HOME SEEKERS' EXCURSIONS.

The Grand Trunk Railway has issued a circular authorizing all Agents in Canada to sell Home Seekers' Excursion tickets to points in Western Canada. This is interesting information for those desiring to take advantage of these excursions on certain

dates from April to September 1911. The Grand Trunk Route is the most interesting, taking a passenger through the populated centres of Canada, through Chicago and thence via Duluth or Toronto and the twin cities of Minneapolis and St. Paul. Ask Grand Trunk Agents for further particulars. W. K. Rogers, City Ticket Agent. 3-23dtstulsep19.

"Cut Out" Coal Extravagance

There's just as much room for economy in buying coal as any other necessity of life.

While Inverness Coal has more heat units to the ton than any other coal it costs no more than the common coal.

The use of a little judgment or "cut out" will tell any person that the coal with the greatest amount of heat-producing qualities is the most economical to buy. Inverness is properly screened coal—every particle of foreign matter is extracted, leaving nothing but a good, uniform standard of clean, screened coal.

Buy the coal that will save dollars.
