

COLLAPSED ON FIRST BED

Kidneys were terrible, Hamilton woman declares. Blesses Gin Pills

To Mrs. Louisa Pike life was unbearable. She admits frankly, "I had backache almost continually—could not carry a pail of water without getting dizzy or giddy."

What a plight to be in! But this wasn't all. Mrs. Pike's letter states further, "I couldn't sweep the floor without sitting down frequently, or walk upstairs without collapsing on the first bed. I decided to try Gin Pills," she goes on, "and now I feel the best I have ever felt in my life."

Attention to your kidneys now may save you pain and money later. Take Gin Pills the very first time you notice symptoms of trouble—backache, dizzy spells, spots before your eyes, headaches, swollen joints, brick dust in urine, a burning sensation attendant on scanty or too frequent urination. Soothe and strengthen your kidneys. Stay healthy. 50¢ a box at your drug store. National Drug & Chemical Co. of Canada Limited, Toronto, Canada.

Increase

—Continued from page 9—

The Grand Jury made of the Georgetown jail was that it was dirty, and the Minister of Public Works says it is in the same condition yet. So that report of the Grand Jury on the Georgetown jail has had no effect. Is that what we are to understand? It just shows that my hon. friends want to take their own opinion. They do not pay any attention to the Grand Jury or anyone else. If they say the jail is clean, then the jail is clean; notwithstanding that the Grand Jury and the Judge say it is not clean. They are better judges than either. I suppose. (Applause).

Juvenile Delinquents
Mr. Stewart: I notice that last year, when you voted \$500 for Miscellaneous Services, in the Department of Justice, the expenditures were practically \$1,500. Can my hon. friend explain why it was so large, and why in the face of that increase, he is making the estimate so small this year.

Premier Saunders: If you notice, there is an item, Juvenile Delinquents, \$1,000. Immediately below. Under Miscellaneous Services we had some delinquents for whom we had to pay a certain amount of money, and this year we are putting that item in the bill for the first time. At the present time we have three over in the Reformatory, at a cost of somewhere about \$650, and we feel, with the many demands that have been made, that if we can get off with an additional \$350 we will be doing very well in that respect; because we have had demands from both Charlottetown and Summerside quite frequently.

The two items together will be about the same as last year.

Hon. Mr. Stewart: Can my hon. friend tell me how much of that \$1,492.88 of expenditure in 1928 was spent for juvenile delinquents.

Premier Saunders: \$950.00.

Hon. Mr. Stewart: What were the other expenditures, in a general way, in that item "Miscellaneous"?

Premier Saunders: I am not in a position to say.

Hon. Mr. Stewart: Are there any law costs included there?

Premier Saunders: I can't say.

Hon. Mr. Stewart: Any attorney fees in that?

Premier Saunders: I couldn't say.

If you wish we will get it for you.

Hon. Mr. Stewart: Very good.

(To be continued)

THE SEED PLOT IS THE BEST METHOD OF CONTROLLING VIRUS DISEASE OF POTATOES

(Experimental Farm Notes)
The most serious problem of seed potato production is that of the control of virus diseases, such as mosaic, leaf roll, etc.

Experience has shown, that roguing is never effective in fields containing a high percentage of these diseases, and that selection of the best type of potatoes from such fields is of no value as a control measure.

Experiments indicate the advisability of securing certified seed and planting this in an isolated field or seed plot. The maintenance of a seed plot is suggested by authorities on potato diseases and is recognized by experienced growers to be the most effective method of potato improvement. The production of disease free seed can be accomplished only by the tuber-unit seed plot. Tuber-unit seed plots are established as follows:—cut each selected tuber separately just before planting, in the field itself, and plant all the sets of the same tuber in consecutive hills. The total sets cut from one tuber form one tuber unit. This method of keeping the sets of each tuber together makes disease detection more certain and reduces the time needed for roguing which is

Only a few days left for DOMINION Income Tax RETURNS Due April 30

After April 30th the law imposes penalties for delay

If you have not already declared your 1928 income for Dominion Taxation purposes, do so without delay. You have only a few days left. You may pay your tax in one lump sum, or in instalments, plus interest. Every person liable to pay Dominion Income Tax should obtain three copies of the official form, either from his Postmaster or from the Inspector of Income Tax in his district. These forms are:

Form T 1 —For all individuals, other than farmers or ranchers.
Form T 1A —For farmers or ranchers.
Form T 2 —For corporations and joint stock companies.

Note carefully the instructions on the form. Fill in all details accurately and answer all questions. Make up the amount of your tax. You can do this with the help of the accompanying table. Mail two copies, properly filled in and signed, to the Income Tax Inspector for your district, together with an accepted bank cheque or money order for the full amount of your tax, or for the first instalment. Keep the third copy for your own reference. Be sure to have these returns mailed before April 30.

Canada's Income Tax Schedule

Below is the official schedule of Dominion Income Taxation for persons other than Corporations and Joint Stock Companies.

The amounts mentioned in this schedule are those after all exemptions have been subtracted. After calculating the amount of the tax payable according to the schedule, the taxpayer will deduct 20 per centum.

On the first \$2,000 of income or any portion thereof...	Rate of Taxation %
On the amount in excess of \$2,000	3%
4,000	4%
5,000	5%
6,000	6%
7,000	7%
8,000	8%
9,000	9%
10,000	10%
11,000	11%
12,000	12%
13,000	13%
14,000	14%
15,000	15%
16,000	16%
17,000	17%
18,000	18%
19,000	19%
20,000	20%
25,000	25%
30,000	30%
35,000	35%
40,000	40%
45,000	45%
50,000	50%
55,000	55%
60,000	60%
65,000	65%
70,000	70%
75,000	75%
80,000	80%
85,000	85%
90,000	90%
95,000	95%
100,000	100%
110,000	110%
120,000	120%
130,000	130%
140,000	140%
150,000	150%
175,000	175%
200,000	200%
250,000	250%
300,000	300%
350,000	350%
400,000	400%
450,000	450%
500,000	500%

The rate of tax applicable to Corporations and Joint Stock Companies is eight (8) per centum on the income in excess of \$2,000.

LOCATION OF INCOME TAX INSPECTORS

Inspectors of Dominion Income Tax are located in convenient places throughout Canada. Consult the Income Tax office nearest to you. Address "Inspector of Dominion Income Tax." The offices are at:

Dawson, Yukon Territory.

The Department of National Revenue INCOME TAX DIVISION, OTTAWA

Honourable W. D. EULER, Minister of National Revenue. C. S. WALTERS, Commissioner of Income Tax.

accomplished by throwing out each diseased unit as soon as discovered. The grower should remember that every diseased unit removed from his seed plot means from five to twenty five times less disease in his crop the following year.

Harvesting of the tuber unit plot should be done by hand, taking care to select hills for high yield, freedom from disease, improved vigour, or fine type, for a seed plot the following year. The balance of the crop from the seed plot should be stored in a separate bin and should provide the seed for planting the commercial field the following year.

Experiments show a marked increase in quality and yield of the potatoes from a seed plot selected section and roguing the entire unit in this manner. Repeated field selections and roguing the entire unit where necessary should keep the percentage of diseased plants grown from such stock to within 1 per cent. Many growers have reported greatly increased yields by following the tuber unit seed plot method of

improving seed potatoes. The following points should be kept in mind.

(1) Select a good strain of certified seed potatoes as free from any disease as possible.

(2) Select only the best type of tuber for planting in the seed plot.

(3) Keep this seed plot away from all other potato fields by a distance of at least 200 feet, to minimize the possibility of virus disease being carried by aphids or plant lice from commercial fields to the seed plot.

(4) Rogue this plot severely, early, and frequently, removing the entire unit, even if only one suspicious hill shows up in a unit.

(5) Select tubers of the best varietal type and use the best only for next year's seed plot. The rest can be used for commercial planting.

By this method, and with good soil and cultivation, with the seed treated for scab, etc., and by thorough spraying, one can hardly fail to produce seed of high quality. B. Bar-Dominion Laboratory of Plant Pathology, Ste. Anne de la Pocatiere, P. E.

relieves Asthma at Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize all remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy.

Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Miss Irene Cairns, Charlottetown, spent the week end in St. Thomas a guest of Mr. and Mrs. P. Curran.

Why Not Get What You Pay For in Bus-Truck Tire Service?

In buying Bus-Truck tires you pay for so many miles of service. If the tires deliver less than an expected average your haulage costs are going to show a big increase.

Why not be sure of your costs in the beginning by equipping with Dunlops? They are hand-built to give you low-cost-per-mile.

Dunlop Solid Truck Tires are equally as dependable as
