MILK BOTTLE SHORTAGE

All the Milk Vendors are very short of milk bottles, and have reason to believe there are many bottles in the homes of our citizens, and do most respectfully request all citizens to gather up the milk bottles, and set them out for the drivers.

After many weeks of preparation, St. Mary's Parish, officially opened their annual two day chicken supper and games on October 12th in St. Mary's Parish Hall and the Exhibition building. Each member of the parish took a keen interest in the supplying of materials and food, thus creating a lively interest and unity throughout the parish. Well over five hundred people patronized the event this year despite the fact that old man weather dealt a mean hand, causing rain and making work more difficult for the workers and for the out-of-town people who visited the supper. St. Mary's Parish hall, with a seating capacity of 1,000, was over two hundred people, served hot chicken suppers from five until ten o'clock in the evening. The dinner, being deliciously served, proved a great treat for those who patronized that end of the program. For the amusement, one had just to cross the road and enter the large exhibition building, and there, many booths pleasantly arranged provided much to take up one's time. The bingo booth, which occupied the centre of the building, and by far the largest, drew large crowds both nights. Joe Cheverie called out the numbers while many helped selling cards, including Omar and Jerry Cheverie. Just above the bingo booth was the card table, which was largely attended this year. Many good prizes were offered, one worthy of mention being two turkeys. Other games along the side of the building included the wheel of fortune, the money game, the large booth, where fancy work was sold, and Judge. The ice cream booth operated by Reggie Cheverie, Alfred Gallant and St. J. Cheverie did a big business both nights. The dice game was operated by Peter MacLennan and Max MacDare, while the fishing pond was greatly appreciated by the children. Thus the committee, and all who have helped, smiles a smile of satisfaction and prepare for an even greater success and program next year.

ADVICE TO WIVES ABOUT ODD JOBS

The young wife was complaining, because her husband was coming home from his law office so late in the evenings that he didn't have time to do the yard work. "Did it ever occur to you," he asked her, "that I might be worth more to you as a lawyer than as a yard man?"

If they looked at it from that point of view, a lot of wives might be less demanding of their husbands' time and energy, comments Ruth Millett.

And then there are the wives like Sue, inefficient, clinging vines who refuse to carry their household responsibilities without help. It just might be worth more to them as full-time breadwinners than as breadwinners whose minds are forever cluttered up with family problems.
