3.00 will keep a man and work for month and support his family. To provide work for the 600,000 starving families would require at his rate over \$5,000,000. The famine will not end until the middle of May. The peace of the country in the famine regions depends upon providing work for the starving. The Chinese are contributing liberally to the funds of the Committee, but the revolution will, it is feared, make adequate provision by the Chinese impossible.

Please hand in a contribution to your local bank for transmission to the International Banking Corporation, New York or San Francisco. That institution will cable the money out to its Shanghai Branch for payment to the Treasurer of the Central China Famine Relief Committee. The famine is at its worst as you read this. Promptness will save life.

Tillson's Oats advertisement featuring an illustration of a man with a bag of oats and several boxes of Tillson's Rolled Oats. Text includes 'Sold in Packages, Never in Bulk', 'Your grocer will tell you that the selling of foods in packages is a vast improvement over the selling of foods in bulk.', and 'Tillson's Rolled Oats are sold only in packages.'
