TEMPERANCE AND MORAL REFORM.—Interesting sermons were preached at Grace Methodist Church yesterday morning and at First Methodist Church in the evening by the Rev. J. W. Smith, M. A., one of the Field Secretaries of the Prohibition Temperance and Moral Reform Department of the Methodist Church in Canada. Mr. Smith is a forcible speaker with an attractive and clear delivery, but unfortunately was rather hoarse from a severe bronchial affection. In his powerful address at the First Methodist Church in which he outlined the activities of the Department he represented, he urged the necessity of individual social service and charitable works among men as one of the means of their salvation. He uttered strong denunciations against intemperance, particularly in regard to some of the practices obtaining in this Island, against the horrible housing conditions existing in the slums of the larger cities, and against the accursed white slave traffic, the outcome, he declared, of the hellish lust of brutish men.

THE S. S. CABOFA arrived here on Friday afternoon last from Sydney, C. B., with a cargo of coal to Buntain Bell & Co. This steamer discharged and sailed at midnight of the same day, returning to Sydney. She is expected back here to-morrow morning with about 150 tons wire nails, etc., for the Rogers Hardware Co., and as balance of her cargo, coal for A. Pickard & Co.

THE S. S. CACOUNA arrived at Charlottetown on Saturday afternoon from Sydney, C. B., with a full cargo of coal for Buntain Bell & Co. After discharging her coal cargo she will load a full cargo of produce, horses, cattle and sheep for St. John's, Newfoundland, direct. As her outward cargo is now nearly all here ready for loading, it is expected that this steamer will sail about noon on Saturday next.

CONVINCED.—Mr. George H. Laidlaw returned from Prince Edward Island last week, says the Halifax Maritime Merchant. He says the fox industry is making greater progress than ever. He is a convert to the belief that raising foxes is going to be a profit maker for some years. "At first," said he, "I was very skeptical. I refused to go in during 1909 and 1911, but I did buy some shares last year, and they have given me a cash dividend of 22 per cent. My only regret is that I hadn't been so 'wise' in 1909. Had I been 'foolish' like a few of my friends on the Island I might now be in a position where I should not care whether I ever sold another pound of tea as long as I lived."

ISLAND POTATOES.—With respect to potatoes, says the Halifax Maritime Merchant, the trade report an unsatisfactory experience this year; as the dry rot is particularly noticeable. Dealers are putting in very small quantities on this account. There is a fairly active demand, locally, for all that, and considerable sales of bagged potatoes from Island schooners are being made at auction. We are told that Island shippers, as predicted, have been sending potato cargoes up to Boston, and there have not been as many as usual at this port. We understand, too, that large quantities will be

stored on the Island in anticipation of a better market in the Spring, but in view of poor keeping qualities, it is thought by some dealers that this may not prove very satisfactory. Island potatoes are selling at the wharves at about 50 cents a bushel.

THE SIXTH ANNUAL SHOW of the P. E. I. P. A. promises to be the best and largest poultry show ever held in this Province. There will be the usual long list of exhibition of fancy birds, and large utility and dressed poultry classes have been added to the attractions this year. There will be egg candling demonstrations, plucking contests and lectures. The entries for dressed poultry are free and the utility class arranged specially for our farmers should be well patronized. Cheap railway rates have been arranged from all railway stations on the Island, to Charlottetown and return from 15th to 20th December; these tickets will be issued from all stations to Charlottetown to 19th December on the basis of single first class fare for return journey, providing that holders of tickets obtain the signature of the secretary of the P. E. I. P. A. on their tickets to make them available for return journey. It is hoped that the public generally will support the efforts of the Department of Agriculture to boost this great industry by attending the show in large numbers. 3099.

(From Saturday's Evening Guardian.) EXAMINATIONS.—The following are the results of the examinations in the Mount Stewart School for the month of November:—Grade VI.—1, Muriel Birt; 2, Annie Grants; 3, Isabel Ross. Grade V.—1, Ervin Jay; 2, Lane Pigott; 3, Wendell Glover. Grade IV.—1, Ernestine Grant; 2, Jennie Douglas; 3, Ella Glover.—L.

WEDDING BELLS.—The marriage took place at the Manse, Wood Islands, on the 3rd of Dec. 1913, by the Rev. John Gillis of Mr. Neil McLean of Caledonia and Miss Effie McPherson, daughter of Mr. Murdoch McPherson of the same place. The bride was attended by Miss Walker, while the groom was supported by Mr. McPherson of Brookline.

RAILWAY DELAYS.—Mr. R. E. Ward of Haverhill, Mass., arrived in Charlottetown last evening having been called home by the illness of his wife who resides in Orwell. Happily Mrs. Ward is improving and her early recovery is looked for. Mr. Ward on his way home was greatly delayed, in fact witnessed three train wrecks within twenty-four hours. Just outside of Vancouver five freight cars of the Main Central train ran off the track and were broken into kindling wood, blocking the track for several hours and causing much excitement. Soon after the line was cleared the Montreal express came along and passed the wreck but a little further on one of its cars ran off causing another delay of over three hours. A similar accident occurred to the same train at St. John while backing outside the station. No one was injured although the delays in many cases were quite serious.

DON'T LET GRAY HAIR MAKE YOU LOOK PREMATURELY OLD

Nothing will so quickly and surely rob a woman of her charm as gray and faded hair, and nothing is so easily preventable.

A few applications of Hay's Hair Health will restore gray hair to its natural color and luxuriance. It is not a dye. It is a tonic that stimulates and invigorates the scalp and hair roots to the proper performance of their functions thereby bringing back the original color of the hair. It cures dandruff.

Your money will be refunded if it fails to do this. \$1.00, 50c., 25c. Get it at our store. Sold and recommended by E. A. Foster, druggist, Charlottetown.

The Annual Sale of Handkerchiefs and Aprons

Opens this morning at STANLEY BROS. For a number of years past this handkerchief and apron sale has been the great event of the Christmas season and here once again after a year's work we make our great display. Over 1000 dozen of handkerchiefs from every corner and country of Europe have been assembled and are now on display.

The aprons too, are in a class by themselves and we venture to say one could not find a larger display than ours this side of Montreal. They embrace all the newest ideas in the little fancy tea aprons, both as to materials and makes. The larger aprons for housework are tip-top values and good styles. The prices are small considering the quality of materials and general finish.
