**HORSE LOST THROUGH THE ICE.**—Mr. Benson Weatherbie of Vernon River lost a valuable horse through Orwell Bay ice on Friday night after attending the sale at Mr. Lewis farm at Orwell. He was driving along the ice about dusk another team being just ahead of him at the time, when suddenly his horse and sleigh plunged through the ice. Mr. Benson jumped off just in time to save himself. The horse in its struggles quickly disappeared under the ice taking the sleigh with it. Long rakos were secured shortly after the accident and the unfortunate animal was dragged from under the ice dead. The sleigh, except for the driver was empty at the time. The ice is now dangerous for travelling everywhere.

**A SAD AFFAIR.**—A very sad affair occurred at Farmington near St. Peters on Monday the 17th inst. David Larkin, a former resident of St. Peters who sold out and went West two years ago, returning some two months ago and who has since his return been living with his daughter, Mrs. Patrick Kelly, was found on above date in Mr. Kelly's woodshed hanging to a rafter quite dead. An inquest was held by Dr. McLaughlin, Coroner and jury returned a verdict of "death by suicide while laboring under a fit of temporary insanity." It appears that the unfortunate man was in a very melancholy state of mind since his return and worried a lot over some money matters. Deceased had been one of St. Peters' most successful and hard working farmers. He leaves three daughters and one son to mourn, his wife and two children having predeceased him. He was about seventy years of age. The sad affair has cast a gloom over the entire community. (Patriot please copy.)

## THRIFT

This word was symbolized and interpreted aright by the French people prior to and after the War of 1870-71. Every nation which was engaged in the World War must learn the lesson of THRIFT and practice it from now on, and none more so than the Canadians.

Every dollar saved is a dollar added to the country's financial strength, and the country's revenues are thereby increased.

# VEEDOL

Veedol is called "The Lubricant that resists heat." Think carefully just what that phrase means—there are lubricants which do not resist heat and are consequently cheaper to buy.  
But for use, for service, and for its effect within the cylinders of the internal combustion engines of automobile, motorboat or airplane, Veedol is the cheapest lubricant that can be obtained. The cost of a cylinder oil is to be measured by its lubricating value and on this basis Veedol is the choice of the experienced Motorist.
