USE 3,000,000 MATCHES A MIN.

TORONTO, Feb. 6—A Washington despatch says: By the end of the brief minute taken to read these lines the nations of the civilized world will have struck 3,000,000 matches. This is the average of every minute of the twenty-four hours of the day. Seven billion is the number for each year, and those living under the American flag are said to be responsible for the consumption of one-half this amount.

The importance of the industry which turns out the little splinters of wood tipped with sulphur or some other material ignited by friction is only recognized when the average smoker tries to contemplate his predicament if he had to go back to the time when he had to coax a spark from a tinder box.

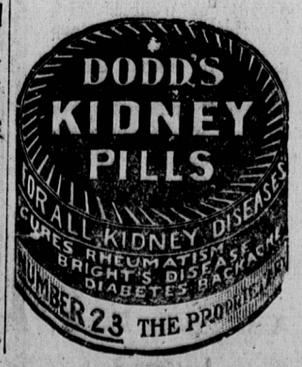
The answer is, he would smoke a great deal less because of the difficulty in getting a light, or else smoke continuously in order to keep alive the fire at the end of his stogie or Havana, pipe or cigarette.

Small and insignificant as it is, the match demands perhaps as much attention in the choice of the wood going into its manufacture as any other forest product. Only the choicest portions of the best trees are suitable. Sapwood, knotty or cross grained timber will not do.

Instead of being a by product of other articles of manufacture, the little match is turned out at hundreds of mills over the country where the by products are bulky objects like doors, sash, shingles, siding posts and cord wood. Pine, linden, aspen, white cedar, poplar, birch and willow are the most suitable timbers.

The matchmakers—not the matrimonial kind—are already finding that the amount of choice timber available is dwindling. Forest conservation, if applied to the holdings of the match companies, as it is on Uncle Sam's national forest in the west, will do much to make the supply sufficient for a larger number of years than would be the case if the old time wastful lumbering methods of a few tears ago should continue.

The rapid increase in stumpage prices is one of the chief factors in encouraging the wise use of the forest where suitable match timber is available.



WILL PAY FREIGHT TO MONTREAL.

ST. JOHN, Feb. 6—Manager H. P. Good, of the Dominion Exhibition, announced yesterday that all exhibitors coming to the big fair from points west of Montreal will have the freight paid on their exhibits from the point of starting to Montreal. From Montreal to St. John the freight charges will be borne by the exhibitor. This means that the Vancouver manufacturer is placed on an equality with Montreal firms in the matter of bringing exhibits to the St. John fair. The proposition of the local association is a very liberal one and will no doubt prove an incentive to western manufacturers to show their goods in the east.

PRESENTATION.

On Wednesday evening, Feb. 2nd, a large number of the friends of Mrs. Wm. M. Field met at the Westmorland Baptist Church and at the close of the prayer service presented her with an address and a purse of $25. John Simmons called the company to order and invited Mrs. Field to the platform. Harry Best read the address and made the presentation. The address was as follows: Dear Mrs Field:—Since coming in and out amongst us, we feel that by your kindness and love, you have endeared yourself to the hearts of all. Therefore, in some tangible way, we wish to show our appreciation. And now, dear sister, we ask you to accept the purse, which accompanies the address, as a token and an earnest of the respect, the love, gratitude and the best wishes of those who have the honor to be your friends, the members of the congregation of Westmorland. The Rev. Wm. M. Field, who also was presented with a pair of driving mitts, in his reply, said, in part: This presentation does not surprise us, not because we think that we deserve it, but because of the generosity of the heart of the congregation. We have been among you for two years, and the joys and sorrows during that period have been shared alike. I feel that I owe as much to the church as the church owes to me. If I have had any success, it is due to the fact that I have had a people of intelligence before me when in the pulpit. He thanked the people most warmly in behalf of Mrs. Field for thus sharing their joy on this occasion and for the valuable gifts presented. The happy evening was ended by singing "God Be With You Till We Meet Again."

He made the trip here through the agency of the Salvation Army and at the request of Adjt. Jennings was met on the arrival of the Britain by Adjt. Carter.

In addition to Mr. Leigh and family other arrivals by the big C.P.R. liner, who came through the Salvation Army, were Mr. Wilson and family, Messrs. McGILL IN TORONTO AFTER SERVING TIME

TORONTO, Feb. 6—Charles McGill, formerly manager of the Ontario Bank, arrived in Toronto from Kingston this afternoon. He was accompanied by his brother, with whom he will remain in Toronto for a time at least. It had been reported that Mr. McGill was going through to Chicago to his son there, but the brother stated that it was not his intentions.

Mr. McGill was a little thinner, a little more stooped, but not so nervous as when he left Toronto three years ago.

"Yes, I am glad to be back," said the former banker. "I am glad to be free. If I have done wrong I have paid the penalty. If others could say the same there might be another story. Now boys I don't want to say much. When I get used to things a bit and look around I may have something fuller to say."
