Oh! The Great Flavor of Hickey's Twist

Yes! It is the only tobacco that has the real flavor, a flavor all its own. There is no other brand made to equal it. It is no use, a man will certainly not use any other, once he tries Hickey's, because he knows a good thing when he gets it. They all say: "Hickey's for mine."

INTERESTING HISTORY

On the 23rd of January last the Pastor, choir and quite a number of the Springvale Methodist Church Congregation assembled at the residence of Mr. and Mrs. Thomas Dollar the object of the gathering was to spend the evening in social friendly intercourse in this good old Methodist home, and also present a suitable address and pure gold offering to the Church organist Miss Jennie Cameron Dollar.

By this recent occurrence of Christian fellowship we are reminded of the early history of the Society a brief sketch of which might be interesting to the present Congregation. In the year 1855 a few families residing in Springvale whose religious views were in accord with Wesleyan Methodism, most earnestly desired a place of meeting where public worship could be held and gospel truths explained. For this purpose the district school house was engaged where regular services were held for about two years, the appointments being taken mostly by local preachers, the Rev. Charles Lloyd, rector of Milton parish Church of England holding occasional week night services. A Sabbath School was organized during the term, the day school master acting as Superintendent with two or three of the most advanced pupils as assistant teachers. An unusual performance in Sunday School training took place on a beautiful summer Sabbath day, when over 40 children varying in age probably from 9 to 16 years assembled at the old School House and formed a procession then marched a distance of nearly three miles to Milton Church where they were kindly received and addressed by the pastor. The reader view in imagination this happy youthful demonstration and also notice the friendly relationship existing between those two branches of the Christian Church and he should honestly decide that the Forward Movement must have been practised to some extent in those early days of Christian education. As the school house could not be engaged for a longer period, the family residence of the late Mr. Thomas Dollar and kindly of Mr. and Mrs. Dollar, was accepted and here the meetings were continued. It was during the occupation of this homely place of worship that the present Church building was erected neatly furnished and dedicated for future service to Almighty God. During its 60 years of existence it has been repaired and remodelled on two different occasions and re-opened, services being held in connection therewith. It is pleasing to learn that the present Church Association are earnestly striving for the advancement of social Christian and religious education, may their noble efforts in this direction be very successful and abundantly blessed in the present and future service to Almighty God. MARY PICKFORD, MOVIE ACTRESS, IN DISTRESS. LOS ANGELES, CAL., March 16.—Mary Pickford, weeping and worn, stumbled from the train here Saturday on her return from Minden, Nevada, where she obtained a divorce decree on Tuesday from Owen Moore.

Miss Pickford waited until the passengers had all left the car, then peered out, and seeing news paper men and camera men, flanked by a crowd of the curious, fled from the opposite side of the car. As she ran with tears streaming down her face she stumbled and fell. Her mother helped her up and they fled to a waiting automobile and sped away.

Miss Pickford would not pause to answer the questions fired at her by eager interviewers, but her mother spoke for her.

"This is entirely a personal matter," she said, "and neither the papers nor the public have any right to be prying into it. Why can't you leave the poor little girl alone? She's nervous and broken up. Can't you see she's crying. This is just needless cruelty."

ALL WEATHER COATS.—On rainy days a waterproof is an absolute necessity and when the weather is broken and the rainy season is here make sure you are properly garbed for it. Anyone buying a Scotch tweed rain coat such as Paton's are showing, will get double value for their money, for its appearance is correct in style and suitable for rain or shine. All Paton's raincoats, whether tweed, venetian, leatherette or transparent are made by expert tailors, carefully finished in every detail the result being a trim appearance to the wearer, especially if accompanied by one of the chic storm caps. The old reliable "slicker" is also fully stocked for grown ups and Misses at the old prices and in all sizes. 11.

TO HELP KING'S COLLEGE.—Seventeen years ago an attempt was made to move King's College from Windsor. That attempt was frustrated by the efforts of the friends of Kings, a society made up of Churchmen in all parts of the diocese and the diocese of Fredericton. A short time ago a disastrous fire occurred by which the main building at King's was burned to the ground. This calamity has been taken advantage of to renew the attempt so successfully made 17 years ago and the society of the friends of King's has been again called into existence and the Macedonian cry to "come over and help us" is going out to every son and friend of old King's. The headquarters of the society are at Halifax, with W. J. Poynter as president and Dr. M. A. B. Smith as secretary. Every churchman is eligible for membership. This society would like every graduate of King's and every churchman who is interested in this historic seat of learning to rally to the colors once more. This college is the landmark of the church in Nova Scotia and New Brunswick. In the province of Nova Scotia, fifty parishes are managed by King'smen. Its history is the history of the church in the Maritime Provinces. During the war all eligible students volunteered and went to the front. Many of them served with distinction. Many of its graduates who were in hot orders such as Warner, Ambrose, Andrew, Abbott, and Shottford went over and administered to sick and dying. His list of graduates is a proud one and contains the names of such men as the Stuarts, the Uniacks, the Binneys, Grays, Medleys, Williams, Tappers, Archibalds and other illustrious Canadians. Apart from the recent fire, the college is enjoying great prosperity and there is no valid reason why this should not continue. Speaking of the attempt to move the college to Halifax and make it an adjunct to Dalhousie and the report that St. John desires the college to remove to that city, the New Glasgow East end Chronicle says: "Neither of these larger cities have such an ideal situation for an educational institution as the peaceful, homely like town of the town. Its very environment lends itself to study and research and what is best and manly in the life of a young man. It would be a mere kindly action on the part of the interests in Halifax and St. John to lend themselves to re-establishing the famous school just as it was before it fell a victim to the fire fiend."

DIRECT SERVICE.—Messrs. Buntain Bell & Co., have been advised that the Canadian Government Merchant Marine have arranged for the first sailings of one of their steamers from Charlottetown to Liverpool, G. B., about the middle of June. This will be good news to the shippers of this province and it is to be hoped will mean the building up of a large trade between P. E. Island and the Old Country. It is interesting to note also that arrangements are also being completed for sailings from Charlottetown to Cuba and to South America during the months of November and December, providing that sufficient cargo is assured.

FAREWELL RECEPTION.—On the evening of Tuesday February 10th quite a large number of the young people of Hunter River assembled at the home of Mr. and Mrs. Wm. McDougall for the purpose of tendering a farewell reception to Mrs. Russell McNeill (nee Miss Lizzie Whitlock) who not long since had fallen a victim to cupid's darts and later had taken up her abode in the City of Charlottetown. Cupid had done his work so well and Mr. McNeill had been so successful in carrying off—as he himself expressed it—"the belle of Hunter River," so quietly that the young people had not had an opportunity of saying good-bye and wishing her well. But of the above mentioned date while she and her husband were spending a few days at her old home, the young folks of the village planned on giving "Lizzie" a surprise. Accordingly a home was to be secured at which the young people were to assemble and to which Mr.

FARMERS

You never know when your horses or cattle will be attacked by colic or indigestion, and how many of you have any remedies on hand in case of an emergency?

The mere cost of a few simple remedies is only very small when compared with the loss of a valuable animal.

To encourage the farmer to keep these necessary remedies on hand and to advance his education in the treating of the different ailments of horses and cattle, we will present to every farmer buying Five Dollars worth of veterinary remedies at our store the great veterinary book by Chas. T. Konivek, V.S.; for the State of Oregon. This book contains 256 pages of valuable information—is cloth bound—and well illustrated—and should be in every up-to-date farmer's home. We would advise you to write us, call or send for whatever remedies you may require as soon as possible, as these books will not last long. We have a full line of remedies and will be pleased to give you our advice.

If you wish to purchase the book only the price will be \$1.50.

Policemen Kill Negroes in Fight

BALTIMORE, MD., March 16.—Two armed negroes who attacked policemen were shot and killed in different parts of the city last night and a negro burglar was shot with a rifle as he leaped from the second story window of a home in north-west Baltimore. The burglar was captured by western district policemen when he applied for treatment at University Hospital. The first man killed was shot down by an enlisted military policeman from Camp Holabird after the negro had fired several shots at Patrolman Eaton, northeastern district, at St. Matthews and Dallas streets. The second man was killed by Patrolman J. P. Seidil, central district, when the negro, after firing three shots at another negro, turned on the patrolman and fired at him. The police were threatened by a mob of negroes.

New York Port Has New Strike

NEW YORK, March 16.—The strike of local longshoremen, checkers and dock workers to enforce demands for an increase in wages and adjustment of working hours which was unanimously voted last night, became effective this morning.

The unions involved claim a membership of between 7,000 and 8,000 but no figures were obtainable early today as to the exact number of men who obeyed the strike call. Steamship owners said, however, that if the full membership walked out, coastwise shipping would be nearly tied up.

The longshoremen are now paid 65 cents an hour for a basic eight hour day with \$1 an hour for overtime. The checkers want an increase from \$25 a week to \$28.50 and a deduction of four hours a week. The dock workers want a 25 per cent. increase in wages over their present scale of \$35 a week.

Steamship owners declared they were unable to meet the demands because they were bound by the award of the national adjustment commission, which was to remain in effect until Sept. 30, 1920.

Belgian-Dutch Agreement Upon Scheidt Reached

LONDON, March 16.—In about ten days the delegates who have represented Belgium in the Dutch-Belgian negotiations concerning the revision of the Treaty of 1839 will go to Paris to explain to the commission of fourteen the result of the negotiations and lay before it the text of the agreement which was reached, says a despatch to the London Times from Brussels. The Dutch delegates will do likewise later, and there is reason to believe the Dutch-Belgian agreement which is to take the place of the 1839 Treaty will be signed within five or six weeks. As regards the administration of the Scheldt, says the despatch, soldiers have been arrived at which the port of Antwerp, and the navigational conditions respecting the maintenance of the river have been agreed upon.

League Lopsided If America Out

LONDON, March 16.—Herbert Asquith, former premier, in a speech last night dealing with the League of Nations, said that as long as the United States did not share in the League it must be a fragmentary and lopsided assemblage. As far as he was able to judge, Mr. Asquith added, a vast majority of the people in the United States sympathized with the spirit and purpose of the League. It was impossible to believe that after rendering such signal and decisive service to the greatest cause ever at stake, the nations would allow the principles which inspired the Allies to be left in jeopardy.

Would be a calamity to the world and a terrible impoverishment of the League's resources, Mr. Asquith declared, if during the trying and critical times, ahead, America could not be relied upon as a partner and associate in the League.

LONDON, ONT., March 16.—William Elson, a farmer residing near Wingham, felled a huge soft elm tree, in the top of which was the winter home of a family of racoons, with three lusty youngsters. The lumber of the tree sold for \$93.14. Then the farmer sold the skins of the coons for \$70, making the total amount he realized from the tree and its occupants \$163.14.

Ice Racing

The Federal Trotting Club held two very successful races on Phoenix ice on Monday March 15th last. There was a large gathering including a number of ladies who waited to see each race finished both requiring five heats for a decision. The ice was in A-1 condition and some good clean racing was shown.

The Club will hold races again on Saturday March 20th weather and ice conditions permitting.
