Shannon Airport Hit By Furious Wind

SHANNON, Eire, April 23 (Reuters) — Shannon Airport's 80-foot control tower rocked today in a wind which reached 100 miles an hour at times.

In the most furious storm encountered at the airport, two moored planes creaked up, telegraphic communications were disrupted and windows were smashed.

To Save Money Fast Grow Perennials From Seed

There is no garden operation which saves money faster than growing one's own perennials.

When plants are purchased they are relatively expensive because of the long growing period, the intensive care they have had and the large percentage of loss.

Plants have never been grown successfully in large scale operations because of the limited area over which they can be distributed satisfactorily and the high cost of packing such fragile subjects for shipment.

The gardener who grows his own pays only for the seed. The task of caring for the plants and observing their growth is a fascinating recreation, if he is a true garden fan.

Among the perennials with which beginners will have little difficulty are columbines, dianthus, delphiniums, gailardias, coreopsis, hollyhocks, pyrethrums, sweet williams, veronica, spicata and violas.

Gardeners who plan to grow perennials from seed this year, and every gardener should plan to do so, will have an easier time of it if they will sow in April instead of waiting until June or later.

When summers are hot and dry it is often quite a task to get seeds to germinate in June, and seedling plants must be given extra attention at that time to keep from being scorched to death.

In April and May, however, we usually have cool, moist weather which hastens germination and is favorable to the young plants. Many

Double coreopsis is easily grown from seed sown early.

of the perennials germinate best in cool weather. Delphiniums, for example, grow best in a temperature of 40 degrees.

When seeds are sown in April or early May the seedlings should be transplanted in July so that they have room to develop into sturdy plants. They will be large enough by fall to be planted in the border where they are to grow.

Bristol

Friends of Mrs. Somerled Kelly, will be sorry to hear she is not in the best of health.

Mrs. Mary Sinnott, was in the city on Saturday to visit her mother in the hospital there.

Mrs. P. R. Sinnott, who has been ill for a short time has entered the Charlottetown Hospital for a serious operation.

Miss Bertha MacDonald, who was attending St. Joseph's Convent in the City till Easter will attend Bristol School for the balance of the season.

Mr. Joe Donovan, who plans to move his wife and family to Morrell Village to reside has his new home near the Little Flower Church about finished.

The Misses Josephine and Agatha MacDonald who are employed in the capital city spent the week-end with their parents here, Mr. and Mrs. William MacDonald.

At writing, a sea ice had returned to the north shore in this vicinity but the busy fishermen go right along with the task of getting gear and other supplies to the shore for the May 1st, start.

A number of anglers from the city mixed with a number from here, lined along the streams Saturday, among them Mr. John Dickie of the C. N. R. checking division.

A fisherman from Souris who will fish at Nufrage Harbor had a new boat built here this spring and intends to sail the new ship, from the Morrell river down the bay and out into the open sea and up the shore to his fishing station before May 1st.

Among those who suffer from the bad travelling on the clay roads is Father McKenna, who has two parishes. Fr. McKenna at times resorts to the old two-wheeled road cart but always keeps his appointments.

St. Peter's Harbor, which a few short years ago was crowded with vessels and other ocean going craft is no more. Visiting the old harbor now, you see a long sand beach where the channel was and the break water is buried.

Several women armed with mat hooks met at the home of Mrs. W. W. MacDonald here last week and for a few hours made the mat pattern quiver and change its locks. After the party was ended, another little surprise awaited the workers when a lovely lunch was served by Miss Mary MacDonald.

Speaking of trout fishermen, two of the best fishers ever to cast a line here are gone to another world. They were Ceph Davey, C. N. R. p. m. and commencing May 25th an additional service will be operated leaving Borden pier at 1.00 p. m. and Cape Tormentine pier at 3.00 p. m.

One often hears about chickens that come home to roost but Miss Mabel O'Brien has several sparrows that come home to lay and bring out their young every spring. The birds arrive and repair their nests under the protection of the veranda roof and here they hatch and sing all summer long. This spring they arrived again and are making quite a noise about getting settled. A lover of birds, Miss O'Brien and her father won't even let anyone look at the nests lest they disturb their singing friends.

Memorial Plaque At Newton Cross School

Newton Cross school was the scene of a memorable event, a short time ago, when a memorial plaque containing the names of all those belonging to the district who had taken part in the Second World War, including those who had made the supreme sacrifice, was unveiled by Mrs. James McKenna, who had lost a son in the conflict.

Mr. Mike Naddy was chairman and after explaining the object of the gathering, called upon the Inspector, Mr. John Gilmore, who had been especially invited to be present to address the meeting. Mr. Gilmore gave an instructive talk on Citizenship, which was much appreciated by pupils and visitors. He also explained to the pupils what the plaque stood for.

Among others present was Mr. Neil MacPherson, who had lost an only son in the war. A third who had given his life for his country was George Kelly, a brother of Monty Kelly. Proceedings closed with the National Anthem.

It was the W. I. who had the plaque placed in the school and special thanks is due Mrs. Gerald Roche, who had made arrangements for procuring the plaque, also for the lettering and framing of same. Five new desks were installed in the school by the Institute at the same time.
