

Lasts a Lifetime.

That is just what they say of Vapo-Cresolene. The vaporizer is practically indestructible, and the Cresolene is certainly not expensive. This way of treating affections of the throat is most economical, and is also most effective. Our little picture illustrates how it's used. You put some Cresolene in the vaporizer, light lamp beneath, and then breathe-in the soothing, healing vapor. For whooping-cough and croup it's a perfect specific.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, \$1.50. Extra supplies of Cresolene and extra outfits illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 116 Fulton St., New York, U.S.A.

Blood Disorders

are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation, strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is.

FRUIT GROWING

is getting to be one of the principal industries of our province. FRUIT GROWING cannot be carried on successfully unless the first trees are systematically sprayed.

SPRAYING cannot be conducted on any extensive scale without the use of an orchard spraying machine. Therefore every fruit grower must have a proper machine with which to spray his trees.

"THE SPRAMOTER"

is the best spraying machine to be had in Canada to-day. Won gold medal at the Pan American and first prize over all machines at the Government spraying contest at Grimby, Ont. Used on all the experimental farms and by all the horticulturists everywhere.

Made in different styles and sizes, ranging in price from \$25.00 to \$50.00. For all particulars write or see J. W. Boulter, North Tryon or John P. Irving, Cape Traverse.

This is what Rev. J. J. McDonald of Kinkora says about the Spramoter: I have used the Spramoter for which Mr. J. W. Boulter, Tryon, is agent on P. E. Island and have found it to give perfect satisfaction. I heartily recommend it to the fruit growers of the province as an indispensable article in orchard management.—J. J. McDONALD, P. E. Kinkora.

It is intended to apply to the Stock Exchanges in New York, Boston, Montreal and Toronto for the listing of the Stock of the Company.

THE CANADIAN STEEL AND COAL COMPANY Limited, was organized to mine and manufacture iron and steel, and to sell raw materials for these manufacturers are:—

1. COAL. 2. IRON. 3. LIMESTONE.

A list of these materials we have at hand.

The Company has acquired by purchase, immense iron deposits on the North Shore of the Gulf of St. Lawrence, about 350 miles from Sydney. The deposits are estimated to contain 20,000,000 tons of ore above sea level, with probably as much more below that line. The iron can be handled for \$1.00 per ton or less. Quantities of this ore have been shipped to Great Britain and United States where it has given great satisfaction, and we can sell large quantities, f. o. b. at the properties, netting us a profit of \$2.00 per ton. This ore makes the finest steel.

Output.

When in full operation the output is expected to be about as follows:

1. IRON.—200,000 tons iron ore shipped direct from property, showing net profit of \$2.00 per ton, total \$400,000.00
200,000 tons five iron ore shipped in briquettes, showing net profit of \$4.00 per ton, total \$800,000.00
100,000 tons steel blooms showing net profit of \$3.00 per ton, total \$300,000.00
2. COAL.—600,000 tons coal, showing net profit, at least, \$1.00 per ton, total \$600,000.00
3. AIDS.—Government bounties (averaged) added to above per year for 6 years \$100,000.00

Total net annual profits \$2,300,000.00
LESS FIXED CHARGES:
5 per cent interest on bonds 70,000.00
7 " " on preferred stock 70,000.00
Sinking Fund 25,000.00
Incidentals 200,000.00

Net yearly profits \$2,000,000.00

Equivalent to yearly dividends of 30 per cent, or 15 per cent, half-yearly on total capitalization. \$20,000,000.00

If the capitalization was increased to this estimate would still show a dividend-earning capacity of 10 per cent, per annum. \$20,000,000.00

The capitalization of the Dominion Coal Co., is earning fully 12 per cent., and is paying 8 per cent, guaranteed dividends on this enormous sum. \$20,000,000.00

The capitalization of the Dominion Iron and Steel Company is on which it is believed 6 per cent dividends will be earned. \$20,000,000.00

The capitalization of the Canadian Steel and Coal Company is only \$6,000,000.00

Within the last few months Dominion Coal shares common rose in market value from \$40 to \$144 per share, and Dominion Iron and Steel Company's shares common rose over \$30 per share in market value.

With such low capitalization The Canadian Steel and Coal Co's shares would show tremendous profits, and it is confidently believed they will.
