FROM LAST TO FIRST

People used to take plain cod liver oil for coughs, colds, throat and lung troubles after other remedies had failed.

Scott's Emulsion is the modern idea of cod liver oil—the first instead of the last resort when such ailments appear.

The taste of the oil is not apparent and the oil itself is partly digested—makes it easy for the stomach. Scott's Emulsion is a quick, reliable help at all ages.

The ladies acted their part well at the leap year skate in Crystal Rink Monday night. The attendance of skaters was large and there was a fair number of promenaders.

At the regular meeting of Court Chautauqua, I. O. F. next Friday evening Capt. Joseph Read, M. L. A. will give an address on "The future of Canada". All members of the Order including Companion and neighboring Courts are invited to attend.

A SLIGHT fire in the residence of Colin Creswell, St. Eleanors was started from an over-heated stove pipe in the second flat of the dwelling yesterday morning and was checked just in time to prevent a serious conflagration. Some clothing was destroyed and a portion of the woodwork in the room considerably charred.

THE Rev. W. B. Sisam, who has been acting as assistant to Canon Crawford, at St. Luke's, for some months, leaves shortly to enter upon his duties in connection with his appointment as rector of a P. E. Island parish. His many friends in Halifax had hoped that he would not leave until after Easter, and will say good-bye reluctantly.—Halifax Herald.

SUMMERSIDE came nearly having a suicide tragedy on Tuesday. Lulu Perry a girl of about 16 years of age, residing in the west end purchased a small bottle of carbolic acid at Gourlie's drug store during the afternoon and about 6.30 p. m., while in the home of Kate Strang at whose place she often frequented, she swallowed a small portion of the contents of the bottle. When the act became known to those in the house, whose suspicions were first aroused through the odor of the acid, a physician was summoned and the patient treated with restoratives. Though her mouth and throat were considerably burned she had apparently not taken enough to prove fatal before the doctor arrived and in a short time was out of danger. No definite reason is given for the rash act, but many conflicting stories are told, some assigning a love quarrel as the cause.

When a man is born on the 29th day of February it is not often in a life-time that he can celebrate the anniversary of his birthday; and when this date is also his wedding day it might puzzle him to know not only his exact age, but just how long he has been married. To say that a man born on the 29th day of February 1896 was only one year old on February 1904 seems absurd; yet this is the first anniversary—if it may be termed the anniversary—of his birthday. And just so when he is married on that odd day, that extra day, in February, four or eight years must elapse before he can celebrate his wedding day. At this rate it would be a long time ere he could hold his Golden Wedding. Some would be inclined to think that any time between the evening of the 28th of February and the dawn of March 1st on an ordinary year would be near enough to set the anniversary. Perhaps it would, but it does not seem like the real date. On the 28th day of February this year there are doubtless many who are eight years older or eight years longer married than on the 28th of February 1896; and still last year they could not say just when they were seven years older or seven years longer married. These questions, however, little troubled a couple who were the principal guests in their own home at a leap year celebration on Monday evening last when an event of unusual interest took place at the home of R. A. Elliott, Elliott's Mills, whose birthday falls on February 29th, and whose marriage was also on that day of the month eight years ago. A large number of friends called at the home of Mr. and Mrs. Elliott, and by way of a surprise party took charge of the place, spending a most enjoyable evening. Mr. and Mrs. Elliott were the recipients of many valuable presents and good wishes for many more leap years to come. After an impromptu program of music, merry-making, etc., not forgetting the tripping of the light fantastic, the hours were whiled away in a happy manner. Congratulations.

The month of February just passed like the preceding month was one of the record breakers of the age. On thirteen days the thermometer registered below zero. According to observations taken at the Metsorologcal Station the lowest temperature for the 2nd day of the month was 4 below zero, on the 3rd and 4th 6 below, on the 5th 10 below, on the 6th 20 below, on the 7th 4 below, on the 8th at zero, on the 9th 7 below zero, on the 10th 6 below, on the 14th 2 below, on the 15th 3 below, on the 21st 6 below, on the 25th 2 below and on the 26th 10 below. The average minimum temperature for the month was 3.9 above zero. The average minimum temperature for Feb. 1903 was about 10½ above, in 1902 about 16½ above, in 1901, 15½ above and in 1900 about 13½ above.

THE EDITOR'S MAIL.

SIR:—there is great indignation in the west about the way the trains are being handled. The Souris experience was verified at Alberton on Monday where one engine and snowplough laid up till a second came down from Tignish on schedule time. The disposition and capacity of the engines is common talk and certainly it is thought to be evidence of mismanagment that regularity is not maintained. On this point the President of the Board of Trade protested vigerously to Superintendent Sharpe by wire Monday blaming the management not only for that day's tie-up but every one since the season opened. Where are the engines anyway?

WESTERN.

Sir:—I noticed in your paper the efforts put forth by your progressive citizens to add to your hotel acomodations, passengar depot etc. all of which are much needed.

It was the writer's privilege to spend two months on the Island in 1863 and almost the same length of time in 1903 and the changes that forty years have made in the city, its mode of doing business, is very marked.

The public Square was occupied by the Colonial Building, the old Octagon Market House standing near the present Scale House and a small wooden building for the Post Office. The Colonial Building loomed up quite conspicious. Back from it was the Protestant Cemetery a beautiful kept place, now gone to ruin) an eye sore to the passerby, while all else has improved almost beyond comprehension. I have been in thirty-four of the States and Territories, Upper and Lower Canada, Nove Scotia, New Brunswick and Cape Breton, and Charlottetown has the cleanest kept streets and alleys that I have ever seen in any city great or small. You citizens and officers are to be congratulated in this respect. But I think the cemetery above referred to is a disgrace. As it is my intention to visit P. E. I. if health permits ofener than in the past, I hope to see a change,

Yours Truly

A GREAT LITTLE WORKER.

During a long life time the heart will propel half a million toos of blood through the body, and so long as the blood is in a healthy condition it will repair itself as fast as it wastes, patiently keeping up the play of its valves and the rhythm of its throb. If the action of the heart gets weak, irregular and fluttering, the blood is lacking in nourishing qualities and requires just such assistance as is best supplied by Dr. Chase's Nerve Food, the great blood builder and nerve restorative.

CONSERVATIVES WILL CONTEST

The Local Election for Charlottetown—P. S. Brown Nominated as Candidate by a Large Meeting Last Night.

The Liberal Conservative Convention last night in the B. I. S. Hall was largely attended by members of the party in Charlottetown and Royalty. The hall was filled to the seating capacity and many were standing.

The chair was occupied by P. S. Brown and the Secretary was J. J. Johnston.

The question of the expediency of contesting the election was discussed at length by James Paton, S. W. Crabbe, Dr. S. R. Jenkins, John Saunders, E. Harris, A. E. Lyon, S. Bolger, A. A. McDonald, Peter McCourt, R. B. Norton, D. Currie, W. E. Bentley, L. P. Tanton, W, L. Cotton, E. H. Duchemin, A. W. Scott and others, and the general opinion was enthusiastically in favor of a contest.

On motion of Dr. Jenkins seconded by A. Horne and supported by S. Bolger the nomination unanmously was offered to Mr. Crabbe. The latter at first asked for time to consider but on being pressed for an answer at the present time he said he felt obliged to decline the nomination.

After some further consideration it was moved by John McMurrer and seconded by P. H. Trainor that P. S. Brown be the candidate. The motion was unanimously carried amid cheers for the nominee.

Mr. Brown at first promised an answer today but on being pressed consented to run if the meeting and all Liberal Conservatives would give him their hearty support.
