HALLOWEEN SOCIAL—On Monday evening, November 2nd, the P. U. of Alexandra held a Halloween social at the home of Mr. and Mrs. Earle Jenkins, Cross Roads. The guests as they arrived, were met at the door by two people, representing a witch and ghost, who in turn shook hands, and showed them into a dimly lighted room, which was appropriately decorated for the occasion. The antics of the Masqueraders caused much merriment until the time came to unmask. The remainder of the evening was spent in games, contests, fortune telling, etc., after which a delightful Halloween lunch was served by Mrs. Jenkins assisted by her charming daughters, Elva and Mary. The singing of old familiar songs, brought a most enjoyable evening to a close.

DONATION RECEIVED—The large sum of \$16.50 was the splendid donation recently given to the Red Cross for the Crippled Children's Fund by a group of Junior Red Cross members of West Kent School under the leadership of Pete Paton, namely: Bill Tidmarsh, Tom DeBlois, Douglas and Jackie Nicholson, Jerry Foster, Artie Wright and Temple Hooper. These energetic Juniors planned and put on a most enjoyable afternoon and evening entertainment to large and enthusiastic audiences of friends and parents. Foster's Dance Hall was very kindly given by Mr. C. H. Foster for the occasion and the boys decorated it gayly with Red Cross pennants and posters, and cleverly constructed a stage of packing boxes. There were recitations, jokes, conjuring tricks, a boxing match and pillow fight, original school and detective plays, all amusingly done by the boys; also bagpipe and accordion selections by Mr. Joseph Duncan. The most popular event was the health play—"The Trial of Jimmie Germ" in which all the young performers took part wearing fantastic costumes and in which the Queen and her scouts of Sunshine, Fresh Air, Soap, etc., made quick work of the offending Jimmie Germ. Loud cheers and handclapping followed each number and the entertainment, successfully concluded with a vote of thanks extended by Bill Tidmarsh to Mr. Foster for the use of the hall and organ, and the singing of the National Anthem.

CHIGNECTO COMMISSION ENDS TOUR

CAMPBELLTON, N. B., Nov. 6.—The Royal Commission appointed by the Federal Government to inquire into the feasibility of the proposed canal through the Isthmus of Chignecto brought its two weeks' sittings through the Maritime Provinces to a close here yesterday and the members left for their homes. It is not known definitely what procedure will follow. Data has to be gathered by correspondence and compiled. Sittings at St. Lawrence Ports, and possibly Boston, Mass., are regarded as probable.

W. C. T. U.

The quarterly meeting of the Queens County W. C. T. U. was held yesterday, Nov. 6 in St. Paul's Parish Hall. Lunch was served at 12.30 p. m. after which the meeting opened with singing "O Hymn Band of Pilgrims" followed by the scripture lesson Romans 14th by Mrs. H. D. Raymond, Mrs. Metcalfe then led in prayer. Solo by Miss M. Sterns. Roll call was answered by a good representation from Seven Unions. The minutes of last annual meeting were read and adopted. Mrs. Thompson, Pres. President, announced that an Oratorical Contest is being prepared by Miss Sterns and Miss Watson on Temperance and hoped all would do their best to put it through successfully in their Unions. The S. School Temperance Contest was discussed and the papers will soon be in the hands of the Examiners. Mrs. B. C. Woolmer of North Rustico gave a short talk and read a beautiful poem. Mrs. Metcalfe of Victoria gave a number of helpful suggestions and Miss E. Vessey of York, spoke of the good impressions made on children, often by simple stories told by their mothers and others who were looking to their future life. She also read extracts from a sermon which had impressed her. Mrs. Boothroyd of Hunter River brought some reports of a meeting in New Glasgow, N. S., which as a delegate she recently attended. Remarks were also made by Mrs. Jones of Pownall, Mrs. Johnson and Mrs. Campbell, City, of the need of work among the young boys and girls. The different unions were asked to hold public meetings and present this work in song and prose, to all that may become more interested and active in this great work for the good of humanity. The meeting then closed with the Mizpah Benediction.

German Potatoes in Cardiff

Ten thousand bags of German potatoes were landed in Cardiff in one day. Cargoes of iron and steel bars and billets arrive daily for the Welsh tinplate industry from Sweden, Belgium, France and Germany. Ready-made clothing is arriving at Hull in large quantities from Poland, Germany and Holland.

CONFIDENCE

Gold production in August, 1930, amounted to 170,652 ounces, in July, 1931; 223,734 ounces in August, 1931; 225,630 ounces and in September, 1931, 239,552 ounces, a gradual increase to \$55,000,000 per annum. Canada's adverse trade balance with the United States for the first nine months of 1930 was \$204,000,000 and for the first nine months of 1931 had decreased to \$111,000,000. For the third quarter of 1930 it stood at \$66,000,000 and for the third quarter of 1931 only \$16,000,000. Last month for the first time in many years the balance was favorable to Canada.

UPWARD TREND

OTTAWA, Ont., Nov. 6—A continued favorable trend in Canada is shown by government statistics issued this week, states a report issued by the department of trade and commerce tonight. Figures show, says the report, the first advance in the wholesale price index since August 1, 1929; increased output of hydro-electricity; a continued upward swing in industrial and public utility common stocks on Canadian markets and increased production of coal, petroleum and other minerals.

The report states the most favorable factor was the upswing in wholesale prices, recording advances in grain values and in iron and iron products, in electrolytic copper, lead, silver, tin and zinc. The advance in prices of non-ferrous metals is calculated to benefit to a considerable extent mining in Canada of copper, silver, lead, tin and zinc.

Tests have shown that airplanes coated with wax travel faster than those treated with the usual varnish, the wax reducing the air friction.

Outlook Hopeful

"The outlook for British industry," says the Monthly Review of Barclay's Bank, "is now regarded more hopefully than for some time past." Nor is old-fashioned barter forgotten. Just as the United States have traded wheat for Brazilian coffee, so the English and Scottish fishing interests are now offering 100,000 barrels of cured herring to the Soviet Government in exchange for Russian timber.

Foreign apprehensions over the anticipated British tariff are reflected in heavy continental shipments to British ports. The port of London has been more active than during any autumn for some years.

PUBLIC FORUM

This column is open for the discussion by correspondents of questions of interest. The Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

AN ANOMALY

Sir,—The farce of fining an intoxicated auto driver a paltry \$5.00 to \$10.00 with a few days jail, and mulcting a sober man, who happens to have a bottle of liquor unlawfully in his possession in the sum of \$200.00 is a matter that should be considered seriously by the government and legislature. Remember, I am not excusing or palliating the offense of the latter.

If the magistrate who imposes such penalties has not the power to do more justly than this, then enabling legislation should be passed giving such power. If he has the power he should exercise it with better judgment. Give the intoxicated driver two years in the pen, cancel his license and confiscate his car.

I am, Sir, etc., CRITIC.

MAHARAJAS JEWELS STOLEN

LONDON, Nov. 6. (A.P.)—Emeralds, diamonds and rubies valued at about \$40,000 and about which the legends and traditions of Hindustan have built an atmosphere of romance have been stolen from one of the Indian potentates attending the round table conference.

The youthful Maharaja Dhiraaj Kameshwar Singh of Dharbhanga discovered the loss of the jewels last night when he went to his palatial suite in his hotel overlooking the Thames. Police were notified and a considerable squad of Scotland Yard's most apt young men were sent to find the thief who, they said, walked into the hotel, went to the bedroom, opened the jewelry case and left without difficulty.

THE CHINESE VISIT POPE PIUS

ROME, Nov. 6. (A.P.)—Premier Mussolini's state visit to Pope Pius XI, arranged as a public demonstration that the church and state in Italy once more are living in accord, was set for next Monday.

The Premier will be received with honors conforming with his high office when finally he makes his long deferred call at Vatican City. Since the accord between the Pontiff and the Premier was completed September 2, Signor Mussolini has intended making a visit of state as evidence to his people that there is peace with the church and that Fascism truly respects the church, but he has told friends that he was waiting "until the time comes."

By that, he was understood to mean he wanted to make sure the state was working smoothly, that there might be no further friction.

COMMUNISTS BAD FIRE AT FACTORY YESTERDAY

Continued from page 1

A document purported to have been written by "Vassiliev" at Moscow, extracts from which were read to the court.

One extract dealt with the formation of "proletarian self defense" and suggested Communists should practise throwing stones at a target so that when disorders occurred their aim should be effective. This document, however, was repudiated by Buck this afternoon. He declared he had never even seen it, although he knew there were copies in existence. It had been written for Communist guidance in "Fascist" countries, he believed.

"Willing Worker"

He knew Sergeant John Leopold, "under cover" man for the Royal Canadian Mounted Police, as Comrade E. W. Esselwain. Leopold for seven years had been secretary of the Regina branch of the Communist Party while searching for evidence against the organization. Leopold was known, Buck said, as a willing worker for the Communist cause.

The evidence this afternoon became exceedingly academic as Buck explained, in response to the questions of Hugh John MacDonald, defence counsel, the aims and practices of the Communist Party. He propounded the theories of Marx, Lenin and Engels, and explained that "revolutionary Marxism" is a term commonly used by the party, was a philosophy developed at the beginning of the nineteenth century. It was a Marxist method of analysis of history as one unit of evolutionary development repeating itself all over again. In other words, he said, the basic philosophy of Marx was material. "Revolution," as used in that sense was not based on the conception of either violent or peaceful revolution. It might be either, depending on the co-relation of forces at the time.

The Empire May Listen In

LONDON, Nov. 6.—(A.P.)—The British Broadcasting Company announced tonight that it will proceed immediately with plans for erection of a short wave broadcasting station to which the whole British Empire can listen. The project has been under discussion for some time.

Fox Biscuit Factory Building Badly Gutted And Equipment Destroyed.

A serious fire occurred about 7 o'clock yesterday morning when the factory of the Prince Edward Island Fox Biscuit Company, Grafton St. East, was badly gutted and a large part of the equipment destroyed.

The alarm rang about 7.05, the engines arrived and the firemen soon had three lines of hose laid from the hydrant at the corner of Edward and Grafton Streets.

The whole east side of the building was by this time on fire. Upon opening the door of the coal shed the firemen were met by a solid mass of flame from the burning coal pile, this was extinguished without much difficulty.

The most persistent blaze was confined to the south end of the building where the drying kilns are located, the fire breaking through the walls and roof in many places. The fire was completely under control by 8.15. With the exception of the boiler room which was a building remains standing, the stock consisting of about three tons of biscuits on the kilns, and some two tons more in bags was ruined by fire and water. Only the day before 600 bags of flour had been placed in the building also 1000 new biscuit bags all of which is a loss. The block of ovens costing \$4,000 was cracked by the heat and may necessitate rebuilding. Much valuable machinery including a stamping machine worth \$4,500 was damaged, it is unknown yet whether it will be of any further use or not. The loss is partly covered by insurance.

The fire which broke out after the night watchman had left and before the arrival of the workmen is thought to have originated in the boiler room, the exact cause being unknown.

Shoots Man Who Took Her Money

(Canadian Press) DETROIT, Mich., Nov. 6.—A woman who told her \$40,000 inheritance had been "squandered by a man who preys on innocent persons," came upon Lyness Tromley, 29, in a downtown broker's office today, whipped a revolver from her hand bag and fired five times.

Although all of the bullets found their mark in Tromley's body, he was not seriously wounded. The woman, Mrs. Dorothy Hoffman, turned the revolver on herself after shooting Tromley, but the gun missed fire. She fell in a faint in the lobby of the broker's office, and while hundreds milled about the doors, both were taken to a hospital in an ambulance.

Police said they found that Tromley, who posed as a financial adviser, had been arrested eleven times, seven of the arrests for obtaining money under false pretences. He had never been convicted. Pending investigation, police withheld charges against either Mrs. Hoffman or Tromley.

The clock in the tower of the Berlin city hall has run for more than 60 years without stopping, which is believed to be the world's record.
