DAILY SELECTIONS FOR GUARDIAN READERS

Furnished by W. S. Louson

CALL BACK

If you have gone a little way ahead
of me, call back—
'Twill cheer my heart and help my
feet along the stony track;
And if, perchance, Faith's light is
dim, because the oil is low,
Your call will guide my lagging
course as wearily I go,

Call back, and tell me that He went
with you into the storm;
Call back, and say, He kept you when
That, when the heavens thundered
the forest's roots were torn;
and earthquake shook the hill,
He bore you up and held you where
the very air was still.

Oh, friend, call back, and tell me, for
I cannot see your face;
They say it glows with triumph, and
your feet bound in the race;
But there are mists between us and
my spirit eyes are dim,
And I cannot see the glory, though I

long for word of Him.
But if you'll say He heard you when
your prayer was but a cry,
And if you'll say He saw you
through the night's sin-darken-
ed sky—
If you have gone a little way ahead
oh, friend, call back—
'Twill cheer my heart and help my
feet along the stony track.
—"British Weekly."

OBITUARY.

A remarkable old lady a veritable "mother in Isreal," passed away on June 30th, 1912, in the person of Mrs. Mary MacKay, widow of the late Alexander MacKay, of Fountain Road, New London, at the advanced age of ninety four years.

She came as a bride to the old homestead where she lived until her death seventy six years afterwards.

Aunt Mary, as she was affectionately called by the whole community, whether relatives or not; was beloved and respected by all who knew her.

She was a woman of many virtues. Many visitors to her home will remember with gratitude the kindly welcome which always met them, and the care for their comfort and well being which she ever showed. She retained all her faculties in a wonderful degree to the last. Her soul was full of glory and to this she gave beautiful and repeated expression.

She had been ailing for some time but at last tired nature gave way and she calmly fell asleep in a full age, "like a shock of corn cometh in his season," She belonged to a very large connection, well known throughout the country for their intelligence, uprightness, and unbounded kindness of heart. Off a a family of ten she leaves to mourn,four daughters and two sons, together with a large number of grandchildren and great grandchildren and a large circle of relatives and friends.

The funeral took place on Wednesday, July 2nd, and was very largely attended, the service being conducted at the house and grave by her pastor, Rev. John Murray, and all that was mortal of a loving mother, and kind friend was laid to rest in the Clifton Cemetery beside her husband and two daughters who predeceased her some years ago.

"Blessed are the dead, who die in the Lord."

SUMMER SCHOOL OF SCIENCE OPENS

YARMOUTH, July 11—The twenty-sixth session of the summer school of science, has now begun; at the opening meeting, conducted by Mayor Hood, the teachers were made welcome to the hospitalities and beauties of Yarmouth, the fairest town in the province.

After the address of the mayor, H. Goudy read the explanation of the absence of Judge Pelton, chairman of the school board and of Willard Kempton, supervisor of Yarmouth schools.

Mr. Kempton gave several interesting items of the schools under his charge, and advised all the teachers to avoid professional ruts, not to be self-centered to mix with the world and keep their eyes open.

B. B. Law, M. P., complimented the school on its good looks, spoke on the responsibility of teachers and assured the school that Yarmouth would put itself out to give the visitors a good time.

Mrs. H. A. Nickerson delighted the audience with a solo.

A suggestion by Rev. Father Young, was that the various speakers should have united in one grand chorus of welcome, instead of so many solos. No country can be great until citizens are lifted from the mire of ignorance; for their work in doing this, teachers occupy an exalted position.

The audience was moved to smiles when Rev. Gordon Lewis arose, and gravely said that he had been asked to be the funny man of the evening. He made the teachers welcome to the woods, the fields, the running brooks, and the various beauties of the country.

The welcome of the Krissophian society, was very gracefully presented by Mrs. Hill; she referred to the aim of the society, intellectual improvement, and spoke of the friendships made by his bond. One of the older members of the society sent a poetical welcome to the school.

In a few words, J. M. Lawson gave the welcome from the press.

The ministerial association was represented by the Rev. Mr. Rogers, who illustrated his remarks very aptly.

Mrs. Nickerson and S. C. Hood, jr., sang Larboard Watch.

The last greeting was from the board of trade, the president, William Kelley, assured the visitors that the Yarmouth welcome would stand the test of time.

President Starratt replied to the addresses. He spoke of the great Cameron, who was a member of the first summer school. Yarmouth gave the first large attendance and the first grant to the school.

Some necessary business announcements were made, the botany, which is to be a very large class will be conducted by G. B. Reed, S. B., of Harvard, instructor at the Lowell institute and at Harvard; the zoology instructor will be Professor Perry of Acadia university; Professor Bigelow will teach both chemistry and physics this year, owing to Miss Baxter's illness. Mr. Grant, manual training director of Yarmouth, will take up the work until she can come.

After Mr. Hood's song, Dearest Heart, by Mattie, the welcome meeting came to an end with the national anthem.

FORMER CHAMPIONDEAD.

BOSTON, July 11—Inspector of Police James S. O'Neil, former single scull champion of New England, died at his home in Chelsea last night of a complication of diseases. He was 58 years old.

JUST A MINUTE.

We are told there are 145,000,000 secluded women in India.

The first Woman's Good Roads Convention was lately held in Tacoma, with 148 voting women present. Good roads have more to do with good housekeeping than many people think.

Recently a branch of the Alberta Woman's Association was organized to promote the higher education of women and to supplement the work of the various university boards by providing high school and university scolarships. Only university graduates and the wives of members of the senates of universities are eligible for membership.

In Canada, putting it at a low estimate, there are 400,008 women self-supporting. In the city of Toronto there are between 35,000 and 40,000 women and girls employed in factories, and between 40,000 and 45,000 in business. Fully 10,000 of these are away from home boarding and the same state of things is in every city and large town in the Dominion.

JULY CIRCULAR.

Charlottetown, P. E. I.,
July 10th, 1912.

The weather during the last month has been too dry for the favorable growth of crops. The total rainfall amounted to 1.71 inches. The first week of June was very showery, the second fine and cool with a lot of north west wind blowing. There was a very heavy rainfall on Monday, June 17th, The last half of the month was fine and warm with the exception of Sunday, the 30th, which was cold and showery. Up to the time of writing, July has been very warm and dry, light showers however fell on the evenings of the 8th, and 9th. A heavy fall of rain is badly needed. Pastures are beginning to be pretty bare. The hay crop will be very much below average and weedier than usual. There is very little of last year's crop left over, so that it will likely be very dear. Quite a lot of oats and peas will be cut green and made up into hay. All kinds of grain look healthy. Growth, however, has not been rapid and the straw is short for the season of the year. The dry weather is beginning to effect the colour.

Potatoes have come up well, and are making rapid growth. The Potato Beetle is very plentiful. A considerable amount of Arsenate of Lead will be used this year instead of Paris Green, Turnips, where sown early are doing well. The cut worm is making great destruction among those sown later. It is reported to be cutting even potatoes.

There is a fair setting of apples, plums and cherries and an abundant setting of strawberries and bush fruits. The dry weather is however shortening the crop of strawberries.

Weeds are continuing to spread, the present season has been very favorable for them.

All kinds of live stock are scarce and dear. The following are the market prices, for July 10th, 1912:—

White oats, per hundred lbs,	$1.91	Black oats, per hundred lbs,	$2.00
		Wheat, per hundred lbs,	$2.15
		Potatoes, per hundred lbs,	.67
		Hay, per hundted lbs,	.75
		Straw, per hundred lbs,	.32
		Beef Cattle, per hundred lbs,	$6.75
		Butter, per hundred lbs,	$22.00
		Eggs, per dozen	.15
		Strawberries, 3 boxes for	.25

WHEN YOU BUY PORK AND BEANS BUY

DAVIES'

Pork and beans make a popular dish where DAVIES' are served. Their finer flavor is evident with the first taste. The beans are mealy and whole—never mushy. Order a tin to-day.

A Pointed Question

When Your Clothes line breaks and your wash falls in the MUD what do you say? To put it mildly its unpleasant. It means extra labor, extra time, extra soap and coal house all mussed up another day.

To avoid all such let us do your flat work. Your goods are carefully handled, cleanly washed nicely ironed promptly, returned if intrusted to US.

Telephone 151 and our team will call
