Money to Loan

for Coughs

SMILES

DELINQUENT

"Dear, are you keeping our ac-

count up weekly?"

"Yes, very weakly."

THEY COVER THE GROUND

He: I tell you when I walk

cover the ground.

She: Yes, big feet are certainly

an advantage in covering the

ground.

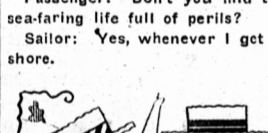

ONLY WHEN ON SHORE

Passenger: Don't you find this

sea-faring life full of perils?

Sailor: Yes, whenever I get or

shore.

'TWOULD BE A VAIN CHASE

"When you get a drink do you

follow it with a chaser?"

"When I get a drink, man, there

ain't no use for anything to chas-

er—it's too soon out of sight."

Syd Chaplin spends less money on

clothes than any other Warner player

the costume department says. In

"The Missing Link," Chaplin wears

a suit which he cost in the old

times several years ago. His ex-

penditure account for costume on this

picture, in round numbers, is just

nothing.

Best Way to Loosen Stubborn Cough

This home-made remedy is a wonder

for quick results. Easily and

cheaply made.

yearly renewal. Now is the time

to get one before our supply is

exhausted.

HALLOW E'EN TEA in L. of C.

Hall on Wednesday and Thursday,

27th and 28th, in aid of Charlot-

te town Hospital. Tea tables, fancy

tables and candy tables.

THANKSGIVING DAY—His

Honor Lieutenant Governor Hearsh

Dr. and Mrs. F. E. Smallwood Return From West

Dr. and Mrs. F. E. Smallwood re-

turned Monday night from a tour

out West as far as High River, Al-

berta, where they visited Mrs.

Smallwood's sister, Mrs. F. D. Blake-

and her brother Mr. Charles Far-

quharson, who has been in the hard-

ware business there and at Blackie

for many years. They left Charlot-

te town on Sept. 15th, and proceed-

ed to Montreal, thence to Winnipeg

and on to Calgary and finally to

High River. The weather experi-

enced so far as Upper Canada was

concerned was normal, but when

the visitors reached the Middle

West they experienced wintry con-

ditions. At Calgary when they ar-

rived they were welcomed by a

snow storm, and found icicles hang-

ing from the roofs of the buildings.

The weather in southern Alberta

has broken early and has been ex-

ceedingly bad for the crops much

of which was still unthreshed. The

farmers, however, are by no means

despondent, the crop having been

so heavy that even with the losses,

they should have a good season's

return. Dr. and Mrs. Smallwood

stayed three weeks in Alberta, vi-

siting different places, one of the

most interesting being the Turner

Valley Oilfields, about twenty-five

miles west of Calgary. There they

have not yet struck any crude oil,

but are obtaining gas in unlimited

quantities, and some of the wells

are producing almost pure gasoline.

The gas is piped to Calgary, where

it is used for cooking and heating,

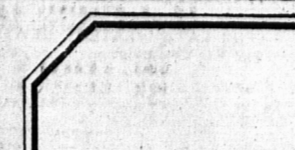

a tremendous advantage which the

Calgarians fully appreciate. The

visitors had planned visiting the

Prince's Ranch, but the roads were

so bad owing to winter conditions

J. L. Kraft, a Canadian, is the inventor of the Cheese which bears his name. Rigid adherence to high ideals and great perseverance have enabled him to build an industry that is the largest of its kind in the world.

KRAFT Cheese has such a delicate and unvarying flavor and every delicious particle of it is so perfectly digestible that it enjoys a wide popularity all over the world.

Trained men, raised in the KRAFT organization, watch every step in the production of the cheese which is carefully aged, blended and pasteurized. They never relax their vigilance nor fall below the high standards set for the House of KRAFT by its founder. Thus the KRAFT quality is always maintained in every package of the cheese that bears the trade-mark found below.

The consequence is that wherever this cheese is tasted, it is demanded, until it is now being sold all over Canada, the United

States, Great Britain, a part of the Continent and in far-away Australia. Manufacturing plants in: Montreal, Canada; Chicago and San Francisco, U.S.A.; London, England; Melbourne, Australia.

There is only one way to satisfy yourself that you are getting KRAFT, and that is to look for the name on the package.

You can buy KRAFT Cheese in five varieties—to suit any taste—and they are all as good as KRAFT can make them—KRAFT Canadian, Pimiento (Spanish peppers added), Swiss (Gruyere), Limburger and Camembert.

THE MARKETS

(Canadian Press)

MONTREAL, Oct. 19.—There was a fairly good demand from the United Kingdom and the continent for Manitoba spring wheat on the Montreal market today and exporters stated that all the offers made over the week end were accepted.

There was also some business accomplished in Canadian Western barley. The strength in local freight market was full maintained and prices are steady tending towards higher level with engagements of heavy grain reported from Montreal to Avonmouth at 76 3/4 to 76 6/8 per quarter for November loading with 8s now asked the trade in cash. Grain in the local market was quiet, but the undertone was very firm in sympathy with higher prices ruling in the markets owing to the strength that prevailed in the cash wheat situation at Winnipeg.

A stronger tone developed in the spring wheat flour market, here and prices were advanced twenty cents per barrel. Car lots of first patents were quoted at \$8.10, second patents at \$7.60 and strong bakers at \$7.40 per barrel. The export trade was firm and movement for local accounts was steady. Prices for all grades of winter wheat flour were well maintained under a good demand from all sources, moderate amount of business was worked in most lines of mill feed and values were unchanged.

A fair amount of business was transacted in the standard grades of rolled oats and the feeling was steady.

The feature of the local egg trade was the somewhat scarcity of strictly fresh extras and the undertone to the market "as stronger with sales of small lots in a whole-sale way at 49 cents per doz points of shipment and it was stated that some holders in Ontario were asking as high as 50 cents per doz. There was no change in jobbing prices but the feeling was firmer

under improved demand. The receipts were 708 cases.

The demand for potatoes was good 117 packages.

Owing to the continued steady demand from the United States for dairy cows and bulls and the few mountains were made at \$1.80 per bag and Quebec white stock at \$1.50 per bag of 90 lbs.

The volume of business done in corn No. 1 white and colored quoted at 17 1/8 to 17 1/4 per lb. and in beans was firm. Car lots of choice white Eastern grades at 16 5/8 to 16 3/4 were steady at yesterday's prices. Handpicked were \$2.50 and smaller per lb receipts were 4,534 boxes.

A feature of the butter market was stronger feeling that developed and prices scored an advance of 1/2 to 1 cents per lb. This attributed to improved demand.

1 pasteurized was quoted at 32 3/4 this morning amounted to 183 to 35 per pound. The receipts were 117 packages.

Owing to the continued steady demand from the United States for dairy cows and bulls and the few mountains were made at \$1.75 and \$3.30 for the cows and \$3.25 to \$3.50 for the bulls. A dozen or more veal calves sold for \$11.00 to \$11.50 and grass calves \$3.75 to \$4.25. Lambs were steady at yesterday's prices. Good lambs \$11.15 to \$11.25 with a few choice at \$11.50 and common lambs \$10.50 to \$11.00. Hogs were stronger and quotations today were select \$12.75, thick smooths and shops \$12.00 to \$12.10, sows \$9.00 to \$9.25 and \$9.50.
